

I strongly oppose the introduction of a 'Bail in' type policy. I strongly support the introduction of a 'Glass Steagall' type Pecora investigatory commission. Public private partnerships need to have a complete overhaul. As a result of recent ICAC findings the whole system, at both State and Federal levels, needs to be purged of Political ill intent, detrimental to that of National interests and welfare. We need the Re instatement of Bretton Woods, and Protectionist type policies to protect us against the erosion of our Physical economy, by free market/free trade Globalist interest, which is the pre cursor to the current ailing Global economy, fueled by Futures Hedge fund/derivative speculative investments. We need to be building up infrastructure (not dismantling it) with Nation building projects, the likes of which we have not seen since the Snowy River Scheme. We need our industries back on Sovereign Australian soil, not elsewhere. We need a National Banking System, not a myriad of Private Banks.
