

## **NDIR Submission from Vic Smith**

Hi there,

National Disaster Relief Fund Lotto on a Friday night would be the way to go to cover the cost of National Disasters in the future. People don't want any more taxes or levy's because once they pay a tax or levy they don't have any chance of receiving any of that money back. With a National Disaster Relief Fund Lotto on a Friday night people have a chance of a return and it would be more appealing to them.

This would be a far quicker way of raising money for Disasters as a nation.

People will not trust the disaster insurance. The insurance company will find a way to get out of paying for the disasters as they do with car, house and contents insurance covers. I hope you give this some serious thought as it is very important to make sure the money is there for future disasters.

Thank you.

Take Care,

Vic Smith,
