

Hi

WE are writing this e-mail to lodge our concerns about reports that the Henry Tax Review is considering recommendations to remove or change the dividend imputation Scheme.

The current scheme helps support our desire to invest in Australian companies.

We believe a removal or change to the scheme is unfair, unnecessary and a retrograde step .We are greatly concerned that it will negatively impact the value of Australian companies we are invested in & who provide dividend income that includes franking credits .

As recently retired self funded retirees & users of Self Managed Super Fund we feel this will have a drastic effect on our retirement income & will ultimately force many people like ourselves onto a government pension much earlier than would have occurred if the current scheme remains in place .

We are not high flyers & only have a modest amount in our super fund which has already been severely eroded by the economic down turn .

We feel very strongly about this so much so that it will affect our voting decision at the next Federal & State elections.

Kind Regards

Keith & Lesley Warwick
