IT-ENABLED BUSINESS PROJECTS — PROGRAM OF WORK

The Information Management and Technology Services Division is currently managing a substantial program of IT-enabled business projects.

Projects are managed using the PRINCE2 project management methodology and each project has a Project Board. A status report is presented to the IT Projects Committee at monthly committee meetings.

KEY POINTS

- All projects are currently progressing on time and to budget.

- The Executive Board recently agreed to an IT disaster recovery project that is scheduled to commence in March 2011.

ATTACHMENTS

- Status report on IT-enabled projects as at 31 January — Attachment 1

- IT disaster recovery project outline — Attachment 2
