

Section 22

Treatment of UBER by regulators

The NSW Government noted in their submission:

Transport for NSW stated that the UberX service does not comply with the current *NSW Passenger Transport Act 1990*. The NSW Government has, however, acknowledged that it needs to consider how it adapts to new opportunities in the market and is considering its position in response to ride-sharing activities to ensure it considers the benefits to consumers and the impact on the industry.

Section 22
