

Dear Sir,

This is a request to leave the retirement age at 65. I am 61 and can't work anymore due to back and neck issues. I got a income protection payout but that is only for 2 years.

My husband is 63. He has had 3 heart attacks already. He is a teacher so you can imagine the stress teachers work under. He falls asleep every afternoon when he gets home.

We tried our best to built up a good Superannuation. However with the limit on \$25000 a year we were not able to built up a huge one. We cannot afford to live on just our own Super.

I would be very grateful if you consider carefully before you make life a living hell for a lot of people who worked really hard for a very long time.

Regards
Leonota van Dyk
