To whom it may concern.

We the undersigned strongly oppose the push for "bail in" & the seizure of bank ~~depos~~ deposits to support the so called T.B.T. Fail.

We need as a country the Glass Steagall separation of banking by separating the commercial banks from the speculative & banks that gamble i.e. derivatives.

We also need a new National Bank, similar to the old Commonwealth Bank, so this country can rebuild itself by infrastructure, instead of slowly being taken to the level of the Third World!!
