

I was just watching Bill Shorten, speaking to the governments tax forum.

Unfortunately our reforms (apart from the GST) have often been a band aid approach.

I propose that we have one single tax in Australia (no other taxes, no stamp duty, levies etc).

Under my proposed system all entities would pay only 10%.

10% would be paid on the gross income (not the net, that is no deductions or rebates).

All individuals, trusts, companies etc would pay 10%.

All individuals, would be entitled to age pensions with no reductions.

A simple system.

Yours faithfully,  
Kenneth Lance GOEBEL.
