**USER GUIDE  
TO THE  
PORTFOLIO ADDITIONAL  
ESTIMATE STATEMENTS**

# **USER GUIDE**

The purpose of the Portfolio Additional Estimates Statements (PAES), like that of the Portfolio Budget Statements (PB Statements), is to inform Senators and Members of Parliament of the proposed allocation of resources to Government outcomes by entities within the portfolio. The focus of the PAES differs from the PB Statements in one important aspect. While the PAES include an Entity Resource Statement to inform Parliament of the revised estimate of the total resources available to an entity, the focus of the PAES is on explaining the changes in resourcing by outcome(s) since the Budget. As such, the PAES provides information on new measures and their impact on the financial and/or non-financial planned performance of programmes supporting those outcomes.

The PAES facilitate understanding of the proposed appropriations in *Appropriation Bills (Nos. 3 and 4) 2014-15*. In this sense the PAES is declared by the Additional Estimates Appropriation Bills to be a 'relevant document' to the interpretation of the Bills according to section 15AB of the *Acts Interpretation Act 1901*.

Whereas the *Mid-Year Economic and Fiscal Outlook (MYEFO) 2014-15* is a mid-year budget report which provides updated information to allow the assessment of the Government's fiscal performance against its fiscal strategy, the PAES update the most recent budget appropriations for entities within the portfolio.

# Structure of the Portfolio Additional Estimates Statements

The PAES are presented in three parts with subsections.

## User Guide

Provides a brief introduction explaining the purpose of the PAES.

## Portfolio Overview

Provides an overview of the portfolio, including a chart that outlines the outcomes for entities in the portfolio.

## Entity Additional Estimates Statements

A statement (under the name of the entity) for each entity affected by Additional Estimates.

<b>Section 1: Entity Overview and Resources</b>	This section details the total resources available to an entity, the impact of any measures since Budget, and impact on <i>Appropriation Bills Nos. 3 and 4</i> .
<b>Section 2: Revisions to Outcomes and Planned Performance</b>	This section details <b>changes</b> to Government outcomes and/or <b>changes</b> to the planned performance of entity programmes.
<b>Section 3: Explanatory Tables and Budgeted Financial Statements</b>	This section contains updated explanatory tables on special account flows and staffing levels and revisions to the budgeted financial statements.

### **1.1 STRATEGIC DIRECTION**

There has been no significant change to the strategic direction of the Department of the Treasury (the Treasury) from that outlined in the *Portfolio Budget Statements 2014-15* (pages 15-17).

As a result of Administrative Arrangements Orders in December 2015 small business programmes were transferred to the Treasury from the Department of Industry.

The Treasury is seeking an additional \$0.62 million in departmental funding through *Appropriation Bill (No. 3) 2014-15*. This comprises an additional \$0.65 million for the Global Infrastructure Hub measure outlined in the *Mid-Year Economic and Fiscal Outlook 2014-15*, offset by \$9,000 for the Communications and Public Affairs Functions – targeted savings measure outlined in Budget Paper No. 2, *Budget Measures 2014-15* and \$21,000 for the Internet Based Network Connection Services savings outlined in the *Mid-Year Economic and Fiscal Outlook 2009-10* and Budget Paper No. 2, *Budget Measures 2010-11*.

The Treasury is seeking an additional \$4.7 million in administered funding through *Appropriation Bill (No. 3) 2014-15*. This comprises \$3.4 million for the Global Infrastructure Hub measure outlined in the *Mid-Year Economic and Fiscal Outlook 2014-15* and \$1.3 million for the International Monetary Fund (IMF) Poverty Reduction and Growth Trust.

### **1.2 ENTITY RESOURCE STATEMENT**

The Entity Resource Statement details the resourcing for the Treasury at Additional Estimates. Table 1.1 outlines the total resourcing available from all sources for the 2014-15 Budget year, including variations through *Appropriation Bill Nos. 3 and 4*, Special Appropriations and Special Accounts.

There has been no significant change to the program objective, deliverables or key performance indicators from that included in the *Portfolio Budget Statements 2014-15*.

On 16 November 2014, G20 Leaders agreed to establish a Global Infrastructure Hub in Sydney to help implement the G20 multi-year infrastructure initiative. The Hub will work internationally to leverage greater private sector involvement in infrastructure. It will do this through information development, knowledge sharing, training and the implementation of leading practices. The Australian government will contribute

## *Entity Additional Estimates Statements – Treasury*

\$30 million to the establishment and operation of the Hub until 2018. Additional financial contributions, and in-kind resourcing, are also expected from other governments, international organisations, development banks and the private sector.

In December 2014 Treasury transferred funding for the development and implementation of the North Queensland Insurance Comparison Website to the Australian Securities and Investments Commission.

## Notes to the financial statements

The Treasury's budgeted statements are prepared on an accrual basis in accordance with:

- the Government's financial budgeting and reporting framework; and
- Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board.

Under the Government's accrual budgeting framework, and consistent with Australian Accounting Standards, transactions that departments control (departmental transactions) are separately budgeted for, and reported on, from transactions departments do not have control over (administered transactions). This ensures that departments are only held accountable for the transactions over which they have control.

### Departmental

Departmental assets, liabilities, revenues and expenses are controlled by the department. Departmental expenses include employee and supplier expenses and other administrative costs, which are incurred by the department in providing goods and services.

### Administered

Administered items are revenues, expenses, assets or liabilities which are managed by the department on behalf of the Government according to set government directions. Administered expenses include subsidies, grants and personal benefit payments, and administered revenues include taxes, fines and excises.

ASIC does not have any administered non-financial assets.

## **Notes to the Financial Statements**

### **Basis of accounting**

The budgeted financial statements have been prepared on an Australian Accounting Standards basis.

### **Budgeted agency financial statements**

Under the Australian Government's accrual budgeting framework, and consistent with Australian Accounting Standards, transactions that agencies control (departmental transactions) are separately budgeted for and reported on from transactions that agencies do not have control over (administered transactions). This ensures that agencies are only held fully accountable for the transactions over which they have control.

Departmental items are those assets, liabilities, revenues and expenses in relation to an agency or authority that are controlled by the agency. Departmental expenses include employee and supplier expenses and other administrative costs which are incurred by the agency in providing its goods and services.

Administered items are revenues, expenses, assets and liabilities that are managed by an agency or authority on behalf of the Australian Government according to set government directions. Administered expenses and administered revenues include fees, fines and expenses that have been earmarked for a specific purpose by the Australian Government.

### **Appropriations in the accrual budgeting framework**

Under the Australian Government's accrual budgeting framework, separate annual appropriations are provided for:

- departmental appropriations representing the Australian Government's purchase of programmes from agencies;
- departmental capital appropriations for investments by the Australian Government for either additional equity or loans in agencies;
- administered expense appropriations for the estimated administered expenses relating to an existing outcome or a new outcome; and
- administered capital appropriations for increases in administered equity through funding non-expense administered payments.

## **Departmental**

### **Asset valuation**

ASIC has adopted fair value as a basis for valuing its leasehold improvements and plant and equipment. Valuation is conducted with sufficient frequency to ensure that the carrying amounts of assets do not differ materially from the assets' fair values as at the reporting date.

### **Asset recognition threshold**

Purchases of property, plant and equipment are recognised initially at cost in the balance sheet, except for purchases costing less than \$2,000, which are expensed in the year of acquisition.

### **Leases**

A distinction is made between finance leases, which effectively transfer from the lessor to the lessee substantially all the risks and benefits incidental to ownership of leased non-current assets, and operating leases, under which the lessor effectively retains substantially all such risks and benefits.

Where a non-current asset is acquired by means of a finance lease, the asset is capitalised at the lower of fair value or the present value of minimum lease payments at the inception of the lease and a liability recognised for the same amount. Leased assets are amortised over the period of the lease. Lease payments are allocated between the principal component and the interest expense.

Operating lease payments are charged to the income statement on a basis that is representative of the pattern of benefits derived from the lease assets.

### **Depreciation and amortisation**

Computer equipment and plant and equipment is depreciated using the straight-line method. Leasehold improvements are amortised on a straight-line basis over the lesser of the estimated life of the improvements or the unexpired period of the lease.

Depreciation/amortisation rates (useful lives) are reviewed at each balance date and necessary adjustments are recognised receivables.

### **Receivables**

A provision is raised for any doubtful debts based on a review of the collectability of all outstanding accounts as at year-end.

Bad debts are written off during the year in which they are identified.

### **Provisions and payables**

Provisions and payables represent liabilities for miscellaneous accruals and employee benefits, including accrued salary and leave entitlements, provisions for making good

leased premises and lease incentives. No provision for sick leave is required as all sick leave is non-vesting.

## **Administered**

### **Schedule of budgeted revenues and expenses administered on behalf of government**

#### **Revenues**

Non-taxation revenues are predominately comprised of *Corporations Act 2001* fees and charges, and collections of unclaimed monies under the *Banking Act 1959*, the *Life Insurance Act 1995* and the *Corporations Act 2001*.

#### **Write-down and impairment of assets**

Write-down and impairment of assets represents waivers and write-offs of corporations law fees.

### **Schedule of budgeted assets and liabilities administered on behalf of government**

#### **Financial assets**

The financial assets include *Corporations Act 2001* debt invoiced and still outstanding at year-end.

#### **Schedule of budgeted administered cash flows**

All cash collected by ASIC for corporations law revenue is transferred to the Official Public Account (OPA) at the close of business each day. Cash collected for *Banking Act 1959* unclaimed monies, *Life Insurance Act 1995* unclaimed monies and *Corporations Act 2001* unclaimed monies is transferred to the OPA when received.

## Section 1: Entity overview and resources

### 1.1 STRATEGIC DIRECTION

There has been no significant change to the strategic direction of the Australian Taxation Office (ATO) from that outlined in the *Portfolio Budget Statements 2014-15* (page 179).

The ATO is seeking an additional \$14.8 million in departmental funding through Appropriation Bill (No. 3) 2014-15. This relates to an additional \$15.8 million for the following measures as outlined in the *Mid-Year Economic and Fiscal Outlook 2014-15*:

- Higher Education Reforms – amendments (\$0.4 million);
- Industry Innovation and Competitiveness Agenda – Employee Share Schemes (\$0.2 million); and
- Repeal of the Minerals Resource Rent Tax and related measures (the related measure is Low Income Superannuation Contribution extended for contributions made until 2016-17) (\$15.2 million).

This funding is offset by a reduction of \$1.0 million relating to the Communications and Public Affairs Functions – targeted savings measure outlined in Budget Paper No. 2, *Budget Measures 2014-15*.

The ATO is also seeking an additional \$0.6 million as an equity injection through Appropriation Bill (No. 4) 2014-15 for the Higher Education Reforms – amendments outlined in the *Mid-Year Economic and Fiscal Outlook 2014-15*.

### 1.2 ENTITY RESOURCE STATEMENT

The Entity Resource Statement details the resourcing for the Australian Taxation Office at Additional Estimates. Table 1.1 outlines the total resourcing available from all sources for the 2014-15 Budget year, including variations through *Appropriation Bill Nos. 3 and No. 4, Special Appropriations and Special Accounts*.

### 3.1 EXPLANATORY TABLES

#### Estimates of special account flows

Special accounts provide a means to set aside and record amounts used for specified purposes. Table 3.1.1 shows the expected additions (receipts) and reductions (payments) for each account used by the ATO. The corresponding table in the 2104-15 portfolio budget statements is Table 3.1.2.

## **3.2 BUDGETED FINANCIAL STATEMENTS**

### **3.2.1 Analysis of budgeted financial statements**

#### **Budgeted departmental comprehensive income statement**

The ATO is budgeting for a balanced budget in 2014-15. This excludes the impact of Operation Sunlight changes to funding whereby depreciation and amortisation expenses are not funded by appropriation from 2010-11 onward.

The budgeted departmental comprehensive income statement also reflects changes arising from Budget measures as outlined in Table 1.2.

#### **Budgeted departmental balance sheet**

The ATO's assets are predominantly non-financial assets.

The ATO's liabilities continue to be predominantly employee entitlements.

The ATO does not have any administered non-financial assets.

## **Notes to the Financial Statements**

### **Basis of accounting**

The budgeted financial statements have been prepared on an accrual basis.

### **Departmental**

The departmental financial statements, included in Tables 3.2.1 to 3.2.6 have been prepared on the basis of Australian Accounting Standards and Department of Finance guidance for the preparation of financial statements.

The budget statements and estimated forward years have been prepared to reflect the following matters.

### **Cost of administering goods and services tax**

Departmental statements include the estimated costs of administering the goods and services tax (GST) under the Intergovernmental Agreement on Federal Financial Relations. The GST revenue is collected on behalf of the States and Territories which agree to compensate the Australian Government for the agreed GST administration costs.

The recoveries of GST administration costs are reported under the Treasury.

### **Administered**

The administered financial statements at Tables 3.2.7 to 3.2.9 have been prepared on the basis of Australian Accounting Standards and Department of Finance guidance for the preparation of financial statements.

The standards require that taxation revenues are recognised on an accrual basis when the following conditions apply:

- the taxpayer or the taxpayer group can be identified in a reliable manner;
- the amount of tax or other statutory charge is payable by the taxpayer or taxpayer group under legislative provisions; and
- the amount of the tax or statutory charge payable by the taxpayer or taxpayer group can be reliably measured, and it is probable that the amount will be collected.

The amount of taxation revenue recognised takes account of legislative steps, discretion to be exercised and any refunds and/or credit amendments to which the taxpayers may become entitled.

### **Recognition of taxation revenue**

Taxation revenue is recognised when the Government, through the application of legislation by the ATO and other relevant activities, gains control over the future economic benefits that flow from taxes and other statutory charges. This methodology, known as the Economic Transaction Method (ETM), relies on the estimation of probable flows of taxes from transactions which have occurred in the economy, but have not yet been reported, and are likely to be reported to the ATO through an assessment or disclosure.

However, in circumstances when there is an ‘inability to reliably measure tax revenues when the underlying transactions or events occur’, the accounting standards permit an alternative approach known as the Taxation Liability Method (TLM). Under this basis, taxation revenue is recognised at the earlier of when an assessment of a tax liability is made or payment is received by the ATO. This recognition policy means that taxation revenue is generally measured at a later time than would be the case if it were measured under the ETM method.

In accordance with the above revenue recognition approach, the ATO uses ETM as the basis for revenue recognition, except for income tax for individuals, companies, superannuation funds, superannuation surcharge and the minerals resource rent tax (repealed September 2014) which are recognised on a TLM basis.

### **Items recognised as reductions to taxation revenue**

The following items are recognised as reductions (increases) to taxation revenue and not as an expense:

- refunds of revenue; and
- increase (decrease) in movement of provision for credit amendments.

## **Section 1: Entity Overview and Resources**

### **1.1 STRATEGIC DIRECTION**

The Government announced the cessation of the Corporations and Markets Advisory Committee (CAMAC) as part of its measures to reduce duplication and increase efficiency in how public funds are used to deliver services to the community in the 2014-15 Budget, as outlined in the Treasury *Portfolio Budget Statements 2014-15* on pages 263.

CAMAC has ceased operations pending passage of the Australian Securities and Investments Commission Amendment (Corporations and Markets Advisory Committee Abolition) Bill 2014 which is currently before Parliament.

CAMAC's report to the Government on the annual general meeting and shareholder engagement was discontinued and CAMAC's working papers on this reference were provided to the Treasury.

CAMAC is seeking an additional \$0.18 million in departmental funding through *Appropriation Bill (No. 3) 2014-15* for redundancy funding as a result of the cessation of the entity.

### **1.2 ENTITY RESOURCE STATEMENT**

The Entity Resource Statement details the resourcing for CAMAC at Additional Estimates. Table 1.1 outlines the total resourcing available from all sources for the 2014-15 Budget year, including variations through *Appropriation Bill No. 3*.

# **PRODUCTIVITY COMMISSION**

## **Section 1: Entity Overview and Resources**

### **1.1 STRATEGIC DIRECTION**

There has been no significant change to the strategic direction of the Productivity Commission (the Commission) from that outlined in the *Portfolio Budget Statements 2014-15* (pages 339-340).

The Commission is seeking an additional \$0.29 million in departmental funding through *Appropriation Bill (No. 3) 2014-15*. This comprises an additional \$0.293 million which is offset by savings of \$4,000.

The additional \$0.293 million relates to undertaking triennial assessments of progress on implementation of the National Water Initiative, and five-yearly audits of the implementation of the Murray Darling Basin Plan and associated water resource plans, as part of a reallocation of responsibilities of the National Water Commission. This measure was outlined in Budget Paper No. 2, *Budget Measures 2014-15*.

The savings of \$4,000 relates to the Communications and Public Affairs Functions – targeted savings measure outlined in Budget Paper No. 2, *Budget Measures 2014-15*.

### **1.2 ENTITY RESOURCE STATEMENT**

The Entity Resource Statement details the resourcing for the Commission at Additional Estimates. Table 1.1 outlines the total resourcing available from all sources for the 2014-15 Budget year, including variations through *Appropriation Bill No. 3*.
