Hi Section 22

FYI, attached is the revised draft legislation on PHD that Paul provided late yesterday. I have also attached a document that captures the amendments to the relevant sections with my comments. I am hoping to provide ASIC and APRA with draft legislation for comment later this week or early next week. I have also provided Bart with some drafting instruction – instructions (attached) for the PHD Regulation, he is planning to turnaround a first cut relatively quickly.

Happy to discuss

Thanks
