Subject: ABS

Section 22

You will be aware of some of this evening's events. ABS (probably David Kalisch personally) and Minister McCormack are about to issue statements. There is an early morning conference call involving Tsr and McCormack plus officials that John Fraser and I are involved in.

Because I can't classify this, I can't say much. But ASD are involved.

We should plan to meet once you are in tomorrow and I am out of the conference call.

There is likely to be an enquiry. We would need an enquirer. Anyone copied into this email is encouraged to think of options. David K thinks that ^{Section 47F} might be too close ^{Section 47F} is an option. Someone with IT security credentials would be a good option. It cannot be anyone linked to IBM (they are the census contractor).
