

Do not touch, fiddle or wreck my option in superannuation to take my lump sum. Yes MY LUMP SUM, this is money that I have put away for decades and fully intend to use to pay down debt whenever I decide to retire, I am 56 years old and less than five years away from retirement and need my lump sum.

This is not the soviet union where all options are decided for you favoring the state of course.

It's my money and my choice, stay away from changing the rules, moving the goals posts whatever, my super is exactly that, MY SUPER and I will decide how I take it, lump sum or otherwise.

It will be political dynamite if you go anywhere near this option to restrict access to my super, I for one will be protesting on the streets and at my local members office.

LEAVE MY SUPER ALONE!
