REPORT Brief Overview: [http://fluorideinformationaustralia.files.wordpress.com/2013/01/brief-overview-of-water-fluoridation\\_pollution-11-september-2013-diane-drayton-buckland1.pdf](http://fluorideinformationaustralia.files.wordpress.com/2013/01/brief-overview-of-water-fluoridation_pollution-11-september-2013-diane-drayton-buckland1.pdf)

Some Health Effects: <http://fluorideinformationaustralia.wordpress.com/health-effects/>

The study also found that fluoride does not eliminate tooth decay, citing dietary sugars as the primary cause. People living in areas with fluoridated water and/or using fluoride toothpaste still got dental caries.

[http://www.irishdentist.ie/news/news\\_detail.php?id=5436](http://www.irishdentist.ie/news/news_detail.php?id=5436)

Australia wide in dental crisis after widespread fluoridation in every State, first commencing Beaconsfield, Tasmania in 1953 - likewise USA in dental crisis after widespread `fluoridation` first beginning in 1945 Grand Rapids Michigan

The only answer EVER was to provide access to affordable dental health care services for all the population, not the dumping/disposal of hazardous waste pollutants fluorosilicic acid/silicofluorides and co-contaminants of lead, mercury, arsenic, cadmium, thallium, beryllium, etc., (known as water fluoridation); into our drinking water supplies and hence also the contamination of our food chain and using the populations` kidneys as hazardous waste disposal/filtration units.

This hazardous waste and co-contaminants must not be dumped in the air, rivers, oceans, creeks but dump it in the water supplies as a forced 'medical /dental treatment' (without 'informed consent' I might add !! ) and it magically becomes safe and effective.
