Hi all,

Two issues were up for discussion relating to ISU.

1. **Delays to Choice dashboard, portfolio holdings disclosure and permitting product dashboards to be included in a periodic statement by hyperlink.** I said this item was being worked on by the section, but it was unlikely to be finished "soon" and no specific update on timing was available. I said further info should come from Laura if wanted.

Section 22 can we please discuss 2 when you are in tomorrow?
