Hi S 22

Transparency input below, happy to discuss

- On 10 December 2015, the Government released exposure draft legislation and regulation to give effect to its election commitment to improve superannuation transparency.
- The draft legislation contains refinements to the choice product dashboard and portfolio holding disclosure regimes. The precise detail of these regimes is contained in the draft regulations.
- The regimes are designed to improve transparency by improving disclosure around the performance (including risk, returns and fees) and investment allocation.

Thanks

S 22

Kind regards
