

Childcare rebates to be made available to parents and individuals on the basis of hours the parents / individuals have worked. Eg 25% of the hours they have worked. Exempt should be available to individuals undertaking courses to get a job.

All Child related payments made to families should be limited to child number three. Which means that if people have more than three kids, all child related payments should stop at baby number three. As it is the individuals choice to have large families and the tax payer has nothing to do with their choice to having large families.

People in the age group of under 30 to 45 and unemployed, should be paid dole only for six month and there after the dole has to stop. Dole in general should be available only for every 5 years the individuals have worked and paid tax.

People who live overseas and claim dole/ pensions, should be paid dole/pension only for the number of days they live in Australia. by doing so we make sure that the money is spent in Australia to revive the Australian economy.

People who come here as refugees should not be given PR unless they have worked and paid tax into the Australian Coffers (eg \$50k in the last three years). This way we do not give PR/Citizenship to people who have come here to just play with the system. Those people who come here as refugees and after gaining PR/citizenship still hold dual citizenship, their citizenship should be revoked when they return back to their country as it is clear that now there is no threat to their lives in their home country.

Multinationals who use tax haven to avoid paying tax, these companies should be made to pay either 12% tax on sales or 30% on profit whichever is higher. No deductions should be allowed on overseas staff wages/salaries.

There should be compulsory Audit of all Charitable organisation. Charity should not be allowed free tax status. Instead deduction should be allowed on the charity expenses. By doing so we do not give them a free run.
