

Hi, I am nearly half way through my 4 year 457 visa and LAFHA makes a massive difference to my ability to maintain a standard of living for myself and my family.

Working for EMC in Perth I am a valued employee delivering a good service, however without IAFHA I will need to reconsider my options. As you would be aware as a non resident I receive little or none benefits for my family of 3 children aged 7,5 & 2.

My wife does not work as we have a young son.

I appreciate there are some that abuse the benefits at hand, but that is a minority and the removal of LAFHA will hamper the life of those that need it to allow em to assist cover the substantial costs of moving overseas.

I hope it I retained moving forward

Kind regards

Dave Miles
