To Financial Inquiring Board

It deeply concerns myself and my family that our government could even be thinking of a method of banking called bailin.

Is you wish to destroy our economy this is the way to achieve it.

IT IS MY WILL-- you stop this gambling of our savings and investments to please the criminal policies of FBTF Banks. To save our peoples livelihood you must install a system which has been proven in the past i.e. [ 1932-1999 ] called [ Glass Steagall ] and separate investment banks from commercial banks then immediately create a National Aust. Bank for our own use for investments only in Australia.

Foreign corporations must be taxed in range of 50 to 60% for the privilege of operating in Australia as was I believe in the 1960's.

The Constitution means that all times consider the health and wealth of your constituents not make laws for banks or a foreign corporations.
