Dear Mr Heferen,

**RE: Rethink Tax Discussion Paper**

National Australia Bank (NAB) is pleased to provide a submission in response to the Tax Discussion Paper.

The submission outlines NAB's view on the current taxation system and provides ideas for how the system could be improved.

As a large contributor to the Australian economy and significant employer, we look forward to further engaging in the process through the Green Paper.

We would welcome the opportunity to discuss the submission further with you or members of the Task Force.

Yours sincerely,
