Section 22

Hi Section 22

Please find two dot points below for portfolio holdings.

- The Government is progressing its election commitment to enhance transparency in superannuation. One aspect of this is the disclosure of portfolio holdings.
- The Australian Securities and Investments Commission have amended their class order extending the start date for the portfolio holdings disclosure regime from 1 July 2015 to 1 July 2016. This will allow the Government further time to consult on the detail of the requirements.
