

## **Stop Taxing Sanitary Products - Tampons, pads and moon cups etc**

These sanitary items are currently considered to be 'personal hygiene products' rather than what as they really are - 'health goods'. 'Health Goods' are tax-exempt.

Menstruation is NOT a 'lifestyle choice' - all sanitary products should be made tax-exempt ASAP!

This SMH article perfectly articulates why the Australian Federal government should stop this discrimination against Australian women immediately - <http://www.dailylife.com.au/news-and-views/dl-opinion/joe-hockey-needs-to-stop-taxing-our-periods-20150510-ggyjao.html>
