

To the financial system inquire. *ATTENTION DAVID MARRAY*

I wish to protest to the idea of the [bail in] for the public to bail out banks over bad deals and worlds investment system and the possibility of the collapse of the world finance.

I support you in the [no to Australia enacting a bail – in law] and yes to a full Glass- Steagall banking Separation , with emphasis on the full separation – not a sham ring- fence.

Thank you
