Dear Sir,

**SUBMISSION: Options paper: a modernisation and harmonisation of the regulatory framework applying to insolvency practitioners in Australia**

Attached hereto are my comments and feedback in response to the abovementioned paper.

I must say that I am troubled by the relatively short period allowed for comment on the extraordinary number of specific and often difficult questions raised for discussion. Like me, there are probably many people interested in these questions who have not had sufficient time to give all of them the deliberation they warrant.

Yours faithfully,

*Peter J Keenan*
