#### 1.1 STRATEGIC DIRECTION

There has been no significant change to the strategic direction of the Australian Taxation Office (ATO) from that outlined in the *Portfolio Budget Statements* 2012-13 (pages 181-182).

The ATO is seeking \$19.0 million in departmental funding through Appropriation Bill (No. 3) 2012-13. This relates to an additional \$36.5 million which is offset by a reduction of \$17.5 million.

The additional \$36.5 million relates to \$0.1 million for supplementation for fringe benefits tax changes to living-away-from-home allowances and benefits, \$0.2 million for the 2015 Cricket World Cup, and the following measures outlined in the *Mid-Year Economic and Fiscal Outlook* 2012-13:

- Monthly PAYG instalments for large companies (\$2.4 million);
- Private Health Insurance Rebate indexing the Government's contribution (\$2.2 million);
- Private Health Insurance Rebate removal of rebate on lifetime health cover loading (\$1.2 million);
- Superannuation reform of arrangements relating to transfer of lost member accounts to the ATO (\$5.6 million);
- Superannuation reform of SMSF levy arrangements (\$0.6 million); and
- Tax compliance maintaining the integrity of the tax and superannuation system (\$24.3 million).

This funding is offset by a reduction of \$17.5 million that relates to the Company tax cut — do not proceed (\$0.6 million) and Fire Service Levy — reduction (\$0.2 million) measures as outlined in Budget Paper No. 2, *Budget Measures* 2012-13, and the following measures outlined in the *Mid-Year Economic and Fiscal Outlook* 2012-13:

- SuperStream reduction in Superannuation Supervisory levy (\$2.0 million); and
- Targeted savings public service efficiencies (\$14.8 million).

The ATO is also seeking an additional \$0.3 million in administered items through Appropriation Bill (No. 3) 2012-13. This is associated with the Superannuation — reform of arrangements relating to transfer of lost member accounts to the ATO measure outlined in the *Mid-Year Economic and Fiscal Outlook* 2012-13.

The ATO is also seeking an additional \$1.7 million as an equity injection through Appropriation Bill (No. 4) 2012-13. This is associated with the Superannuation — reform of arrangements relating to transfer of lost member accounts to the ATO measure outlined in the *Mid-Year Economic and Fiscal Outlook* 2012-13.

# 3.1.1 Estimates of special account flows

Special accounts provide a means to set aside and record amounts used for specific purposes. Table 3.1.1 shows the expected additions (receipts) and reductions (payments) for each account used by the ATO.

#### 3.2 BUDGETED FINANCIAL STATEMENTS

#### 3.2.1 Analysis of budgeted financial statements

#### Budgeted departmental comprehensive income statement

The ATO is budgeting for a balanced budget in 2012-13 after income tax equivalents expense from the Australian Valuation Office (AVO). This excludes the impact of Operation Sunlight changes to funding whereby depreciation and amortisation expenses are not funded by appropriation from 2010-11 onward.

The budgeted departmental comprehensive income statement also reflects changes arising from Budget measures as outlined in Table 1.2.

### **Budgeted departmental balance sheet**

The ATO's assets are predominantly non-financial assets. In 2012-13, the increase in non-financial assets reflects the continued development or improvement of internally developed systems and software in support of the Government's 'Stronger Super' initiatives. The ATO is also continuing to refresh a number of property holdings which are subject to lease expiry.

The ATO's liabilities continue to be predominantly employee entitlements.

#### Notes to the financial statements

#### **Basis of accounting**

The budgeted financial statements have been prepared on an accrual basis.

#### Notes to the departmental statements

The departmental financial statements, included in Tables 3.2.1 to 3.2.6 have been prepared on the basis of Australian Accounting Standards and Department of Finance and Deregulation guidance for the preparation of financial statements.

The budget statements and estimated forward years have been prepared to reflect the following matters.

#### Cost of administering goods and services tax

Departmental statements include the estimated costs of administering the goods and services tax (GST) under the 'intergovernmental agreement on the reform of Commonwealth-State Financial Relations'. The GST revenue is collected on behalf of the States and Territories which agree to compensate the Australian Government for the agreed GST administration costs.

The recovery of GST administration costs are reported under the Treasury.

#### Notes to the administered statements

The administered financial statements at Tables 3.2.7 to 3.2.9 have been prepared on the basis of Australian Accounting Standards and Department of Finance and Deregulation guidance for the preparation of financial statements.

The standards require that taxation revenues are recognised on an accrual basis when the following conditions apply:

- the taxpayer or the taxpayer group can be identified in a reliable manner;
- the amount of tax or other statutory charge is payable by the taxpayer or taxpayer group under legislative provisions; and
- the amount of the tax or statutory charge payable by the taxpayer or taxpayer group can be reliably measured, and it is probable that the amount will be collected.

The amount of taxation revenue recognised takes account of legislative steps, discretion to be exercised and any refunds and/or credit amendments to which the taxpayers may become entitled.

#### Recognition of taxation revenue

Taxation revenue is recognised when the Government, through the application of legislation by the ATO and other relevant activities, gains control over the future economic benefits that flow from taxes and other statutory charges. This methodology, known as the Economic Transaction Method (ETM), relies on the estimation of probable flows of taxes from transactions which have occurred in the economy, but have not yet been reported, and are likely to be reported to the ATO through an assessment or disclosure.

However, in circumstances when there is an 'inability to reliably measure tax revenues when the underlying transactions or events occur', the accounting standards permit an alternative approach known as the Taxation Liability Method (TLM). Under this basis, taxation revenue is recognised at the earlier of when an assessment of a tax liability is made or payment is received by the ATO. This recognition policy means that taxation revenue is generally measured at a later time than would be the case if it were measured under the ETM method.

In accordance with the above revenue recognition approach, the ATO uses ETM as the basis for revenue recognition, except for income tax for individuals, companies and superannuation funds and superannuation surcharge which are recognised on a TLM basis.

#### Items recognised as reductions to taxation revenue

The following items are recognised as reductions (increases) to taxation revenue and not as an expense:

- refunds of revenue; and
- increase (decrease) in movement of provision for credit amendments.
