re: Financial System Inquiry

Dear Sir,

I go to the bank believing my deposit or my term deposit is safe & secure.

But I believe the government is about to bring in a so-called Bail-in, to protect the big banks (too big to fail), does that mean I could loose some or most of my money. Will we end up like Greece, it impoverished them.

We must have a Glass Steagall system where the banks get rid of the gambling side of banking, go back to legitimate commercial banking function. Separate the investment gambling speculative activities. Let's have banks we can trust.

Why should I be hurt and our money stolen by bad business decision such as derivative arrangement and gambling systems.

Our deposit must be kept safe and not used for gambling as it is now, don't use our money to prop up the banks when they get in trouble

Yours Truly  
Robert Dodge
