TREASURER
PARLIAMENT HOUSE
CANBERRA 2600

President of the Senate Australian Senate Parliament House CANBERRA ACT 2600

Speaker House of Representatives Parliament House CANBERRA ACT 2600

Dear Mr President Dear Mr Speaker

I hereby submit Portfolio Budget Statements in support of the 2021-22 Budget for the Treasury portfolio.

These statements have been developed, and are submitted to the Parliament, as a statement on the outcomes for the portfolio.

I present these statements to provide accountability to the Parliament and, through it, the public.

Yours sincerely

The Hon Josh Frydenberg MP

Abbreviations and conventions

The following notation may be used:

NEC/nec not elsewhere classified

- nil

.. not zero, but rounded to zero

na not applicable (unless otherwise specified)

nfp not for publication

\$m \$ million \$b \$ billion

Figures in tables and in the text may be rounded. Figures in text are generally rounded to one decimal place, whereas figures in tables are generally rounded to the nearest thousand. Discrepancies in tables between totals and sums of components are due to rounding.

USER GUIDE TO THE PORTFOLIO BUDGET STATEMENTS

USER GUIDE

The purpose of the 2021-22 Portfolio Budget Statements (PB Statements) is to inform Senators and Members of Parliament of the proposed allocation of resources to government outcomes by entities within the portfolio. Entities receive resources from the annual appropriations acts, special appropriations (including standing appropriations and special accounts), and revenue from other sources.

A key role of the PB Statements is to facilitate the understanding of proposed annual appropriations in Appropriation Bills (No. 1 and No. 2) 2021-22 (or Appropriation (Parliamentary Departments) Bill (No. 1) 2021-22 for the parliamentary departments). In this sense, the PB Statements are Budget related papers and are declared by the Appropriation Acts to be 'relevant documents' to the interpretation of the Acts according to section 15AB of the *Acts Interpretation Act* 1901.

The PB Statements provide information, explanation and justification to enable Parliament to understand the purpose of each outcome proposed in the Bills.

As required under section 12 of the *Charter of Budget Honesty Act 1998*, only entities within the general government sector are included as part of the Commonwealth general government sector fiscal estimates and produce PB Statements where they receive funding (either directly or via portfolio departments) through the annual appropriation acts.

The Commonwealth Performance Framework

The following diagram outlines the key components of the Commonwealth performance framework. The diagram identifies the content of each of the publications and the relationship between them. Links to the publications for each entity within the portfolio can be found in the introduction to Section 2: Outcomes and planned performance.

Commonwealth Performance Framework Key components of relevant publications

Portfolio Budget Statements (May) Portfolio based

Supports Annual Appropriations. Informs Senators and Members of Parliament of the proposed allocation of other resources to **government outcomes and programs**.

Provides links to **relevant programs** undertaken by other Commonwealth entities.

Provides high level performance information for current, ongoing programs, particularly a forecast of performance for the current year.

Provides **detailed** prospective performance information for proposed new budget measures that require **a new program** or **significantly change an existing program**.

Corporate Plan (August) Entity based

Primary planning document of a Commonwealth entity.

Sets out the **purposes** of the entity, the **activities** it will undertake to achieve its purposes and the **results** it expects to achieve over a minimum four year period.

Describes the **environment** in which the entity **operates**, the **capability** it requires to undertake **activities** and a discussion of **risk**.

Explains how the entity's **performance** will be **measured** and **assessed**.

Annual Performance Statement (October following year) Entity based

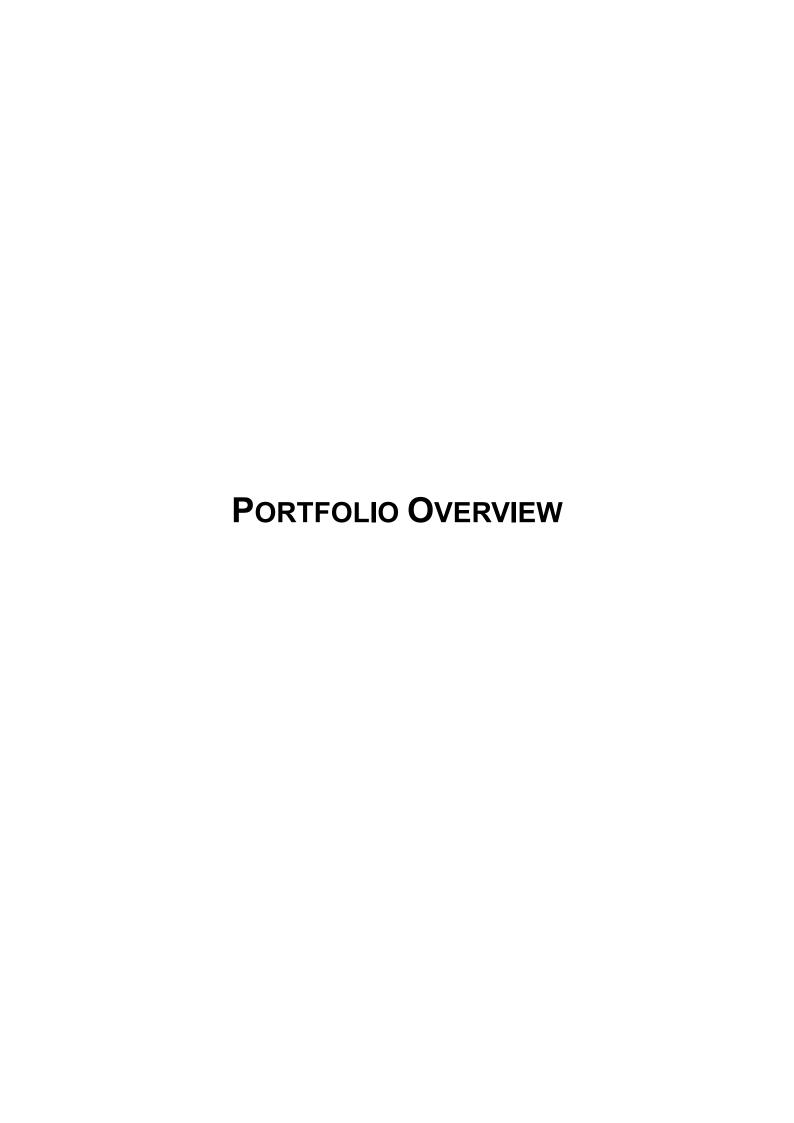

Included in the Commonwealth entity's Annual Report. Focuses on **recent performance**.

Reports on the **actual performance results** for the year against the **forecasts** made in the **corporate plan** and **Portfolio Budget Statements**, and provides other performance information relevant to the entity.

Provides an **analysis** of the factors that **contributed** to the **entity's performance results**.

PORTFOLIO OVERVIEW

Ministers and portfolio responsibilities

The Treasury portfolio undertakes a range of activities aimed at achieving strong sustainable economic growth for the good of Australians. This entails the advice to portfolio Ministers as well as the effective implementation and administration of policies that fall within the portfolio Ministers' responsibilities.

The Treasury portfolio comprises 16 entities in the general government sector.

The **Department of the Treasury** is the Australian Government's pre-eminent economic adviser. Treasury provides advice, analysis and legislation to Government to deliver economic policies and programs, supporting the effective management of the Australian economy.

The **Australian Bureau of Statistics** is Australia's national statistical agency. It provides independent and trusted official statistics on a range of economic, social, population and environmental matters of importance to governments, industry, and the wider Australian community.

The **Australian Competition and Consumer Commission** is an independent statutory authority which administers the *Competition and Consumer Act 2010* and performs functions under other Commonwealth legislation and State and Territory Competition Policy Reform Acts.

The **Australian Office of Financial Management** is responsible for the management of Australian Government debt and financial assets.

The Australian Prudential Regulation Authority is the financial supervisor responsible for the prudential regulation of the banking, other deposit taking, insurance and superannuation industries.

The Australian Securities and Investments Commission (ASIC) is Australia's corporate, markets, financial services and credit regulator. It is responsible for consumer protection and market integrity. As part of its remit, ASIC also regulates investment management and superannuation, insurance, deposit taking, financial reporting, auditors and insolvency practitioners. ASIC promotes investor and consumer trust and confidence, fair and efficient markets and provides efficient registration services.

The **Australian Taxation Office** is the Australian Government's principal revenue collection agency and administers Australia's tax system and significant aspects of Australia's superannuation system. It administers legislation governing tax, superannuation and the Australian Business Register and supports the delivery of government benefits to the community.

The **Commonwealth Grants Commission** provides advice to the Australian Government on the equitable distribution of GST revenue to State and Territory governments.

The **Inspector-General of Taxation** seeks to improve the administration of the tax laws for the benefit of all taxpayers.

The **National Competition Council** is an independent advisory body for all Australian governments that advises and makes recommendations under the National Access Regime and recommendations and decisions in relation to natural gas pipelines.

The National Housing Finance and Investment Corporation's objective is to improve housing outcomes by operating an affordable housing bond aggregator to provide loans to registered community housing providers financed by the issue of bonds on the commercial market; and a National Housing Infrastructure Facility to provide loans, grants and investments to overcome impediments to the provision of housing that is due to the lack of necessary infrastructure.

The Office of the Auditing and Assurance Standards Board's objective is to develop, issue and maintain in the public interest, principle-based, independent auditing and assurance standards for all sectors of the Australian economy that meet user needs, contribute to the development of international auditing and assurance standards and assist in maintaining confidence in the Australian economy, including its capital markets.

The Office of the Australian Accounting Standards Board's role is to develop, issue and maintain principle-based independent financial reporting standards for all sectors of the Australian economy that meet user needs, contribute to the development of international accounting standards and assist in maintaining confidence in the Australian economy, including its capital markets.

The **Productivity Commission** is the Australian Government's independent research and advisory body on a range of economic, social and environmental issues affecting the welfare of Australians.

The **Royal Australian Mint** manufactures and sells circulating coins to meet the coinage needs of the Australian economy, and collector coins and other minted products for Australia and foreign countries.

The Financial Advisers Standards and Ethics Authority Ltd and the National Housing Finance and Investment Corporation do not appear in the Portfolio Budget Statements as they are not directly appropriated by government. The Australian Reinsurance Pool Corporation and the Reserve Bank of Australia do not appear in the Portfolio Budget Statements as they are not part of the general government sector.

On 1 May 2021, the **Infrastructure and Project Financing Agency** was abolished as an Executive Agency by order of the Governor-General under Section 65 of the *Public Service Act* 1999. The functions of the Infrastructure and Project Financing Agency were transferred to the Department of the Treasury.

For information on resourcing across the portfolio, please refer to Part 1: Agency Financial Resourcing in *Budget Paper No. 4: Agency Resourcing*.

Figure 1: Treasury portfolio structure and outcomes

Portfolio Minister — Treasurer

The Hon Josh Frydenberg MP

Minister for Housing and Assistant Treasurer

The Hon Michael Sukkar MP

Minister for Superannuation, Financial Services and the Digital Economy Minister for Women's Economic Security

Senator the Hon Jane Hume

Department of the Treasury

Portfolio Secretary: Dr Steven Kennedy PSM

Outcome 1: Supporting and implementing informed decisions on policies for the good of the Australian people, including for achieving strong, sustainable economic growth, through the provision of advice to Treasury Ministers and the efficient administration of Treasury's functions

Australian Bureau of Statistics

Australian Statistician: Dr David Gruen

Outcome 1: Decisions on important matters made by governments, business and the broader community are informed by objective, relevant and trusted official statistics produced through the collection and integration of data, its analysis, and the provision of statistical information

Australian Competition and Consumer Commission

Chair: Mr Rod Sims

Outcome 1: Enhanced welfare of Australians through enforcing laws that promote competition and protect consumers, as well as taking other regulatory and related actions including monitoring and market analysis, public education, determining the terms of access to infrastructure services, and discharging regulatory responsibilities governing energy markets and networks

Australian Office of Financial Management

Chief Executive Officer: Mr Rob Nicholl

Outcome 1: The advancement of macroeconomic growth and stability, and the effective operation of financial markets, through issuing debt, investing in financial assets and managing debt, investments and cash for the Australian Government

Australian Prudential Regulation Authority

Chair: Mr Wayne Byres

Outcome 1: Enhanced public confidence in Australia's financial institutions through a framework of prudential regulation which balances financial safety and efficiency, competition, contestability and competitive neutrality and, in balancing these objectives, promotes financial system stability in Australia

Australian Reinsurance Pool Corporation

Chief Executive Officer: Dr Christopher Wallace

Purpose: To protect Australia from economic losses cause by terrorism catastrophe

Australian Securities and Investments Commission

Chair: Mr James Shipton

Outcome 1: Improved confidence in Australia's financial markets through promoting informed investors and financial consumers, facilitating fair and efficient markets and delivering efficient registry systems

Australian Taxation Office

Commissioner: Mr Chris Jordan AO

Outcome 1: Confidence in the administration of aspects of Australia's taxation and superannuation systems, including through helping people understand their rights and obligations, improving ease of compliance and access to benefits, and managing non-compliance with the law; and in delivering effective and efficient business registry services

Figure 1: Treasury portfolio structure and outcomes (continued)

Commonwealth Grants Commission

Secretary: Mr Jonathan Rollings

Outcome 1: Informed Government decisions on fiscal equalisation between the states and territories through advice and recommendations on the distribution of GST revenue

Financial Adviser Standards and Ethics Authority Limited

Chief Executive Officer: Mr Stephen Glenfield

Outcome 1: Strengthen the professional and ethical standards of financial advisers through enhancing educational and training requirements and ethical standards to improve consumer outcomes

Inspector-General of Taxation

Inspector-General of Taxation: Ms Karen Payne

Outcome 1: Improved tax administration through investigation of complaints, conducting reviews, public reporting and independent advice to Government and its relevant entities

National Competition Council

President: Ms Julie-Anne Schafer

Outcome 1: Competition in markets that are dependent on access to nationally significant monopoly infrastructure, through recommendations and decisions promoting the efficient operation of, use of and investment in infrastructure

National Housing Finance and Investment Corporation

Chair: Mr Brendan Crotty

Outcome 1: Improved housing outcomes for Australians, including through financial and other assistance to improve the efficiency and scale of the community housing sector, as well as for critical infrastructure that increases housing supply

Office of the Auditing and Assurance Standards Board

Acting Chair: Mr Bill Edge

Outcome 1: The formulation and making of auditing and assurance standards that are used by auditors of Australian entity financial reports or for other auditing and assurance engagements

Office of the Australian Accounting Standards Board

Chair: Dr Keith Kendall

Outcome 1: The formulation and making of accounting standards that are used by Australian entities to prepare financial reports and enable users of these reports to make informed decisions

Productivity Commission

Chair: Mr Michael Brennan

Outcome 1: Well-informed policy decision-making and public understanding on matters relating to Australia's productivity and living standards, based on independent and transparent analysis from a community-wide perspective

Reserve Bank of Australia

Governor: Mr Philip Lowe

Purpose: In its role as Australia's central bank, the Reserve Bank of Australia determines and implements monetary policy, fosters financial stability, undertakes a range of activities in financial markets, acts as a banker to the Australian Government, issues Australia's banknotes and has policy, supervisory and operational roles in the payments system

Royal Australian Mint

Chief Executive Officer: Mr Leigh Gordon AO CSM

Outcome 1: The coinage needs of the Australian economy, collectors and foreign countries are met through the manufacture and sale of circulating coins, collector coins and other minted like products

DEPARTMENT OF THE TREASURY

Section 1: Entity overview and resources

1.1 STRATEGIC DIRECTION STATEMENT

The Treasury is the pre-eminent economic adviser to the Government. The Treasury's purpose is to support and implement informed decisions on policies for the good of the Australian people, consistent with achieving strong, sustainable economic growth and fiscal settings.

Our work includes promoting a sound economic environment, effective Government spending arrangements and regulations, well-functioning markets to serve consumers and investors, and sustainable taxation and revenue arrangements.

The Treasury achieves this through providing policy advice, analysis and the delivery of economic policies and programs, including legislation and administrative payments which support the effective management of the Australian economy.

Our priorities to achieve this over 2021-22 include:

- continuing to support the Government to design and deliver the COVID-19 response and the Economic Recovery Plan
- delivering the 2022–23 Budget, the Mid-Year Economic and Fiscal Outlook and any other economic updates as required by Government
- promoting a stronger, more sustainable tax system in line with Government priorities
- delivering the next Intergenerational Report that will assess the long term sustainability of current Government policies over the next 40 years
- ensuring payments to the States and Territories are timely and accurate
- implementing reforms to Australia's foreign investment review framework
- strengthening Australia's financial system and promoting sound corporate and consumer regulation in line with Government priorities
- delivering measures focused on supporting small to medium business, the digital economy and reducing the regulatory burden on business
- increasing choice, control, transparency and competition for Australia's consumers
- continuing to improve our governance across the Treasury portfolio.

1.2 ENTITY RESOURCE STATEMENT

Table 1.1 shows the total funding from all sources available to the Treasury for its operations and to deliver programs and services on behalf of the Government.

The table summarises how resources will be applied by outcome (government strategic policy objectives) and by administered (on behalf of the Government or the public) and departmental (for the entity's operations) classification.

For more detailed information on special accounts and special appropriations, please refer to *Budget Paper No. 4 – Agency Resourcing*.

Information in this table is presented on a resourcing (that is, appropriations/cash available) basis, whilst the 'Budgeted expenses by Outcome 1' tables in Section 2 and the financial statements in Section 3 are presented on an accrual basis.

| NHFIC (Annual appropriation) | 59,004 | 39,939 |

Prepared on a resourcing (i.e. appropriations available) basis.

All figures shown above are GST exclusive - these may not match figures in the cash flow statement.

- (a) Appropriation Bill (No. 1) 2021-22. This includes amounts credited to Treasury from the Department of Industry, Science, Energy and Resources, the Commonwealth Scientific and Industrial Research Organisation, the Australian Security and Investments Commission and the Infrastructure and Project Financing Agency following machinery of government changes.
- (b) Adjusted appropriation carried forward from previous year.
- (c) Excludes departmental capital budget (DCB). 2021-22 includes \$1.462 million for revenue recognised in 2020-21 but not appropriated in that year.
- (d) Estimated External Revenue receipts under section 74 of the PGPA Act.
- (e) Departmental capital budgets are not separately identified in Appropriation Bill (No.1) and form part of ordinary annual services items. Please refer to Table 3.5 for further details. For accounting purposes, this amount has been designated as a 'contribution by owner'.
- (f) Appropriation Bill (No. 2) 2021-22. This includes amounts credited to Treasury from the Department of Industry, Science, Energy and Resources following a machinery of government change.
- (g) Excludes trust moneys held in Services for Other Entities and Trust Moneys (SOETM) and other special accounts. For further information on special accounts, please refer to Budget Paper No. 4 - Agency Resourcing. Please also see Table 2.1 for further information on outcome and program expenses broken down by various funding sources, e.g. annual appropriations, special appropriations and special accounts.
- (h) These payments relate to National Partnership payment to the states and territories.
- (i) 'Corporate entities' are corporate Commonwealth entities and Commonwealth companies as defined under the PGPA Act.

I.3 BUDGET MEASURES

Budget measures in Part 1 relating to the Treasury are detailed in Budget Paper No. 2 and are summarised below.

Measures announced since the 2020-21 Mid-Year Economic and Fiscal Outlook (MYEFO) Table 1.2: Department of the Treasury 2021-22 Budget measures

Prepared on a Government Finance Statistics (Underlying Cash) basis. Figures displayed as a negative (-) represent a decrease in funds and a positive (+) represent an increase in funds.

(a) This measure has been reflected in Treasury's Table 1.2 to provide consistency with Budget Paper 2. The measure has been provisioned for Treasury in the Contingency Reserve, as funding will be contingent on the States and Territories agreeing to a robust reform timeline focused on increasing participation and school readiness. Treasury will not be appropriated the funding amount until the negotiations have been finalised, therefore has not been reflected in any other tables in the Treasury Portfolio Budget Statements.

Section 2: Outcomes and planned performance

Government outcomes are the intended results, impacts or consequences of actions by the Government on the Australian community. Commonwealth programs are the primary vehicle by which government entities achieve the intended results of their outcome statements. Entities are required to identify the programs which contribute to government outcomes over the Budget and forward years.

The Treasury's outcome is described below together with its related programs. The following provides detailed information on expenses for each outcome and program, further broken down by funding source.

Note:

Performance reporting requirements in the Portfolio Budget Statements are part of the Commonwealth performance framework established by the *Public Governance, Performance and Accountability Act 2013*. It is anticipated that the performance criteria described in Portfolio Budget Statements will be read with broader information provided in an entity's corporate plans and annual performance statements – included in Annual Reports - to provide a complete picture of an entity's planned and actual performance.

The most recent corporate plan for the Treasury can be found at: (https://corporate-plan.treasury.gov.au/).

The most recent annual performance statement can be found at: (https://treasury.gov.au/publication).

2.1 BUDGETED EXPENSES AND PERFORMANCE FOR OUTCOME 1

Outcome 1: Supporting and implementing informed decisions on policies for the good of the Australian people, including for achieving strong, sustainable economic growth, through the provision of advice to Treasury Ministers and the efficient administration of Treasury's functions.

Linked programs

Contribution made by Outcome 1

Treasury Outcome 1 contributes to the following programs by making payments to the states and territories under National Partnership agreements, National Specific Purpose Payments (SPP) and bilateral agreements that support the delivery of the programs. Details of the individual National Partnership agreements within Program 1.9 are set out in Table 2.2 for each Portfolio.

Attorney-General's Department

Programs

• Program 1.4 – Justice Services

Australian Trade and Investment Commission

Program

Table 2.2: Performance criteria for Outcome 1

Table 2.3 below details the performance criteria for each program associated with Outcome 1. It also summarises how each program is delivered and where 2021-22 Budget measures have created new programs or materially changed existing programs.

Outcome 1 – Supporting and implementing informed decisions on policies for the good of the Australian people, including for achieving strong, sustainable economic growth, through the provision of advice to Treasury Ministers and the efficient administration of Treasury's functions.

Program 1.1 - Department of the Treasury

The objective of this program is to support Ministers to effectively manage the Australian economy by:

- · providing analysis to promote a sound macroeconomic environment;
- promoting effective Government spending arrangements that contribute to overall fiscal outcomes and influence strong sustainable economic growth;
- developing effective taxation and retirement income arrangements consistent with the Government's reform priorities; and
- · developing well-functioning markets that support business, investor and consumer confidence.

Delivery

The Treasury provides economic forecasts, analysis and authoritative advice to Ministers relating to the economy, budget and fiscal strategy, financial system, markets and productivity, foreign investment, structural reform, taxation, superannuation and retirement income, social, consumer and international economic policy.

The Treasury will produce the Intergenerational Report, which assesses the long term sustainability of current Government policies over the next 40 years, including by taking account of the financial implications of demographic change.

The Treasury also works with State and Territory Governments on key policy areas.

Administer the small and family business functions, transferred to the Treasury on 15 April 2021.

Performance information

The objective of this program is to make payments to international financial institutions on behalf of Government to:

- promote international monetary cooperation;
- promote stability of the international financial system and orderly exchange arrangements;
- foster economic growth and high levels of employment;
- provide temporary financial assistance to countries to help ease balance of payments adjustments;
- facilitate the achievement of Government objectives in international forums, including support for development objectives and improved infrastructure in the Asian region; and
- support multilateral debt relief.

| Delivery | The Treasury makes payments to the International Monetary Fund (IMF), under the | | |

Program 1.4 to 1.9 - Financial Support to States and Territories

The objectives of programs 1.4 to 1.9 are to make payments which provide financial support to the States and Territories on a wide range of activities under the *Intergovernmental Agreement on Federal Financial Relations* (IGAFFR) and other relevant agreements between the Commonwealth and the States and Territories. Since these programs have common performance criteria, they have been presented together below.

Program 1.4 — General Revenue Assistance. The Treasury, on behalf of the Government, will make general revenue assistance payments to the States and Territories.

Program 1.5 — **Assistance to the States for Healthcare Services.** The Treasury, on behalf of the Government, provides financial support to the States and Territories to be spent in the delivery of healthcare services.

Program 1.6 — Assistance to the States for Skills and Workforce Development. The Treasury, on behalf of the Government, provides financial support to the States and Territories to be spent in the delivery of skills and workforce development services.

Program 1.7 — **Assistance to the States for Disability Services.** The Treasury, on behalf of the Government, provides financial support to the States and Territories to be spent in the delivery of disability services.

Program 1.8 — Assistance to the States for Affordable Housing. The Treasury, on behalf of the Government, provides financial support to the States and Territories to be spent in the delivery of affordable housing services.

Program 1.9 — National Partnership Payments to the States. The Treasury, on behalf of the Government, provides financial support to the States and Territories to be spent on improving outcomes in the areas specified in each of the National Partnership agreements. These payments support the delivery of specified outputs or projects, facilitate reforms or reward jurisdictions that deliver on nationally significant reforms. This program is linked to programs administered by a number of other portfolios, as noted in Table 2.2, which provides further details of specific payments. This contributes to the linked programs by making payment on behalf of the following:

- Attorney-General's Department
- Department of Agriculture, Water and the Environment

- Department of Defence
- Department of Education, Skills and Employment
- · Department of Finance
- Department of Health
- Department of Home Affairs
- Department of Industry, Science, Energy and Resources
- Department of Infrastructure, Transport, Regional Development and Communications
- Department of the Prime Minister and Cabinet
- Department of Social Services, and
- Department of Veterans' Affairs.

| Delivery | The Treasury delivers payments to the States and Territories. |
|----------|---------------------------------------------------------------|
|----------|---------------------------------------------------------------|

- (a) The Treasury's performance criteria is set out in full in the Treasury 2021-22 Corporate Plan and will be reported in the 2021-22 Annual Performance Statements.
- (b) New or modified performance criteria that reflect new or materially changed programs are shown in *italics*.
- (c) Following the Administrative Arrangements Orders of 15 April 2021, the Small Business functions transferred from the Department of Industry, Science, Energy and Resources. Performance related to these functions for 2020-21 will be reported in Treasury's 2020-21 annual performance statements.
- (d) The Department of the Treasury will review the Small Business Performance criteria for inclusion in the 2021-22 Corporate Plan.

Section 3: Budgeted financial statements

Section 3 presents budgeted financial statements which provide a comprehensive snapshot of entity finances for the 2021-22 budget year, including the impact of budget measures and resourcing on financial statements.

3.1 BUDGETED FINANCIAL STATEMENTS

3.1.1 Differences between entity resourcing and financial statements

The entity resource statement is prepared on a cash basis and provides a view of cash/appropriations resources available to the Treasury whilst the financial statements are prepared on an accrual basis.

3.1.2 Explanatory notes and analysis of budgeted financial statements

The Treasury is budgeting for a break-even operating result, after non-appropriated expenses such as depreciation are removed, in 2021-22 and over the forward estimates.

The Treasury has a sound financial position and has sufficient cash reserves to fund provisions and payables, and asset replacement, as they fall due.

Prepared on Australian Accounting Standards basis

(a) From 2010-11, the Government introduced the net cash appropriation arrangement that provided noncorporate Commonwealth entities with a separate Departmental Capital Budget (DCB) under Appropriation Act (No.1) or Bill (No. 3). This replaced revenue appropriations provided under Appropriation Act (No.1) or Bill (No.3) used for depreciation/amortisation expenses. For information regarding DCB, refer to Table 3.5 Departmental Capital Budget Statement.

⁽b) Applies to leases under AASB 16 Leases.

AUSTRALIAN BUREAU OF STATISTICS

Section 1: Entity overview and resources

1.1 STRATEGIC DIRECTION STATEMENT

The Australian Bureau of Statistics (ABS) provides independent and trusted official statistics on a range of economic, social, population and environmental matters of importance to governments, industry, and the wider Australian community. The ABS plays a central role in developing statistical standards, including through liaison with international organisations.

The ABS purpose is to inform Australia's important decisions by delivering relevant, trusted and objective data, statistics and insights. The ABS will maintain its emphasis on the delivery of high-quality official statistics and drawing new information insights from effective and safe use of available data. In 2021–22, the ABS will:

- support Australia's recovery from the COVID-19 pandemic by delivering timely and relevant statistical information to inform government, business, and the community.
- conduct the 2021 Census in August after 5 years of careful preparation. The data collected will inform new and continuing socio-economic and demographic research, and government policy development across a range of areas.

The ABS is responding to an increasing demand for quality data, emergent alternate sources of data, opportunities for innovation through new technologies, growing competition for analytical capability, and increased vigilance around cyber security.

Each year, in setting its priorities, the ABS also takes into consideration the needs of key information users, current and emerging risks, the burden placed on data providers, and the importance of improving access to statistical information.

1.2 ENTITY RESOURCE STATEMENT

Table 1.1 shows the total funding from all sources available to the entity for its operations and to deliver programs and services on behalf of the Government.

The table summarises how resources will be applied by outcome (government strategic policy objectives) and by administered (on behalf of the Government or the public) and departmental (for the entity's operations) classification.

Information in this table is presented on a resourcing basis (i.e. appropriations/cash available), while the 'Budgeted expenses by Outcome 1' tables in Section 2 and the financial statements in Section 3 are presented on an accrual basis.

Table 1.1: Australian Bureau of Statistics resource statement — Budget estimates for 2021-22 as at Budget May 2021

| | 2020-21 (a) | 2021-22 |
|--------------------------------------------------------|-------------|----------|
| | Estimated | Estimate |
| | actual | |
| | \$'000 | \$'000 |
| Departmental | | |
| Annual appropriations - ordinary annual services (b) | | |
| Prior year appropriations available | 74,562 | 78,614 |
| Departmental appropriation (c) | 414,382 | 573,760 |
| s74 External Revenue (d) | 58,371 | 73,045 |
| Departmental capital budget (e) | 12,741 | 15,807 |
| Annual appropriations - other services - non-operating | | |
| Prior year appropriations available | - | - |
| Equity injection (f) | 27,645 | 9,136 |
| Total departmental annual appropriations | 587,701 | 750,362 |
| Total departmental resourcing | 587,701 | 750,362 |
| Total resourcing for Australian Bureau of Statistics | 587,701 | 750,362 |
| | | |
| | 2020-21 | 2021-22 |
| Average staffing level (number) | 2,783 | 3,154 |

All figures shown above are GST exclusive - these may not match figures in the cash flow statement. Prepared on a resourcing (i.e. appropriations available) basis.

- (a) Annual appropriation amounts appearing for 2020-21, includes the 2020-21 Appropriation Bill (No.3).
- (b) Appropriation Bill (No. 1) 2021-22.
- (c) Excludes departmental capital budget (DCB).
- (d) Estimated retained revenue receipts under section 74 of the PGPA Act 2013.
- (e) Departmental capital budgets are not separately identified in Appropriation Bill (No.1) and form part of ordinary annual services items. Please refer to Table 3.5 for further details. For accounting purposes, this amount has been designated as a 'contribution by owner'.
- (f) Appropriation Bill (No.2) 2021-22.

1.3 BUDGET MEASURES

Budget measures relating to the ABS are detailed in Budget Paper No. 2 and are summarised below.

Table 1.2: Australian Bureau of Statistics 2021-22 Budget measures

Measures announced since the 2020-21 Mid-Year Economic and Fiscal Outlook
(MYEFO)

| | Program | 2020-21 \$'000 | 2021-22 \$'000 | 2022-23 \$'000 | 2023-24 \$'000 | 2024-25 \$'000 |
|-------------------------------------------------------------------------------------------------------|---------|-------------------|-------------------|-------------------|-------------------|-------------------|
| Payment measures Australian Bureau of Statistics — Agriculture 2030 (a) Departmental payment | 1.1 | | 2,927 | 1,319 | - | |
| Australian Bureau of Statistics — COVID-19 Response Package - vaccine purchases and rollout (b) | 1.1 | | | | | |
| Departmental payment | | - | 402 | - | - | - |
| Total payment measures | | | | | | |
| Departmental | | - | 3,329 | 1,319 | - | - |
| Total | | - | 3,329 | 1,319 | - | - |

Prepared on a Government Financial Statistics (Underlying Cash) basis. Figures displayed as a negative (-) represent a decrease in funds and a positive (+) represent an increase in funds.

⁽a) The Department of Agriculture, Water and the Environment is the lead entity for the measure titled 'Agriculture 2030'. The full measure description and package details appear in Budget Paper No.2 under the Agriculture, Water and the Environment portfolio.

⁽b) The Department of Health is the lead entity for the measure titled 'COVID-19 Response Package - vaccine purchases and rollout'. The full measure description and package details appear in Budget Paper No.2 under the Health portfolio.

Section 2: Outcomes and planned performance

Government outcomes are the intended results, impacts or consequences of actions by the Government on the Australian community. Commonwealth programs are the primary vehicle by which government entities achieve the intended results of their outcome statements. Entities are required to identify the programs which contribute to government outcomes over the Budget and forward years.

The ABS' outcome is described below together with its related program. The following provides detailed information on expenses for each outcome and program, further broken down by funding source.

Note:

Performance reporting requirements in the Portfolio Budget Statements are part of the enhanced Commonwealth performance framework established by the *Public Governance, Performance and Accountability Act* 2013. It is anticipated that the performance criteria described in Portfolio Budget Statements will be read with broader information provided in an entity's corporate plans and annual performance statements — included in Annual Reports - to provide an entity's complete performance story.

The most recent corporate plan for the ABS can be found at: (https://www.abs.gov.au/ausstats/abs@.nsf/mf/1005.0)

The most recent annual performance statement can be found in the latest ABS Annual Report located on the Government's Transparency Portal at: Australian Bureau of Statistics Annual Report 2019-20 | Transparency Portal

2.1 BUDGETED EXPENSES AND PERFORMANCE FOR OUTCOME 1

Outcome 1: Decisions on important matters made by governments, business and the broader community are informed by objective, relevant and trusted official statistics produced through the collection and integration of data, its analysis, and the provision of statistical information.

Linked programs

Many programs rely on ABS statistics to inform decision-making. Many ABS statistics rely on data held by State, Territory and other Australian Government agencies.

Australian Taxation Office

Programs

Program 1.3 — Australian Business Register

Contribution to Outcome 1 made by linked programs

Program 1.3 — Australian Business Register provides essential infrastructure to the operation of ABS business surveys.

Budgeted expenses for Outcome 1

This table shows how much the entity intends to spend (on an accrual basis) on achieving the outcome, broken down by program, as well as by Administered and Departmental funding sources.

Table 2.1: Budgeted expenses for Outcome 1

| | 2020-21 Estimated actual \$'000 | 2021-22 Budget \$'000 | 2022-23 Forward estimate \$'000 | 2023-24 Forward estimate \$'000 | 2024-25 Forward estimate \$'000 |

| Departmental total | 503,236 | 690,828 | 441,153 | 401,443 | 420,497 |
| Total expenses for program 1.1 | 503,236 | 690,828 | 441,153 | 401,443 | 420,497 |

| | 2020-21 | 2021-22 |
|---------------------------------|---------|---------|
| Average staffing level (number) | 2,783 | 3,154 |

⁽a) Estimated expenses incurred in relation to receipts retained under section 74 of the PGPA Act 2013.

Note: Departmental appropriation splits and totals are indicative estimates and may change over the course of the budget year as government priorities change.

⁽b) Expenses not requiring appropriation in the Budget year are made up of depreciation expenses, amortisation expenses and resources received free of charge.

Table 2.2: Performance criteria for Outcome 1

Table 2.2 below details the performance criteria for each program associated with Outcome 1. It also summarises how each program is delivered and where 2020-21 Budget measures have created new programs or materially changed existing programs.

Outcome 1 — Decisions on important matters made by governments, business and the broader community are informed by objective, relevant and trusted official statistics produced through the collection and integration of data, its analysis, and the provision of statistical information.

Program 1.1 — Australian Bureau of Statistics

This program contributes to the outcome through delivery of high-quality statistical information to inform Australia's most important issues and through engaging with users within government, business and the community to ensure they have the confidence in the statistical resources available to enable them to make informed decisions.

Delivery In 2021-22 and onwards, the ABS will: 1. Provide high quality statistics, across key economic, population, social and environment subject matter areas that meet the needs of key users in government, business and the community.

Performance information

| Year | Performance criteria (a) | Targets |
|---------|----------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 2020-21 | Decision making by governments, business and the community is informed by high quality statistics. | The ABS continues to produce key economic and population statistics with appropriate coverage, frequency and timeliness as assessed by the International Monetary Fund against the Special Data Dissemination Standard (b); except where the ABS has made an explicit decision not to do so, following consultation with stakeholders, based on Australian needs and circumstances. Status: On track |

| Performance information (continued) | | | | | | |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|--|--|--|
| Year | Performance criteria (a) | Targets | | | | |
| 2021-22 | Decision making by governments, business and the community is informed by high quality statistics. | The ABS continues to produce key economic and population statistics with appropriate coverage, frequency and timeliness as assessed by the International Monetary Fund against the Special Data Dissemination Standard (b); except where the ABS has made an explicit decision not to do so, following consultation with stakeholders, based on Australian needs and circumstances. | | | | |
| 2022-23 and beyond | As per 2021-22 | As per 2021-22 | | | | |
| Purpose The purpose that contributes to Program 1.1 – ABS is: to inform Australia's important decisions by delivering relevant, trusted, and objective data, statistics, and insights. | | | | | | |
| · · | Material changes to Program 1.1 resulting from the following measures: There are no budget measures that materially impact on Program 1.1 – Australian Bureau of Statistics. | | | | | |

(a) New or modified performance criteria that reflect new or materially changed programs are shown in italics.

⁽b) The Special Data Dissemination Standard (SDDS) is produced and managed by the International Monetary Fund (IMF). The IMF monitors and reports on how well countries comply with SDDS requirements for the range of statistics produced and the coverage, frequency, and timeliness of the statistics that are produced. The statistics required by the SDDS include national accounts, labour force, unemployment, consumer price index, and estimates of resident population. The latest information on Australia's compliance with the SDDS is available on the IMF website: http://dsbb.imf.org/Pages/SDDS/SOOCtyCtgList.aspx?ctycode=AUS.

Section 3: Budgeted financial statements

Section 3 presents budgeted financial statements that provide a comprehensive snapshot of entity finances for the 2021-22 budget year, including the impact of budget measures and resourcing on financial statements.

3.1 BUDGETED FINANCIAL STATEMENTS

3.1.1 Differences between entity resourcing and financial statements

The entity resource statement, refer Table 1.1, is prepared on a cash basis and provides a view of cash/appropriations resources available to the ABS whilst the financial statements are prepared on an accrual basis.

3.1.2 Explanatory notes and analysis of budgeted financial statements

The ABS is budgeting for a breakeven operating result in 2021-22 after adjusting for non-appropriated expenses of depreciation and amortisation, and omitting the impact of AASB 16 Leases.

Total appropriation revenue in 2021-22 is estimated to be \$573.8 million. This has increased from \$567.8 million as reported in the 2020-21 Portfolio Budget Statements. The increase is largely associated with the additional funding received to support the Industrial Relations Reform Package announced at MYEFO 2020-21, the Agriculture 2030 and the COVID-19 Response Package – vaccine purchases and rollout measures announced in the Budget 2021-22 as outlined in Table 1.2.

Total operating expenses in 2021-22 are estimated to be \$690.8 million. This has increased from \$675.3 million as reported in the 2020-21 Portfolio Budget Statements. The increase reflects activities relating to the 2021 Census, and expenditure from the new measure as outlined in Table 1.2.

The total capital budget in 2021-22 is estimated to be \$24.9 million. This is \$15.4 million less than 2020-21 which predominantly reflects the conclusion of the 2021 Census major development phase.

3.2. **BUDGETED FINANCIAL STATEMENTS TABLES**

Prepared on Australian Accounting Standards basis

⁽a) From 2010-11, the Government introduced net cash appropriation arrangements where Bill 1 revenue appropriations for the depreciation/amortisation expenses of non-corporate Commonwealth entities (and select corporate Commonwealth entities) were replaced with a separate capital budget (the Departmental Capital Budget, or DCB) provided through Bill 1 equity appropriations. For information regarding DCBs, please refer to Table 3.5 Departmental Capital Budget Statement.
(b) Applies leases under AASB 16 Leases.

AUSTRALIAN COMPETITION AND CONSUMER COMMISSION

Section 1: Entity overview and resources

1.1 STRATEGIC DIRECTION STATEMENT

The Australian Competition and Consumer Commission (ACCC) is an independent Commonwealth statutory authority whose role is to enforce the *Competition and Consumer Act 2010* (CCA) and a range of additional legislation, promoting competition, fair trading, consumer protection, and regulating national infrastructure for the benefit of all Australians.

The Australian Energy Regulator (AER) regulates energy markets and networks under national legislation and rules. The AER has an independent Board.

The ACCC and AER share staff, resources and facilities.

The roles of the ACCC and AER are founded on the principle that competition provides the best incentive for businesses to become more efficient, innovative and flexible and to operate in the long-term interests of consumers. Competition is a positive force that promotes economic growth and job creation.

It falls to the ACCC to determine which competition, consumer, fair trading, and product safety matters it investigates, although it also receives directions on market studies and inquiries and industry monitoring from the Minister. The ACCC's role is to focus on those matters that have the potential to harm the competitive process or result in widespread consumer detriment.

The ACCC directs its resources to matters that provide the greatest overall benefit for competition and consumers. Each year the ACCC reviews its competition, consumer protection and fair trading priorities, as set out in the ACCC Compliance and Enforcement Policy.

The ACCC also annually updates its product safety priorities so as to identify and address the risk of serious injury and death from unsafe consumer products.

The ACCC will continue to assess and review mergers via the informal clearance process to prevent changes in market structures that would substantially lessen competition. It will also continue to assess conduct and agreements that may breach relevant competition laws but which should be authorised because there is expected to be a net public benefit.

The ACCC will continue to focus on its role in relation to implementing and enforcing the Consumer Data Right, which provides consumers with more access to and control of their personal data, to promote competition across the economy.

The ACCC is the national regulator of natural monopoly infrastructure services in communication, postal services and rail industries, and has specific regulatory roles in relation to bulk water and bulk wheat port facilities. The ACCC also has a role in enforcing industry-specific competition and market rules in some infrastructure-based markets, such as retail electricity. Promoting efficient infrastructure provision through industry-specific regulation and access conditions is a major focus of the ACCC's economic regulatory role.

The ACCC also monitors other sectors (such as major airports, container stevedoring, petrol and communications) where there is limited competition or high consumer concern to provide information to governments and the public about the operation of the relevant markets.

In 2021-22 the ACCC will continue to focus on markets characterised by a lack of transparency or insufficient competition which inhibit efficient market outcomes. This includes undertaking inquiries, industry analysis and reporting activities covering a broad range of sectors, including gas and electricity, digital platforms, domestic aviation, agriculture, financial services and private health insurance.

When undertaking all of these key activities the ACCC will continue to engage extensively with a wide range of stakeholders to:

- · achieve outcomes that enhance the welfare of all Australians, and
- minimise the regulatory burden for businesses without compromising its statutory responsibilities to promote competition and protect consumers.

The ACCC also seeks to contribute to the continuous improvement of regulatory frameworks to deliver on our purpose to *make markets work for consumers, now and in the future.*

The AER exists so that energy consumers are better off, now and in the future. The AER regulates wholesale and retail energy markets, and energy networks, under national energy legislation and rules. Our functions mostly relate to energy markets in eastern and southern Australia. We place consumers at the heart of our work, and are focused on ensuring a secure, reliable and affordable energy future for Australia.

In December 2020 the AER finalised and launched its Strategic Plan 2020-2025. The outcomes sought are grounded in the former Council of Australian Government (COAG) Strategic Energy Plan. To achieve these outcomes the AER has four objectives:

Australian Competition and Consumer Commission Budget Statements

- protect vulnerable consumers, while enabling consumers to participate in energy markets
- effectively regulate competitive markets primarily through monitoring and reporting, and enforcement and compliance
- deliver efficient regulation of monopoly infrastructure while incentivising networks to become platforms for energy services
- use our expertise to inform debate about Australia's energy future and support the energy transition.

1.2 ENTITY RESOURCE STATEMENT

Table 1.1 shows the total funding from all sources available to the entity for its operations and to deliver programs and services on behalf of the Government.

The table summarises how resources will be applied by outcome (government strategic policy objectives) and by administered (on behalf of the Government or the public) and departmental (for the entity's operations) classification.

For more detailed information on special accounts and special appropriations, please refer to *Budget Paper No. 4 – Agency Resourcing*.

Information in this table is presented on a resourcing (that is, appropriations/cash available) basis, whilst the 'Budgeted expenses by Outcome 1' tables in Section 2 and the financial statements in Section 3 are presented on an accrual basis.

Table 1.1: Australian Competition and Consumer Commission resource statement — Budget estimates for 2021-22 as at Budget May 2021

Table 1.1: Australian Competition and Consumer Commission resource statement — Budget estimates for 2021-22 as at Budget May 2021 (continued)

Third party payments from and on behalf of the National Competition Council (NCC)

| (1100) | | |
|--------------------------------------------------------------|-----------|----------|
| | 2020-21 | 2021-22 |
| | Estimated | Estimate |
| | actual | |
| | \$'000 | \$'000 |
| | | |
| Payments made on behalf of the NCC | | |
| (as disclosed in the NCCs resource statement) | 1,701 | 1,731 |
| Receipts received from the NCC for the provision of services | | |
| (disclosed above in s74 External Revenue section above) | 850 | 850 |

Prepared on a resourcing (that is, appropriations available) basis.

All figures shown above are GST exclusive - these may not match figures in the cash flow statement.

- (a) Appropriation Bill (No. 1) 2021-22.
- (b) Excludes departmental capital budget (DCB).
- (c) Includes transfers of appropriation to the Department of the Treasury under section 75 of the *Public Governance, Performance and Accountability Act 2013* (PGPA Act) as a result of a transfer of function authority.
- (d) Estimated External Revenue receipts under section 74 of the PGPA Act.
- (e) Departmental capital budgets are not separately identified in Appropriation Bill (No.1) and form part of ordinary annual services items. Please refer to Table 3.5 for further details. For accounting purposes, this amount has been designated as a 'contribution by owner'.
- (f) Appropriation Bill (No. 2) 2021-22.
- (g) Relates to repayments not provided for under other appropriations through section 77 of the PGPA Act.
- (h) Excludes trust moneys held in Services for Other Entities and Trust Moneys (SOETM) and other special accounts. For further information on special accounts, please refer to Budget Paper No. 4 - Agency Resourcing. Please also see Table 2.1 for further information on outcome and program expenses broken down by various funding sources, e.g. annual appropriations, special appropriations and special accounts.

1.3 BUDGET MEASURES

Budget measures in Part 1 relating to the ACCC are detailed in Budget Paper No. 2 and are summarised below.

Table 1.2: Australian Competition and Consumer Commission 2021-22 Budget measures

Measures announced since the 2020-21 Mid-Year Economic and Fiscal Outlook (MYEFO)

| | Program | 2020-21 \$'000 | 2021-22 \$'000 | 2022-23 \$'000 | 2023-24 \$'000 | 2024-25 \$'000 |

| Payment measures | | | | | | |
| Australian Energy Regulator - increased roles and responsibilities | | | | | | |
| Departmental payment | 1.2 | - | 11,850 | 11,870 | - | - |
| Commonwealth's Deregulation Agenda | | | | | | |
| Departmental payment | 1.2 | - | 1,673 | 1,472 | - | - |
| Digital Economy Strategy | | | | | | |
| Departmental payment | 1.1 | - | 43,422 | 32,755 | 1,811 | 1,811 |
| Departmental payment | 1.2 | - | 1,512 | 1,219 | - | - |
| Motor Vehicle Service and Repair Information Sharing Scheme | | | | | | |
| Departmental payment | 1.2 | - | - | - | - | - |
| Total payment measures | | - | 58,457 | 47,316 | 1,811 | 1,811 |

Prepared on a Government Finance Statistics (Underlying Cash) basis. Figures displayed as a negative (-) represent a decrease in funds and a positive (+) represent an increase in funds.

Section 2: Outcomes and planned performance

Government outcomes are the intended results, impacts or consequences of actions by the Government on the Australian community. Commonwealth programs are the primary vehicle by which government entities achieve the intended results of their outcome statements. Entities are required to identify the programs which contribute to government outcomes over the Budget and forward years.

Each outcome is described below together with its related programs. The following provides detailed information on expenses for each outcome and program, further broken down by funding source.

Note:

Performance reporting requirements in the Portfolio Budget Statements are part of the Commonwealth performance framework established by the *Public Governance, Performance and Accountability Act 2013*. It is anticipated that the performance criteria described in Portfolio Budget Statements will be read with broader information provided in an entity's corporate plans and annual performance statements – included in Annual Reports - to provide a complete picture of an entity's planned and actual performance.

The most recent corporate plan for the ACCC can be found at: (http://www.accc.gov.au/publications/corporate-plan-priorities)

The most recent annual performance statement can be found at: (http://www.accc.gov.au/annualreports)

2.1 BUDGETED EXPENSES AND PERFORMANCE FOR OUTCOME 1

Outcome 1: Enhanced welfare of Australians through enforcing laws that promote competition and protect consumers, as well as taking other regulatory and related actions including monitoring and market analysis, public education, determining the terms of access to infrastructure services, and discharging regulatory responsibilities governing energy markets and networks

Budgeted expenses for Outcome 1

This table shows how much the entity intends to spend (on an accrual basis) on achieving the outcome, broken down by program, as well as by Administered and Departmental funding sources.

Table 2.1: Budgeted expenses for Outcom1

Figures displayed as a negative (-) represent a decrease in funds and a positive (+) represent an increase in funds.

Note: Departmental appropriation splits and totals are indicative estimates and may change in the course of the budget year as government priorities change.

⁽a) Estimated expenses incurred in relation to receipts retained under section 74 of the PGPA Act.

 ⁽b) Expenses not requiring appropriation in the Budget year are made up of depreciation expenses, amortisation expenses, make good expenses, audit fees and Litigation Contingency Fund payments funded from equity.

Table 2.2: Performance criteria for Outcome 1

Table 2.2 below details the performance criteria for each program associated with Outcome 1. It also summarises how each program is delivered and where 2021-22 Budget measures have created new programs or materially changed existing programs.

Outcome 1 – Enhanced welfare of Australians through enforcing laws that promote competition and protect consumers, as well as taking other regulatory and related actions including monitoring and market analysis, public education, determining the terms of access to infrastructure services, and discharging regulatory responsibilities governing energy markets and networks

Program 1.1 – Australian Competition and Consumer Commission

To achieve compliance with the *Competition and Consumer Act 2010* and other legislation to protect, strengthen and supplement the way competition works in Australian markets and industries to improve the efficiency of the economy and to increase the welfare of Australians.

Delivery

The ACCC achieves Outcome 1 by using its resources to undertake the following key activities to achieve its seven strategic objectives:

- 1. Address anti-competitive conduct and promote competition
- Initiate compliance and enforcement actions to address harm to consumers and businesses resulting from anti-competitive conduct
- Make decisions on authorisation, notification and certification trademark applications in the public interest
- Undertake market studies and inquiries to contribute to improved market outcomes
- 2. Prevent anti-competitive mergers
- Assess mergers to prevent changes in market structures that substantially lessen competition
- 3. Improve market outcomes by reducing information asymmetries
- Facilitate the enabling technology solutions for the Consumer Data Right, and support participants. including testing and on-boarding
- Accredit Consumer Data Right data recipients
- Promote compliance with and enforce the Consumer Data Right rules and standards
- Protect consumers and businesses from misleading and deceptive conduct and promote fair trading
- Initiate compliance and enforcement actions to address harm to consumers and small businesses resulting from non-compliance with the Australian Consumer Law and Industry Codes
- Empower small businesses by increasing awareness of their rights under the Australian Consumer Law and Industry Codes
- Empower consumers by increasing awareness of their rights under the Australian Consumer Law
- 5. Protect consumers from unsafe products
- Identify safety hazards in consumer products and prioritise the risks that may result in serious injury and death
- Address the highest priority risks of serious injury and death arising from safety hazards in consumer products through regulation, education, compliance and enforcement actions

- 6. Regulate monopoly infrastructure and monitor concentrated markets in the long term interests of consumers
- Formulate regulatory decisions that promote the long-term interests of end-users and consumers
- Provide industry monitoring reports to government in relation to highly concentrated or emerging markets
- Improve the efficient operation of markets by enforcing industry-specific competition and market rules
- 7. Improve our own systems, capabilities and ways of working
- Support our people to develop and meet their full potential; and facilitate a diverse, respectful and inclusive culture
- Modernise our ICT and improve the reliability, flexibility and security of our business and data systems
- Adapt our ways of working to allow resources to be used flexibly to meet changing
 priorities and to adopt innovative practises commensurate with the level of risk
- Further develop our standing as a world-class independent regulator through external engagement and internal collaboration to support robust and transparent decision making that is responsive to complex challenges and demands

Performance information

| Year | Performance criteria (a) | Expected Achievement 2020-21 / Target for 2021-22 |
|---------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------|
| 2020-21 | Number of competition enforcement interventions (court proceeding commenced, section 87B undertakings accepted, administrative resolutions) | 4 - 6 |
| | Percentage of merger matters considered (under the informal merger review process) that were finalised by pre-assessment | Will exceed target of 80% |
| | Percentage of authorisation applications assessed within statutory timeframe(s) (excluding time periods where information is outstanding) | 100% |
| | Number of Australian Consumer Law enforcement interventions (court proceeding commenced, section 87B undertakings accepted, infringement notices issued, administrative resolutions) | 35+ |
| | Number of initial and in depth investigations of emerging product safety hazards | 10 |
| | Number of small business Infocentre contacts served | Expect to be just less than target of 12 000 |
| | Number of Infocentre contacts served (includes Infocentre contacts served and webforms received) | Will exceed target of 200 000 |
| | Number of major regulatory decisions Number of annual monitoring reports Number of reports on monitoring of unleaded petroleum products Number of reports on broadband markets Number of completed markets studies and inquiries | 5 6 5 10 4 |

⁽a) New or modified performance criteria that reflect new or materially changed programs are shown in *italics*.

The above program is linked to the Department of Health (Program 1.8 – Health Protection, Emergency Response and Regulation) and the Department of Industry, Science, Energy and Resources (Program 1.2 – Growing innovative and competitive businesses, industries and regions and Program 3.1 – Supporting reliable, secure and affordable energy).

Table 2.2: Performance criteria for Outcome 1 (continued)

Program 1.2 - Australian Energy Regulator

The AER's priorities and work program are guided by the objectives of national energy legislation and rules and the five core outcomes for the energy system established by the COAG Energy Council's Strategic Plan. The common objective through the legislation is to promote efficient investment in, and efficient operation and use of, energy services for the long-term interests of end users of energy with respect to price, quality, safety, reliability and security.

Delivery

The AER achieves Outcome 1 by:

- Wholesale energy market regulation: monitoring, investigating and enforcing
 compliance with national energy legislation and rules in wholesale electricity and gas
 markets. We monitor participant bidding and rebidding, market dispatch and prices,
 network constraints and outages, demand forecasts and forecasts of production and
 capacity. We also report on market activity.
- Energy networks regulation: regulating electricity networks and natural gas pipelines
 by setting the maximum amount of revenue they can earn, with reference to factors
 including projected demand, age of infrastructure, operating and financial costs, and
 network reliability and safety standards.
- Retail energy market regulation: regulating retail electricity and gas markets in jurisdictions that have commenced the National Energy Retail Law: Tasmania (for electricity customers only), the Australian Capital Territory, South Australia, New South Wales and Queensland.
- Consumer protection: empowering consumers to make informed choices about their
 energy supplier, including through a price comparison website, Energy Made Easy,
 setting the Default Market Offer to protect consumers from high prices and encourage
 participation in the market, approving retailer policies to assist customers facing
 financial hardship, and operating a retailer of last resort scheme if a retailer fails.
- Policy and advocacy: advocating for improvements to energy laws across
 participating jurisdictions, as well as positive changes to the behaviour of energy
 businesses and consumers. This includes simplifying the retail market regulatory
 framework to encourage effective competition and reduce cost to serve.

| Purposes | The AER exists so that energy consumers are better off, now and in the future. The AER is striving to be a high high-performing regulator that is independent, open and accountable; builds trust in Australia's energy system; takes considered risks; ensures the regime is fit for purpose; and engages actively with stakeholders. | | | |

⁽a) New or modified performance criteria that reflect new or materially changed programs are shown in *italics*.

The above program is linked to the Department of Industry, Science, Energy and Resources (Program 3.1 – Supporting reliable, secure and affordable energy).

⁽b) This question was not asked in the 2021 AER stakeholder survey. This indictor will not be used in future.

Section 3: Budgeted financial statements

Section 3 presents budgeted financial statements which provide a comprehensive snapshot of entity finances for the 2021-22 budget year, including the impact of budget measures and resourcing on financial statements.

3.1 BUDGETED FINANCIAL STATEMENTS

3.1.1 Differences between entity resourcing and financial statements

The entity resource statement is prepared on a cash basis and provides a view of cash/appropriations resources available to the ACCC whilst the financial statements are prepared on an accrual basis.

3.1.2 Explanatory notes and analysis of budgeted financial statements

Total appropriation revenue for 2021-22 is estimated to be \$286.7 million. This has increased from \$251.9 million as reported in the 2020-21 Portfolio Additional Estimates Statements (PAES). The total capital budget for 2021-22, which exists to cover the purchase of non-financial assets, is estimated to be \$32.5m. This has increased from \$10.3m as reported in the 2020-21 PAES. The increases in operating and capital funding are primarily due to the new budget measures reported under Table 1.2.

The primary financial asset relates to receivables, and are used to fund the ACCC's capital program, employee entitlements, creditors and to provide working capital.

Non-financial assets represent future benefits that the ACCC will consume in producing outputs. The reported value represents the purchase price paid less depreciation incurred to date in using the asset. Buildings largely represent the recognition of the ACCC's long-term office accommodation leases under *AASB 16-Leases*.

Provisions and payables include:

- employee entitlements arising from services rendered by employees. The liability includes unpaid annual leave and long service leave;
- long-term office accommodation lease liabilities under AASB16 Leases; and
- unpaid expenses as at balance date.

Prepared on Australian Accounting Standards basis.

⁽a) From 2010-11, the Government introduced net cash appropriation arrangements where Bill 1 revenue appropriations for the depreciation/amortisation expenses of non-corporate Commonwealth entities (and select corporate Commonwealth entities) were replaced with a separate capital budget (the Departmental Capital Budget, or DCB) provided through Bill 1 equity appropriations. For information regarding DCBs, please refer to Table 3.5 Departmental Capital Budget Statement.

(b) Applies leases under AASB 16 Leases.

AUSTRALIAN OFFICE OF FINANCIAL MANAGEMENT

Section 1: Entity overview and resources

1.1 STRATEGIC DIRECTION STATEMENT

The Australian Office of Financial Management (AOFM) is responsible for the management of Australian Government debt and certain financial assets. It issues Treasury Bonds, Treasury Indexed Bonds and Treasury Notes, manages the government's cash balances and invests in high quality financial assets.

The AOFM aims to meet the government's financing needs in a cost effective manner subject to acceptable risk and to meet the government's policy objectives of maintaining liquid and efficient Treasury Bond and Treasury Bond futures markets. Treasury Bonds are the main issuance instrument used by the AOFM to meet the Australian Government's financing needs and to support bond markets.

The AOFM primarily manages the cost structure of the debt portfolio through the choice of Treasury Bond series when issuing debt. An annual debt issuance strategy is informed by qualitative and quantitative factors to achieve an interest rate profile that appropriately balances cost and cost variability, the refinancing task and the promotion of financial market efficiency. In recent years the AOFM has lengthened the duration of its Treasury Bond portfolio through longer term issuance and by extending the yield curve as a means of reducing risk. Where appropriate, the AOFM will continue to undertake issuance by way of syndication, in addition to its usual method of borrowing, to accelerate issuance volumes and to establish new maturities.

Since 2016, as a means of reducing refinancing risk the AOFM conducted regular buy-backs of short dated bonds. This program was suspended in March 2020 and continues to be suspended indefinitely so as not to increase the already elevated current and forecast financing needs.

The use of Treasury Indexed Bonds facilitates diversification of the investor base by tapping into additional sources of investor demand. The development of this market has also, at times, been used to facilitate the development of the Treasury Bond market. Demand conditions for this asset class is contingent on market inflationary expectations.

In managing the government's cash balances, the AOFM aims to ensure that the government is able to meet its financial obligations when they fall due, while seeking to minimise the net cost of funding. The use of deposits and issuance of Treasury Notes is used to manage cash flow variability arising from the governments' within year financing task. The heightened liquidity risks due to the level of the financing task, potential further downside risks to the Budget position and the potential for market volatility, means that the AOFM will continue to closely monitor and manage liquidity

risk. An increased reliance on Treasury Notes to fund within year cash shortfalls will reduce the cost of holding the precautionary asset balances.

In 2018-19, the Government announced the establishment of the Australian Business Securitisation Fund (ABSF). In 2019-20, the Government announced the establishment of the Structured Finance Support Fund (SFSF). The AOFM is responsible for the administration of these funds.

Australian Business Securitisation Fund

The ABSF is a \$2 billion investment fund established in April 2019 by the *Australian Business Securitisation Fund Act 2019*. The policy aims to enhance access to finance for Small to Medium Enterprises (SME) through targeted investments in the securitisation market. Investments from the ABSF will allow for smaller lenders to compete more effectively against the major banks, and to fill niche gaps in the lending market that are otherwise underserved in Australia.

The securitisation market for residential mortgages in Australia is considered to be well developed. However, at present, the Australian SME securitisation market is constrained by a lack of scale, while low issuance creates a situation whereby potential investors are unwilling to conduct the due diligence needed to enter the market. The AOFM is aiming for the ABSF to invest in SME loan securitisations that will help to establish a track record in lending against the type of collateral new to the securitisation market, and where the ability to obtain credit ratings and attract broad investor interest is severely limited.

In the first half of 2020-21 market conditions did not support a continuation of investment activity to progress the objectives of the ABSF programme. In January 2021 the AOFM recommenced the programme.

Structured Finance Support Fund

Through the Structured Finance Support (Coronavirus Economic Response Package) Bill 2020 the Government established the Structured Finance Support Fund (SFSF). It provides for up to \$15 billion to ensure continued access to funding markets by SME lenders impacted by the economic effects of the COVID-19 pandemic. In particular, the policy aim is to compensate for where smaller lenders lose access to funding from markets during the period of pandemic disruption. This is achieved through targeted government investments in structured finance markets.

There are three key elements to the SFSF implementation strategy:

1. support new issuance of public securitisations sponsored by smaller lenders. This has included the AOFM purchasing existing securities through the secondary market, with the proceeds used by investors to facilitate participation in new primary transactions;

- 2. invest in revolving warehouse facilities of small lenders (primarily to fill the gaps in existing facilities arising from investors exiting these arrangements; and/or being unable to meet additional funding calls; and/or being required to elevate the level of credit enhancement within the facilities they finance ostensibly to meet prudential regulation requirements); and
- 3. establish a 'forbearance trust' to enable the SFSF to invest in trust-issued securities, the proceeds of which are advanced to existing warehouses and public securitisation vehicles of eligible small lenders against capitalised interest on loans that are in COVID-19 related hardship, to provide liquidity support during the pandemic.

1.2 ENTITY RESOURCE STATEMENT

Table 1.1 shows the total funding from all sources available to the entity for its operations and to deliver programs and services on behalf of the Government.

The table summarises how resources will be applied by outcome (government strategic policy objectives) and by administered (on behalf of the Government or the public) and departmental (for the entity's operations) classification.

For more detailed information on special accounts and special appropriations, please refer to *Budget Paper No. 4 – Agency Resourcing*.

Information in this table is presented on a resourcing (that is, appropriations/cash available) basis, whilst the 'Budgeted expenses by Outcome 1' tables in Section 2 and the financial statements in Section 3 are presented on an accrual basis.

Table 1.1: Australian Office of Financial Management resource statement — Budget estimates for 2021-22 as at Budget May 2021

| Budget estimates for 2021-22 as at Budget may 2021 | | |

| less payments to corporate entities from annual/special appropriations | - | - |
| Total administered resourcing | 769,180,195 | 607,469,469 |
| Total resourcing for AOFM | 769,224,600 | 607,514,713 |
| | 2020.24 | 2024.22 |
| | 2020-21 | 2021-22 |

Average staffing level (number)

All figures shown above are GST exclusive - these may not match figures in the cash flow statement.

- Prepared on a resourcing (that is, appropriations available) basis.
 (a) Appropriation Bill (No. 1) 2021-22.
- (b) Excludes departmental capital budget (DCB).
- (c) Estimated External Revenue receipts under section 74 of the PGPA Act.
- (d) Departmental capital budgets are not separately identified in Appropriation Bill (No.1) and form part of ordinary annual services items. Please refer to Table 3.5 for further details. For accounting purposes, this amount has been designated as a 'contribution by owner'.
- (e) Special Appropriations comprise funding to meet estimated operating expenditures such as interest on Australian Government Securities (AGS) and financing expenditures such as maturity of AGS.
- (f) The AOFM administers three special accounts the Debt Retirement Reserve Trust Account (DRRTA), the Australian Business Securitisation Fund (ABSF) Special Account and the Structured Finance Support Fund (SFSF) Special Account. Figures include all special accounts. For further information on special accounts, please refer to Budget Paper No. 4 Agency Resourcing. Please also see Table 2.1 for further information on outcome and program expenses broken down by various funding sources, e.g. annual appropriations, special appropriations and special accounts.
- (g) Includes amounts credited to the Australian Business Securitisation Fund Special Account under section 14 of the Australian Business Securitisation Fund Act 2019.

1.3 BUDGET MEASURES

The AOFM has no new budget measures.

Section 2: Outcomes and planned performance

Government outcomes are the intended results, impacts or consequences of actions by the Government on the Australian community. Commonwealth programs are the primary vehicle by which government entities achieve the intended results of their outcome statements. Entities are required to identify the programs which contribute to government outcomes over the Budget and forward years.

The AOFM's outcome is described below together with its related programs. The following provides detailed information on expenses for each outcome and program, further broken down by funding source.

Note:

Performance reporting requirements in the Portfolio Budget Statements are part of the Commonwealth performance framework established by the *Public Governance*, *Performance and Accountability Act 2013*. It is anticipated that the performance criteria described in Portfolio Budget Statements will be read with broader information provided in an entity's corporate plans and annual performance statements – included in Annual Reports - to provide a complete picture of an entity's planned and actual performance.

The most recent corporate plan for AOFM can be found at: (https://www.aofm.gov.au/publications/corporate-plan-2020-2021)

The most recent annual performance statement can be found at: (https://www.aofm.gov.au/publications/annual-reports/part-2-performance-and-outcome)

2.1 BUDGETED EXPENSES AND PERFORMANCE FOR OUTCOME 1

Outcome 1: The advancement of macroeconomic growth and stability, and the effective operation of financial markets, through issuing debt, investing in financial assets and managing debt, investments and cash for the Australian Government.

Budgeted expenses for Outcome 1

This table shows how much the entity intends to spend (on an accrual basis) on achieving the outcome, broken down by program, as well as by Administered and Departmental funding sources.

Table 2.1: Budgeted expenses for Outcome 1

Section 3: Budgeted financial statements

Section 3 presents budgeted financial statements which provide a comprehensive snapshot of entity finances for the 2021-22 budget year, including the impact of budget measures and resourcing on financial statements.

3.1 BUDGETED FINANCIAL STATEMENTS

3.1.1 Differences between entity resourcing and financial statements Departmental

The comprehensive income statement (Table 3.1) includes resources received free of charge from the Australian National Audit Office for audit services. Departmental entity receipts as recorded in the entity resource statement (Table 1.1) exclude the estimated value of these services received free of charge.

The AOFM's estimated departmental expenses as shown in Table 2.1 are itemised in the departmental comprehensive income statement (Table 3.1).

Administered

The AOFM receives administered appropriations to meet operating expenditures and for capital expenditure purposes arising from managing a portfolio of debt and assets. This is reflected in the entity resource statement (Table 1.1). The schedule of budgeted administered cash flows (Table 3.9) itemises these expenditures and classifies them into operating, investing and financing activities.

The AOFM's estimated administered expenses as shown in Table 2.1 are itemised in the schedule of budgeted administered income and expenses (Table 3.7).

3.1.2 Explanatory notes and analysis of budgeted financial statements Administered

The AOFM produces budget estimates of Australian Government Securities (AGS) debt and certain financial assets. The projections of AGS debt are a consequence of the expenditure, investment and revenue decisions and assumptions made by the government in producing its estimates. Annual debt servicing costs on AGS debt are largely determined after taking into account changes in the volume of AGS debt over the projection period, yields on existing debt and assumptions about yields on new debt issuance over the projection period.

The estimated budgeting impacts of the ABSF and the SFSF are incorporated in the administered budgeted financial statements.

3.2. BUDGETED FINANCIAL STATEMENTS TABLES

| comprehensive income | 500 | (321) | (312) | (300) | (291) |

Prepared on Australian Accounting Standards basis.

⁽a) From 2010-11, the Government introduced net cash appropriation arrangements where Bill 1 revenue appropriations for the depreciation/amortisation expenses of non-corporate Commonwealth entities (and select corporate Commonwealth entities) were replaced with a separate capital budget (the Departmental Capital Budget, or DCB) provided through Bill 1 equity appropriations. For information regarding DCBs, please refer to Table 3.5 Departmental Capital Budget Statement.

(b) Applies leases under the AASB 16 Leases.

Prepared on Australian Accounting Standards basis.

(a) Includes balances of special accounts and the cash management account (CMA) held with the RBA. In recent years, liquidity management investments have been restricted to term deposits with the RBA. In November 2020 the AOFM established a new investment facility to replace term deposits - a cash management account - to more flexibly and more efficiently manage cash liquidity. The balance of the CMA is reported as 'cash' and not as 'investments'.

AUSTRALIAN PRUDENTIAL REGULATION AUTHORITY

Section 1: Entity overview and resources

1.1 Strategic direction statement

The role of the Australian Prudential Regulation Authority (APRA) is to regulate relevant financial institutions in accordance with the laws of the Commonwealth that provide for prudential regulation or retirement income standards. Under the legislation that APRA administers, APRA is tasked with protecting the interests of depositors, policyholders and superannuation fund members. In performing and exercising its functions, APRA is to balance the objectives of financial safety and efficiency, competition, contestability and competitive neutrality, and, in balancing these objectives, is to promote financial system stability in Australia.

APRA's mandate is to protect the Australian community by establishing and enforcing prudential standards and practices designed to ensure that, under all reasonable circumstances, financial promises made by institutions APRA supervises are met within a stable, efficient and competitive financial system.

APRA works closely with other regulatory agencies to achieve its mandate including those that form part of the Council of Financial Regulators (CFR) which includes the Department of the Treasury (the Treasury), the Reserve Bank of Australia (RBA), and the Australian Securities and Investments Commission (ASIC).

APRA places a strong emphasis on an active program of prudential supervision. APRA's supervisory approach is forward-looking, primarily risk-based, consultative, consistent and in line with international best practice. APRA's approach is based on the fundamental premise that the primary responsibility for financial soundness and prudent risk management within an APRA-regulated institution rests with its board of directors and senior management. APRA's role is to promote prudent behaviour by institutions through a robust framework of legislation, prudential standards and prudential guidance, which aims to ensure that risk-taking is conducted within reasonable bounds and that risks are clearly identified and well-managed.

Consistent with the Government's expectations, APRA does not pursue a zero-failure objective. APRA cannot eliminate the risk that any institution might fail and it recognises that attempting to do so would impose an unnecessary burden on institutions and the financial system. APRA seeks to maintain a low incidence of failure of APRA-regulated institutions whilst not unduly hindering efficiency, competition or otherwise impeding the competitive neutrality or contestability of the financial system. APRA's aim is to identify likely failure of an APRA-regulated institution early enough so that corrective action can be promptly initiated or an orderly exit achieved.

The structure of the Australian financial system continues to evolve and risks to APRA, the institutions and industries it regulates or financial system stability can emerge

quickly. Each year, in setting its strategic priorities, APRA takes into consideration changes in its operating environment and the Government's policy priorities to ensure it continues to effectively deliver on its statutory objectives and APRA's Statement of Intent in response to the Australian Government's Statement of Expectations for APRA.

APRA's strategic priorities are outlined in its rolling four-year Corporate Plan published annually. APRA's 2020-2024 Corporate Plan includes four strategic focus areas to strengthen outcomes for the Australian community: to maintain financial system resilience; improve outcomes for superannuation members; transform governance, culture, remuneration and accountability across all regulated institutions; and improve cyber resilience across the financial system. The plan also includes areas where APRA intends to improve its internal capabilities to deliver on those outcomes.

In 2020 APRA reprioritised its efforts to respond with urgency to COVID-19 and its economic and financial impacts through the significant changes in the external environment. This included APRA focusing on protecting the financial safety and soundness of regulated entities; fostering the operational resilience of regulated entities during a period of significant disruption; and enhancing contingency plans for adverse events.

APRA continues to monitor the impact of COVID-19 and intends to adjust its priorities accordingly including winding down some specific COVID-19 response activities where improvements are evident and the operating environment stabilises. APRA's strategic priorities will be reviewed as part of settling APRA's 2021-2025 Corporate Plan.

1.2 ENTITY RESOURCE STATEMENT

Table 1.1 shows the total funding from all sources available to the entity for its operations and to deliver programs and services on behalf of the Government.

The table summarises how resources will be applied by outcome (government strategic policy objectives) and by Administered (on behalf of the Government or the public) and Departmental (for the entity's operations) classification.

For more detailed information on special accounts and special appropriations, please refer to *Budget Paper No. 4 – Agency Resourcing*.

Information in this table is presented on a resourcing (that is, appropriations/cash available) basis, whilst the 'Budgeted expenses by Outcome 1' tables in Section 2 and the financial statements in Section 3 are presented on an accrual basis.

Prepared on a Government Finance Statistics (Underlying Cash) basis. Figures displayed as a negative (-) represent a decrease in funds and a positive (+) represent an increase in funds.

Section 2: Outcomes and planned performance

Government outcomes are the intended results, impacts or consequences of actions by the Government on the Australian community. Commonwealth programs are the primary vehicle by which government entities achieve the intended results of their outcome statements. Entities are required to identify the programs which contribute to government outcomes over the Budget and forward years.

APRA's outcome is described below together with its related program. The following provides detailed information on expenses for each outcome and program, further broken down by funding source.

Note:

Performance reporting requirements in the Portfolio Budget Statements are part of the enhanced Commonwealth performance framework established by the *Public Governance, Performance and Accountability Act* 2013. It is anticipated that the performance criteria described in Portfolio Budget Statements will be read with broader information provided in an entity's corporate plans and annual performance statements – included in Annual Reports - to provide an entity's planned and actual performance.

The most recent corporate plan for APRA can be found at:

(https://www.apra.gov.au/news-and-publications/apra-2020-2024-corporate-plan)

The most recent annual performance statement can be found at:

(https://www.apra.gov.au/news-and-publications/apra-annual-reports)

2.1 BUDGETED EXPENSES AND PERFORMANCE FOR OUTCOME 1

Outcome 1: Enhanced public confidence in Australia's financial institutions through a framework of prudential regulation which balances financial safety and efficiency, competition, contestability and competitive neutrality and, in balancing these objectives, promotes financial system stability in Australia.

Budgeted expenses for Outcome 1

This table shows how much APRA intends to spend (on an accrual basis) on achieving the outcome, broken down by program, as well as by Administered and Departmental funding sources.

Table 2.1: Budgeted expenses for Outcome 1

⁽a) Private Health Insurance Industry risk equalisation payments.

⁽b) Estimated expenses incurred in relation to receipts retained under section 74 of the PGPA Act 2013.

⁽c) Expenses not requiring appropriation in the Budget year are made up of ANAO audit services that are received free of charge, however the expense is recognised along with an equal and offsetting income stream. Note: Departmental appropriation splits and totals are indicative estimates and may change in the course of the budget year as government priorities change.

Table 2.2: Performance criteria for Outcome 1

Table 2.2 below details the performance criteria for each program associated with Outcome 1. It also summarises how each program is delivered and where 2021-22 Budget measures have created new programs or materially changed existing programs.

Outcome 1 – Enhanced public confidence in Australia's financial institutions through a framework of prudential regulation which balances financial safety and efficiency, competition, contestability and competitive neutrality and, in balancing these objectives, promotes financial system stability in Australia.

Program 1.1 – Australian Prudential Regulation Authority

To enhance public confidence in Australia's financial institutions through establishing and enforcing prudential standards and practice and delivering on APRA's strategic objectives set out in its Corporate Plan.

Delivery

APRA will focus on delivering its strategic objectives laid out in its 2021-2025 Corporate Plan. To serve the interests of the Australian community, APRA will continue to monitor the impact of COVID-19 and adjust its priorities accordingly including starting to wind down some specific COVID-19 response activities where improvements are evident and the operating environment stabilises.

Performance information Performance criteria **Targets** Year 2020-21 and beyond Consistent with the Performing Entity Ratio (PER) — the PER is an indicator of the incidence of Government's expectations, failure amongst regulated institutions. It APRA does not pursue a 'zero failure' target. Rather, APRA's is determined as the number of regulated institutions that met their objective is to maintain a low commitments to beneficiaries in a given incidence of failure of regulated institutions while not year divided by the total number of unnecessarily hindering regulated institutions. The higher the percentage, the lower the incidence of efficiency, competition or otherwise impeding the competitive neutrality or Money Protection Ratio (MPR) — the contestability of the financial MPR is an indicator of the incidence of system. loss in the financial sector. It is determined as the dollar value of liabilities to beneficiaries held in APRA measures the efficiency with which it performs it's Australia in regulated institutions less function in relation to the FCS for any prudential losses to beneficiaries in banks, building societies and a given year, divided by the total dollar value of liabilities to beneficiaries in credit unions by measuring the percentage of FCS payments Australia in regulated institutions. The paid to account holders within higher the percentage, the lower the seven calendar days of an FCS incidence of loss. declaration. Although the Percentage of Financial Claims Scheme circumstance of each declaration (FCS) payments paid to account holders will vary the timeliness of within seven calendar days of an FCS payment, this measure is declaration. consistent with APRA's Number of outstanding claims in the endeavours to pay most account event of an FCS declaration. holders, or enable them to access, their FCS payment within seven days. Given the long tail nature of general insurance claims which do not

easily lend themselves to measures of efficiency, APRA reports on the number of

Section 3: Budgeted financial statements

Section 3 presents budgeted financial statements which provide a comprehensive snapshot of APRA's finances for the 2021-22 budget year, including the impact of budget measures and resourcing on financial statements.

3.1 BUDGETED FINANCIAL STATEMENTS

3.1.1 Differences between entity resourcing and financial statements

There are no material differences between APRA's resourcing and its financial statements.

3.1.2 Explanatory notes and analysis of budgeted financial statements

The departmental comprehensive income statement (Table 3.1) indicates an increase in revenue from Government for 2021-22 as a consequence of new budget measures being appropriated in 2020-21 but to be collected from industry in 2021-22.

Employee benefits of \$160.3 million support an average staffing level (ASL) of 829 in 2021-22. The estimated staffing will enable APRA to supervise regulated institutions, evolve APRA's prudential and supervisory frameworks and practices to respond to key risks, continue to deliver on its longer-term strategic objectives and to serve the interests of the Australian community.

Supplier costs in 2021-22 of \$44.3 million reflect office leasing costs, IT support and maintenance, travel, training and other non-people related expenditures.

Depreciation and Amortisation of \$20.5 million reflects the amortisation of APRA's fixed assets over their useful life.

The budgeted departmental balance sheet (Table 3.2) shows that APRA will maintain sufficient financial assets to meet all known employee and supplier commitments as and when they fall due.

The budgeted departmental statement of cash flows (Table 3.4) reflects the source and application of appropriations and other revenue, as detailed in Table 3.1.

The schedule of budgeted income and expenses administered on behalf of Government (Table 3.7) shows the amounts APRA collects in supervisory levies (the levies) from the finance industry on behalf of the Government under the *Financial Institutions Supervisory Levies Collection Act* 1998.

Apart from the amount required to fund APRA, the levies also include amounts to fund the activities of the Australian Taxation Office (ATO) for unclaimed monies, lost member functions and for the administration of claims for early release of superannuation benefits on compassionate grounds; the Gateway Network Governance Body Ltd (GNGB) for governing and maintaining the superannuation transactions

network; the Australian Securities and Investments Commission (ASIC) to manage superannuation complaints and the Australian Competition and Consumer Commission (ACCC) to enhance competition in the financial system.

In addition, the receipts and distributions relating to the administration of the Private Health Insurance industry risk equalisation processes under the *Private Health Insurance* (*Risk Equalisation Levy*) *Act* 2003 are included.

The schedule of budgeted assets and liabilities administered on behalf of Government (Table 3.8) reflects residual Financial Assistance Levy funds, the Financial Claims Scheme special account and a \$2.0 million Lloyds security deposit as required by section 92Q of the *Insurance Act* 1973.

The schedule of budgeted administered cash flows (Table 3.9), indicates that cash collected is swept daily from APRA's account to the Official Public Account (OPA), from which APRA, in turn, draws down the amounts appropriated to it by the Parliament (as per Table 3.1), or returns it to the Private Health Insurance industry as quarterly risk equalisation payments. The residual is retained in the OPA to meet the Treasurer's Determinations for the ATO, GNGB, ASIC and the ACCC.

AUSTRALIAN SECURITIES AND INVESTMENTS COMMISSION

Section 1: Entity overview and resources

1.1 STRATEGIC DIRECTION STATEMENT

The Australian Securities and Investments Commission (ASIC) is an independent government body established under the *Australian Securities and Investments Commission Act* 2001.

ASIC's objectives, as set out in the *Australian Securities and Investments Commission Act* 2001, are to:

- maintain, facilitate and improve the performance of the financial system and the entities within that system in the interests of commercial certainty, reducing business costs, and the efficiency and development of the economy;
- promote the confident and informed participation of investors and consumers in the financial system;
- administer the laws that confer functions and powers on it effectively and with a minimum of procedural requirements;
- receive, process and store, efficiently and quickly, the information given to ASIC under the laws that confer functions and powers on it;
- ensure that information is available as soon as practicable for access by the public; and
- take whatever action it can take, and is necessary, to enforce and give effect to the laws of the Commonwealth that confer functions and powers on it.

ASIC is Australia's integrated corporate, markets, financial services and consumer credit regulator.

As the financial services and consumer credit regulator, ASIC administers the Australian financial services and credit licensing regime and monitors financial services and credit businesses to ensure that they operate efficiently, honestly and fairly. These businesses typically deal in superannuation, managed funds, deposit and payment products, personal lending, insurance, shares and company securities, and derivatives.

As the markets regulator, ASIC assesses how effective operators of financial markets are at ensuring their markets operate in a fair, orderly and transparent way. ASIC also

Australian Securities and Investments Commission Budget Statements

exercises delegated authority from the Minister in authorising new markets and approving important changes to market structure. It has responsibility for the supervision of trading on Australia's domestic licensed equity, derivatives markets.

As the corporate regulator, ASIC ensures that companies, schemes and related entities meet their conduct and fundraising disclosure obligations under the *Corporations Act* 2001 (Corporations Act). ASIC ensures that company officers comply with their responsibilities. It also takes disciplinary action against company auditors and liquidators. ASIC monitors public companies' financial reporting and disclosure and fundraising activities.

ASIC helps Australians to be in control of their financial lives. Our work aims to support people to make informed financial decisions, manage their money day-to-day, and plan for the future.

1.2 ENTITY RESOURCE STATEMENT

Table 1.1 shows the total funding from all sources available to the entity for its operations and to deliver programs and services on behalf of the Government.

The table summarises how resources will be applied by outcome (government strategic policy objectives) and by administered (on behalf of the Government or the public) and departmental (for the entity's operations) classification.

For more detailed information on special accounts and special appropriations, please refer to *Budget Paper No. 4 – Agency Resourcing*.

Information in this table is presented on a resourcing (that is, appropriations/cash available) basis, whilst the 'Budgeted expenses by Outcome 1' tables in Section 2 and the financial statements in Section 3 are presented on an accrual basis.

Table 1.1: Australian Securities and Investments Commission resource statement

| Total administered resourcing | 121,293 | 128,497 |
| Total resourcing for ASIC | 772,202 | 716,741 |
| | 2020-21 | 2021-22 |
| Average staffing level (number) | | |
| Average staffing level (number) | 2,096 | 1,878 |

All figures shown above are GST exclusive - these may not match figures in the cash flow statement. Prepared on a resourcing (that is, appropriations available) basis.

- (a) Appropriation Bill (No. 1) 2021-22.
- (b) Excludes departmental capital budget (DCB).
- (c) Estimated External Revenue receipts under section 74 of the PGPA Act.
- (d) Departmental capital budgets are not separately identified in Appropriation Bill (No.1) and form part of ordinary annual services items. Please refer to Table 3.5 for further details. For accounting purposes, this amount has been designated as a 'contribution by owner'.
- (e) Appropriation Bill (No. 2) 2021-22.
- (f) Excludes trust moneys held in Services for Other Entities and Trust Moneys (SOETM) and other special accounts. For further information on special accounts, please refer to Budget Paper No. 4 - Agency Resourcing. Please also see Table 2.1 for further information on outcome and program expenses broken down by various funding sources, e.g. annual appropriations, special appropriations and special accounts.
- (g) Amounts credited to the special account(s) from ASIC's annual and special appropriations.

1.3 BUDGET MEASURES

ASIC has no new budget measures.

Section 2: Outcomes and planned performance

Government outcomes are the intended results, impacts or consequences of actions by the Government on the Australian community. Commonwealth programs are the primary vehicle by which government entities achieve the intended results of their outcome statements. Entities are required to identify the programs which contribute to government outcomes over the Budget and forward years.

Each outcome is described below together with its related programs. The following provides detailed information on expenses for each outcome and program, further broken down by funding source.

Note:

Performance reporting requirements in the Portfolio Budget Statements are part of the enhanced Commonwealth performance framework established by the *Public Governance, Performance and Accountability Act* 2013. It is anticipated that the performance criteria described in Portfolio Budget Statements will be read with broader information provided in an entity's corporate plans and annual performance statements – included in Annual Reports - to provide an entity's complete performance story.

The most recent corporate plan for ASIC can be found at: (https://asic.gov.au/about-asic/what-we-do/our-role/asics-corporate-plan/)

The most recent annual performance statement can be found in the Annual Reports at: (http://asic.gov.au/about-asic/corporate-publications/asic-annual-reports/)

2.1 BUDGETED EXPENSES AND PERFORMANCE FOR OUTCOME 1

Outcome 1: Improved confidence in Australia's financial markets through promoting informed investors and financial consumers, facilitating fair and efficient markets and delivering efficient registry systems.

Budgeted expenses for Outcome 1

This table shows how much the entity intends to spend (on an accrual basis) on achieving the outcome, broken down by program, as well as by Administered and Departmental funding sources.

Table 2.1: Budgeted expenses for Outcome 1

Note: Departmental appropriation splits and totals are indicative estimates and may change in the course of the budget year as government priorities change.

⁽a) Expenses not requiring appropriation in the Budget year are doubtful debts.
(b) Estimated expenses incurred in relation to receipts retained under section 74 of the PGPA Act 2013.
(c) Expenses not requiring appropriation in the Budget year are made up of depreciation expenses and amortisation expenses.

Table 2.2: Performance criteria for Outcome 1

Table 2.2 below details the performance criteria for each program associated with Outcome 1. It also summarises how each program is delivered and where 2021-22 Budget measures have created new programs or materially changed existing programs.

Outcome 1 - Improved confidence in Australia's financial markets through promoting informed investors and financial consumers, facilitating fair and efficient markets and delivering efficient registry systems.

Program 1.1 – Australian Securities and Investments Commission

Program 1.1 contributes to Outcome 1 by strategically identifying and responding to conduct which presents the greatest risk of harm. This includes:

- detecting misconduct through risk-based surveillance, breach reports, reports from the whistleblowers and the public, monitoring trends and emerging risks, data gathering and analysis;
- · understanding and analysing the intelligence we receive to assess harms early and respond quickly; and
- responding to misconduct or the risk of misconduct through education, disrupting harmful behaviour, enforcement, engaging with industry and stakeholders, and providing guidance and policy advice.

This program also seeks to improve ASIC's registry services and reduce costs for businesses, consumers and the public.

| Delivery | ASIC will deliver this program through strategic use of a range of regulatory tools most appropriate to disrupt harm and poor behaviour in the financial system. |
|----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| | |

| Year | Performance criteria | Targets |
|---------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 2020-21 | Change behaviours to drive good consumer and investor outcomes • Financial firms and individuals providing financial services act professionally and treat their clients fairly • Entities improve their business practices in response to identified areas of improvement • Fair and efficient processes are in place for the resolution of disputes • Financial markets are fair, strong and efficient • Our published reports and industry messages on surveillance and enforcement outcomes provide transparency to stakeholders about good and poor practices and articulate our standards and expectations, including naming entities where appropriate • Consistent with our strategic priorities, our regulatory actions address key drivers of harm to consumers and markets. Where we exercise our product intervention power, we see a reduction in consumer detriment as a result | On track to meet the performance criteria for 2020-21. Evidenced by qualitative and quantitative measures, including: Change behaviours to drive good consumer and investor outcomes • Stakeholder feedback, measured through external committees and panels such as the ASIC Consultative Panel and Consumer Advisory Panel • Case studies of key matters where entities have improved their business practices • External data (e.g. reports and data published by AFCA) • Measures of the cleanliness of the Australian listed equity market • Operational data (e.g. number of meetings and other engagement with stakeholders, regulatory guidance and industry reports published) • Case studies and other measures of key matters where we have used our regulatory tools to change behaviour in the financial system • Where we exercise our product intervention power, we will evaluate the resulting outcome after 18 months • Project-specific measures resulting from the outputs of our regulatory actions will include published reports |

| Year | Performance criteria | Targets |

Section 3: Budgeted financial statements

Section 3 presents budgeted financial statements which provide a comprehensive snapshot of entity finances for the 2021-22 budget year, including the impact of budget measures and resourcing on financial statements.

3.1 BUDGETED FINANCIAL STATEMENTS

3.1.1 Differences between entity resourcing and financial statements

Section 3 presents explanatory tables and budgeted financial statements which provide a comprehensive snapshot of entity finances for the 2021-22 budget year. It explains how budget plans are incorporated into the financial statements and provides further details of the reconciliation between appropriations and programme expenses, movements in administered funds, special accounts and government indigenous expenditure.

3.1.2 Explanatory notes and analysis of budgeted financial statements Machinery of Government Changes

As part of the Government's deregulation agenda, the Modernisation of Business Registers (MBR) program will establish a new registry service for Government called Australian Business Registry Services (ABRS) that will unify 31 registers administered by ASIC and the Australian Business Register (administered by the ATO) on a contemporary, digital registry system.

The Commissioner of Taxation was appointed as the Commonwealth Registrar of the ABRS and the ASIC Registry functions have been transferred to the ATO. The budgeted financial statements presented reflect resultant funding, expenses, assets, liabilities and average staffing levels associated with the transfer.

Budgeted departmental income statement

ASIC is budgeting for a \$9.4 million operating surplus for 2021-22, after adding back non-appropriated depreciation and amortisation expenses, depreciation of right of use assets and principal repayments of lease liabilities. The operating surplus is a combination of other revenue received from the Department of Home Affairs (DHA) and the Australian Taxation Office (ATO) for the purpose of funding capital expenditure, less additional spending of the Enforcement Special Account reserves from prior years. The funding from DHA and ATO continues in the forward years.

Budgeted departmental balance sheet

This statement shows the financial position of ASIC. It helps decision-makers to track the management of ASIC's assets and liabilities.

ASIC's budgeted equity (or net asset position) for 2021-22 is \$134 million.

The 2021-22 equity position reflects the cumulative effect of capital injections of \$1.7 million received during 2021-22.

Budgeted departmental statement of cash flows

The budgeted statement of cash flows provides important information on the extent and nature of cash flows by categorising them into expected cash flows from operating activities, investing activities and financing activities.

Departmental statement of changes in equity — summary of movement

This statement shows the changes in the equity position of ASIC. It helps decision-makers to track the management of ASIC's equity.

Departmental Capital Budget statement

This statement shows details of capital appropriations received by ASIC. It helps decision-makers to track the acquisition of new non-financial assets.

Statement of asset movements — departmental

This statement shows details of gross asset movements during the year. It helps decision-makers to analyse movements of non-financial assets.

Schedule of administered activity

Schedule of budgeted income and expenses administered on behalf of government

The schedule of budgeted income and expenses administered on behalf of government shows the revenue and expenses associated with the collection of revenue under the *Corporations Act 2001* and ASIC's responsibilities in administering unclaimed monies under the *Banking Act 1959*, the *Life Insurance Act 1995* and s77 of the *Public Governance, Performance and Accountability Act 2013* (PGPA Act).

In addition, ASIC collects taxation and non-taxation revenue under the ASIC Supervisory Cost Recovery Levy Act 2017 and the ASIC Supervisory Cost Recovery Levy Regulations 2017.

Other non-taxation revenue represents the amount of fees and charges budgeted to be levied under the *Corporations Act* 2001 and estimated receipts of unclaimed monies under the *Banking Act* 1959, the *Life Insurance Act* 1995 and the *Corporations Act* 2001.

Expenses represent budgeted payments of unclaimed monies, refund of overpaid fees and charges levied under the *Corporations Act 2001*, bad debt expense, administered advertising expenses and grant payments to registered insolvency practitioners to investigate breaches of directors' duties and fraudulent conduct.

Schedule of budgeted assets and liabilities administered on behalf of government

The amount shown for receivables in 2021-22 and in the forward estimates is the estimated amount of taxation revenue fees and charges remaining unpaid at 30 June.

The amounts shown in other payables for 2021-22 and the forward estimates represent the estimated amount of refunds relating to the overpayments of annual review and other fees under the *Corporations Act 2001*, estimated claims payable under the *Banking Act 1959* and the *Life Insurance Act 1995* and companies unclaimed monies under s77 of the PGPA Act.

Schedule of budgeted administered cash flows

Budgeted administered cash flows provide important information on the extent and nature of cash flows by categorising them into expected cash flows from operating activities, investing activities and financing activities.

⁽a) From 2010-11, the Government introduced net cash appropriation arrangements where Bill 1 revenue appropriations for the depreciation/amortisation expenses of non-corporate Commonwealth entities (and select corporate Commonwealth entities) were replaced with a separate capital budget (the Departmental Capital Budget, or DCB) provided through Bill 1 equity appropriations. For information regarding DCBs, please refer to Table 3.5 Departmental Capital Budget Statement.

⁽b) Applies to leases under AASB 16 Leases.

AUSTRALIAN TAXATION OFFICE

Section 1: Entity overview and resources

1.1 STRATEGIC DIRECTION STATEMENT

The role of the Australian Taxation Office (ATO) is to effectively manage and shape the tax and superannuation systems that support and fund services for Australians. Our vision is to be a leading tax and superannuation administration, known for our contemporary service, expertise and integrity.

Our strategic direction centres on fostering community participation in the tax and superannuation systems. We do this by ensuring integrity, building confidence in the administration of these systems, and by being streamlined, integrated and data driven.

We will continue to work with the community and other government agencies to support our country's economic recovery by delivering government measures, improving small business tax performance and harnessing data and technology to make interactions with the ATO and government more seamless. We will maintain a focus on cyber security and strive to become a more purposeful organisation to maximise value for the ATO and the community.

Our progress is monitored through the perspectives of our strategic objectives, focusing on client experience and participation in the tax and superannuation systems as our ultimate measures of success.

1.2 ENTITY RESOURCE STATEMENT

Table 1.1 shows the total funding from all sources available to the entity for its operations and to deliver programs and services on behalf of the Government.

The table summarises how resources will be applied by outcome (government strategic policy objectives) and by administered (on behalf of the Government or the public) and departmental (for the entity's operations) classification.

For more detailed information on special accounts and special appropriations, please refer to *Budget Paper No. 4 – Agency Resourcing*.

Information in this table is presented on a resourcing (that is, appropriations/cash available) basis, whilst the 'Budgeted expenses by Outcome 1 tables in Section 2 and the financial statements in Section 3 are presented on an accrual basis.

Prepared on a resourcing (that is, appropriations available) basis

All figures shown above are GST exclusive - these may not match figures in the cash flow statement.

- (a) Appropriation Bill (No. 1) 2021-22.
- (b) Excludes \$4.9m subject to administrative quarantine by Finance or withheld under section 51 of the *Public Governance, Performance and Accountability Act 2013* (PGPA Act).
- (c) Excludes departmental capital budget (DCB).
- (d) Estimated External Revenue receipts under section 74 of the PGPA Act.
- (e) Departmental capital budgets are not separately identified in Appropriation Bill (No.1) and form part of ordinary annual services items. Please refer to Table 3.5 for further details. For accounting purposes, this amount has been designated as a 'contribution by owner'.
- (f) Appropriation Bill (No. 2) 2021-22.
- (g) Excludes trust moneys held in Services for Other Entities and Trust Moneys (SOETM) and other special accounts. For further information on special accounts, please refer to Budget Paper No. 4 - Agency Resourcing. Please also see Table 2.1 for further information on outcome and program expenses broken down by various funding sources, e.g. annual appropriations, special appropriations and special accounts.
- (h) Amounts credited to the special account(s) from ATO's annual and special appropriations.
- (i) These figures relate to administered expenses such as the Economic response to the coronavirus payments, fuel tax credit, research and development tax incentives, and Australian screen and digital game production incentive. Estimated tax refunds for 2020-21 are \$120.4 billion including \$20 million made on behalf of the ATO by the Department of Home Affairs. Estimated tax refund items for 2021-22 are \$129.3 billion including \$120 million made on behalf of the ATO by the Department of Home Affairs.

1.3 BUDGET MEASURES

Budget measures in Part 1 relating to the ATO are detailed in Budget Paper No. 2 and are summarised below.

Table 1.2: Australian Taxation Office 2021-22 Budget measures Measures announced since the 2020-21 Mid-Year Economic and Fiscal Outlook (MYEFO)

| | Program | 2020-21 \$'000 | 2021-22 \$'000 | 2022-23 \$'000 | 2023-24 \$'000 | 2024-25 \$'000 |

Figures displayed as a negative (-) represent a decrease in funds and a positive (+) represent an increase in

⁽a) This measure includes reduction of capital funding of \$1.9 million for the ATO in 2020-21 and 2021-22. (b) This measure includes capital funding for the ATO of \$10.3 million over the Budget and forward years.

⁽c) This measure includes capital funding for the ATO of \$1.0 million in 2022-23.

⁽d) This measure includes capital funding for the ATO of \$1.9 million in 2022-23. (e) This measure includes capital funding for the ATO of \$1.8 million in 2022-23. (f) This measure includes capital funding for the ATO of \$1.7 million in 2021-22.

Section 2: Outcomes and planned performance

Government outcomes are the intended results, impacts or consequences of actions by the Government on the Australian community. Commonwealth programs are the primary vehicle by which government entities achieve the intended results of their outcome statements. Entities are required to identify the programs which contribute to government outcomes over the Budget and forward years.

The ATO's outcome is described below together with its related programs. The following provides detailed information on expenses for each outcome and program, further broken down by funding source.

Note:

Performance reporting requirements in the Portfolio Budget Statements are part of the Commonwealth performance framework established by the *Public Governance*, *Performance and Accountability Act 2013*. It is anticipated that the performance criteria described in Portfolio Budget Statements will be read with broader information provided in an entity's corporate plans and annual performance statements – included in Annual Reports - to provide a complete picture of an entity's planned and actual performance.

The most recent corporate plan for the Australian Taxation Office can be found at: https://www.ato.gov.au/About-ATO/About/corporate-plan/)

The most recent annual performance statement can be found at: (https://www.ato.gov.au/about-ato/commitments-and-reporting/annual-report-and-other-reporting-to-parliament/annual-report/)

2.1 BUDGETED EXPENSES AND PERFORMANCE FOR OUTCOME 1

Outcome 1:

Confidence in the administration of aspects of Australia's taxation and superannuation systems, including through helping people understand their rights and obligations, improving ease of compliance and access to benefits, and managing non-compliance with the law; and in delivering effective and efficient business registry services.

Linked programs

Australian Criminal Intelligence Commission

Program 1.1 - Australian Criminal Intelligence Commission

Contribution to Outcome 1 made by linked programs

The Australian Criminal Intelligence Commission (ACIC) works collaboratively with the ATO to protect the financial system from criminal abuse, including through joint operations and task forces and the sharing of data and intelligence. The ACIC's special operations and investigations focus on the highest risk TSOC activities impacting Australia, including money laundering and serious financial crime.

Australian Federal Police

Program 1.1 - Federal Policing - Investigations

Contribution to Outcome 1 made by linked programs

The Australian Federal Police (AFP) relies on ATO intelligence and expertise for investigations, policy and taskforces combating serious financial crimes and its harm.

Australian Financial Security Authority

Program 1.1 - Personal Insolvency and Trustee Services

Contribution to Outcome 1 made by linked programs

Australian Financial Security Authority exchanges information with the ATO and administers the bankruptcy notices and payment arrangements to support this service.

Australian Securities and Investments Commission

Program 1.1 – Australian Securities and Investment Commission

Contribution to Outcome 1 made by linked programs

Australian Securities and Investments Commission (ASIC) exchanges information with the ATO in relation to self-managed superannuation fund auditor registration, and financial crime intelligence. ASIC contributes to the management and governance of the Standard Business Reporting program.

Australian Transaction Reports and Analysis Centre

Program 1.1 – AUSTRAC

Contribution to Outcome 1 made by linked programs

Australian Transaction Reports and Analysis Centre (AUSTRAC) exchanges information with the ATO and delivers financial crime intelligence that assist key stakeholder agencies to make operational and intelligence decisions.

Department of Agriculture, Water and the Environment

Program 1.6 — Management of Hazardous Wastes, Substances and Pollutants

Contribution to Outcome 1 made by linked programs

The Department of Agriculture, Water and the Environment (DAWE) works with the Australian Taxation Office to administer financial aspects of the Product Stewardship for Oil program, pays the benefits on recycled motor oil and collects the levy on new oil entering the market from domestic sources.

Department of Education, Skills and Employment

Program 2.4 — Higher Education Loan Program

Program 3.1 – Building Skills and Capability

Program 3.2 – VET Student Loans

Contribution to Outcome 1 made by linked programs

The Department of Education, Skills and Employment exchanges information with the ATO in relation to the Higher Education Loans Program and Trade Support Loans.

Department of Health

Program 2.1 — Medical Benefits

Program 2.3 — Pharmaceutical Benefits

Program 2.4 — Private Health Insurance

Contribution to Outcome 1 made by linked programs

The Department of Health (DoH) contributes to the administrative arrangements for the Government's Private Health Insurance Rebate. DoH also works with the ATO to deliver the Multi-agency Data Integration Project.

Department of Home Affairs

Program 3.3 – Border-Revenue Collection

Contribution to Outcome 1 made by linked programs

Department of Home Affairs exchanges information with the ATO, administers the Tourist Refund Scheme and collects border revenue for: Excise Equivalent Goods, Goods and Services Tax, Luxury Car Tax and Wine Equalisation Tax on behalf of the ATO.

Department of Industry, Science, Energy and Resources

Program 1.1 — Investing in science, technology and commercialisation

Program 1.2 – Growing innovative and competitive businesses, industries and regions

Contribution to Outcome 1 made by linked programs

Department of Industry, Science, Energy and Resources work together with the ATO to enable the growth and productivity for globally competitive industries through supporting science and commercialisation, growing business investment and improving business capability and streamlining regulation.

Department of the Treasury

Program 1.1 — Department of the Treasury

Contribution to Outcome 1 made by linked programs

The Department of the Treasury (Treasury) contributes to the administration of the National Tax Equivalent Regime. Treasury co-regulates the *Foreign Acquisitions and Takeovers Act 1975* with the ATO, which also maintains current registers of foreign ownership.

Services Australia

Program 1.1 – Services to the Community – Social Security and Welfare

Program 1.2 — Services to the Community — Health

Program 1.3 — Child Support

Contribution to Outcome 1 made by linked programs

Services Australia supports individuals, families and communities to achieve greater self-sufficiency by providing administration and payments services on behalf of the ATO.

Budgeted expenses for Outcome 1

This table shows how much the ATO intends to spend (on an accrual basis) on achieving the outcome, broken down by program, as well as by Administered and Departmental funding sources.

Program 1.2 – Tax Practitioners Board (TPB)

The TPB has the general administration of the *Tax Agent Services Act 2009* (TASA) and is responsible for the registration and regulation of tax practitioners. These include tax agents, business activity statement (BAS) agents and tax (financial) advisers.

The TPB's establishment, functions and powers are defined in the TASA. The TPB's role is to ensure that tax practitioner services are provided to the public in accordance with appropriate standards of professional and ethical conduct.

| Delivery | The TPB has overarching strategies to deliver its program: Client Services will provide confidence to consumers of tax practitioner services by ensuring that registered tax practitioners meet and maintain the necessary competence and personal attributes for the tax practitioner profession. |
|----------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| | Technology will support business outcomes with digital and IT solutions for clients and staff, including improved data analytics. |
| | Law and Compliance unit will implement data-driven compliance activities that focus on the highest risk and unregistered tax practitioners. |
| | Law and Policy will manage our litigation work program, develop policy and guidance, and work closely with Treasury to develop and implement the legislative changes that are expected to arise from the TASA review. |
| | Corporate Services will implement and provide a complete and uniform governance framework that includes budgeting, people management, planning, risk assessment, communication, change management, and corporate strategy. |
| Purpose | The TPB seeks to protect consumers of taxation services by regulating tax practitioners in a fair, consistent and practical way, thereby strengthening the integrity of the tax practitioner profession by: |
| | Efficient registration of tax practitioners |
| | Effective compliance through deterrence and education |
| | 3. Innovation and preparation for the future |

Program 1.3 — Australian Business Register

The Commissioner of Taxation is the Registrar of the Australian Business Register (ABR), and has a number of separate and distinct registry functions and powers under the *A New Tax System (Australian Business Number) Act 1999*, the *Commonwealth Registers Act 2020* and the *Treasury Laws Amendment (Registries Modernisation and Other Measures) Act 2020*.

The ABR program contributes to micro-economic reform initiatives as the custodian of trusted business information and provider of associated services used by businesses, government and communities to unlock economic and social value for Australia. Registry streamlining processes have commenced, with registry staff from ASIC moving to the ATO in April 2021.

The ABR program encompasses:

- the register of Australian Business Numbers (ABNs), which is a trusted national business dataset and business registry service;
- Standard Business Reporting, which defines a common language for business information and standards for digital information exchange and sharing with businesses and government; and
- the introduction of Director Identification Numbers as part of the Modernising Business Registers
 Program, which will provide traceability of a director's relationships over time, and across
 companies, to assist regulators and external administrators to investigate a director's involvement in
 illegal phoenix activity.

| Delivery | The ABR program works with Government, Digital Service Providers, the business community and other key stakeholders to support a fairer business environment that fosters greater economic growth and job creation. This will be achieved through increase use of a trusted national business dataset and use of consistent information exchange standards | |
|----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|
| Purpose | The ABR program contributes to improving national productivity by: delivering effective and efficient business registry services that provide trusted and accessible national business data | |
| | encourage trust and confidence in the broader use of national business data, by the community, businesses and government to promote the development of new and better services for businesses, using the ABN as a key identifier | |
| | reducing the administrative cost to businesses in their dealings with other businesses and government. | |

| Performance information 2020-21 and beyond | |
|----------------------------------------------------------------------------------------------|-------------------------------------------------|
| Performance criteria | Targets |
| Increased use of the ABR as the national business dataset | Result (2019-20): |
| | 405 agencies using ABR Explorer (10% increase) |
| | 27 agencies using ABR Connect (58% increase) |
| | 1,519 million ABN Lookup searches (5% increase) |
| | |
| | Target 2020-21: |
| | ABR Explorer — 400 |
| | ABR Connect — 16 |
| | ABN Lookup — 1.5 billion |
| | Target 2021-22: |
| | ABR Explorer — 420 |
| | ABR Connect — 18 |
| | ABN Lookup — 1.8 billion |
| | Target 2022-23 and beyond: As per 2021-22 |
| Reduction in the administrative cost to businesses and government in dealing with each other | Result (2019-20): \$1.95 billion |
| | Target 2020-21: |
| | Total — \$1.98 billion |
| | Target 2021-22: |
| | Total — \$2.00 billion |
| | Target 2022-23 and beyond: As per 2021-22 |
| | |

Program 1.4 — Australian Charities and Not-for-profits Commission

The Australian Charities and Not-for-profits Commission (ACNC) is the independent national regulator of charities. The ACNC Commissioner (the Commissioner) has a number of statutory functions and regulatory powers set out in the Australian Charities and Not-for-profits Commission Act 2012 (Cth) (ACNC Act), the Charities Act 2013 (Cth) (the Charities Act) and accompanying regulations.

Delivery The ACNC effectively manage a regulatory system for the Australian charitable sector by: registering eligible not-for-profit entities as charities in accordance with the ACNC Act and the Charities Act. providing information, guidance and advice about good governance practices and to assist charities to meet their obligations to maintain charity registration. assess concerns raised about registered charities, investigate where appropriate and initiate compliance action against charities that contravene the ACNC Act, the Charities Act, Governance Standards or External Conduct Standards. working with other Government agencies (Commonwealth, state and territory) to reduce unnecessary regulation on charities and align regulatory obligations through various mechanisms, including the ACNC's Charity Passport. The ACNC has the following objects (included in the ACNC Act) which contribute **Purposes** to a charity sector that inspires confidence and respect. The objects are: to maintain, protect and enhance public trust and confidence in the Australian not-for-profit sector; to support and sustain a robust, vibrant, independent and innovative Australian not-for-profit sector;

Australian not-for-profit sector.

| Program 1.5 – 1.19 Administered programs The ATO administers a range of payments and transfers on behalf of the Australian Government, including incentives and rebates delivered through the taxation and superannuation systems. | |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Administered programs may be administered by the ATO with policy and delivery assistance from other Commonwealth agencies, or directly through the taxation and superannuation systems. | |
| Purpose | The ATO contributes to the economic and social wellbeing of Australians through governing a range of programs that result in transfers and benefits back to the community. |

Program 1.5 — Australian Screen and Digital Game Production Incentive

The Australian Screen Production Incentive comprises three refundable film tax offsets: the Producer Offset, the Location Offset, and the Post, Digital and Visual Effects (PDV) Offset. These offsets are designed to ensure Australia remains competitive in attracting high budget film and television productions and are aimed at providing increased opportunities for Australian casts, crew, post-production companies and other services to participate in these productions.

The Digital Game Offset is a new tax incentive, commencing from 1 July 2022 that would provide a refundable tax offset for qualifying Australian games expenditure to eligible businesses.

The Ministry for the Arts, along with Screen Australia and the ATO, have co-administration responsibilities for the program. Screen Australia has responsibility for the Producer Offset while the Ministry for the Arts has responsibility for the Location, PDV and Digital Game Offset. The ATO conducts verification and reconciliation with the certificates provided by the government agencies before the offset is paid to the taxpayer.

Performance information 2020-21 and beyond Performance criteria Targets Value of tax offsets processed Result (2019-20): \$349.4 million Target 2020-21: The ATO aims to administer the program in accordance with the law Target 2021-22 and beyond: As per 2020-21

Program 1.6 — Junior Minerals Exploration Incentive

The Junior Minerals Exploration Incentive allows small mineral exploration companies with no taxable income to provide exploration credits, paid as a refundable tax offset, to their Australian resident shareholders for greenfield mineral exploration.

Performance information 2020-21 and beyond

| Performance criteria | Targets |

| | Target 2021-22 and beyond: As per 2020-21 |

Program 1.7— Fuel Tax Credits Scheme

The objective of the Fuel Tax Credits Scheme is to remove or reduce the incidence of fuel tax levied on taxable fuels by providing a credit for fuel used for:

- business activities in machinery, plant and equipment and vehicles;
- the domestic generation of electricity by taxpayers not in business.

| | Target 2020-21: The ATO aims to administer the scheme in accordance with the law |
| | Target 2021-22 and beyond: As per 2020-21 |

Program 1.8 — National Rental Affordability Scheme

The Department of Social Services has policy responsibility for the National Rental Affordability Scheme. The objectives are to:

- increase the supply of new affordable rental housing;
- reduce rental costs for low and moderate income households National Rental Affordability
 Scheme homes rented to eligible tenants at a rate that is at least 20 per cent below the market
 value rent; and
- encourage large-scale investment and innovative delivery of affordable housing through the provision of the following incentives:
 - an Australian Government incentive per dwelling per year as a tax offset or direct payment; and
 - a State or Territory Government incentive as a direct payment per dwelling per year or in-kind financial support.

Performance information 2020-21 and beyond Performance criteria Value of tax offsets processed Result (2019-20): \$160.0 million Target 2020-21: The ATO aims to administer the scheme in accordance with the law Target 2021-22 and beyond: As per 2020-21

Program 1.9 — Product Stewardship for Oil

The objective of the Product Stewardship for Oil Program is to:

- · provide incentives to increase used oil recycling; and
- encourage the environmentally sustainable management and re-refining of used oil and its re-use.

These objectives are met through the payment of a levy by producers and importers of petroleum based oils and their synthetic equivalents. Benefits are paid to oil recyclers as an incentive to undertake increased recycling of used oil.

The Department of the Environment and Energy has policy responsibility for the program, with the ATO administering the program on its behalf.

| | Target 2021-22 and beyond: As per 2020-21 |

Program 1.10 — Research and Development Tax Incentive

The Research and Development (R&D) Tax Incentive is an ongoing scheme designed to increase the level of research and development being conducted by Australian companies.

The Department of Industry, Innovation and Science has the primary policy responsibility for the program with the aim of increasing both the number of companies investing in innovation and the value of innovation investment over time.

The ATO has an important supporting role in processing claims through the tax system for the R&D offset.

| | Target 2021-22 and beyond: As per 2020-21 |

Program 1.11 — Low Income Superannuation Tax Offset

The Low Income Superannuation Tax Offset (LISTO) is aimed to address some of the inequity in the superannuation system, where low income earners with a marginal rate of tax less than 15 per cent, pay a higher rate of tax on superannuation contributions than if they had received the money as salary and wages.

The LISTO replaces the low income superannuation contribution (LISC) policy from 1 July 2017. LISC will continue to be payable for concessional contributions made up to and including the 2016-17 year, however, determinations will cease at 1 July 2019.

The Treasury has policy responsibility for the program, while the ATO administers the program and provides information and support to individuals and superannuation funds through advice and education services.

| | Target 2020-21: The ATO aims to administer the program in accordance with the law |
| | Target 2021-22 and beyond: As per 2020-21 |

Program 1.12 — Private Health Insurance Rebate

The objective of the Private Health Insurance Rebate is to provide access to a benefit to eligible individuals with private health insurance and to act as an incentive to take up private health insurance.

The Department of Health has policy responsibility for the program, and the administration of the program is split between the ATO and registered health insurers, depending on the claim method.

Performance information 2020-21 and beyond

| Performance criteria | Targets |
|----------------------------|-----------------------------------------------------------------------------------|
| Value of rebates processed | Result (2019-20): \$235.5 million |
| | Target 2020-21: The ATO aims to administer the program in accordance with the law |
| | Target 2021-22 and beyond: As per 2020-21 |

Program 1.13 — Superannuation Co-contribution Scheme

The Superannuation Co-contribution Scheme is to help low-and-middle income earners save for their retirement. Eligible individuals who make personal superannuation contributions to a complying superannuation fund or retirement savings account receive a co-contribution from the Government up to certain limits.

The Treasury has policy responsibility for the program, while the ATO administers the program and provides information and support to individuals and superannuation funds through marketing and education services.

| | Target 2021-22 and beyond: As per 2020-21 |

Program 1.14 — Superannuation Guarantee Scheme

Under the *Superannuation Guarantee (Administration) Act 1992* (SGAA), most employers must pay superannuation contributions into a complying superannuation fund or retirement savings account. Non-compliance with the SGAA by employers means that eligible employees will not receive their entitlements to, and benefits of, superannuation in their retirement.

Program 1.15 — Targeted Assistance Through the Taxation System

Under the Superannuation (Unclaimed Money and Lost Members) Act 1999, superannuation funds must identify certain types of lost and former temporary resident accounts as unclaimed superannuation money and transfer amounts to the ATO every six months.

Since 1 July 2013, any unclaimed superannuation money payments from the ATO to individuals includes interest, at a rate equivalent to the consumer price index, to preserve the value of these accounts. While the Treasury has policy responsibility, the ATO administers the program.

Program 1.16 — Interest on Overpayment and Early Payments of Tax

The objective of the program is to apply credit interest to taxpayers' accounts where they are entitled under

The application of credit interest is non-discretionary where an entitlement exists under the *Taxation* (*Interest on Overpayments and Early Payments*) Act 1983. Administered interest regimes include:

- · interest on overpayments of tax;
- · delayed refund interest; and
- · interest on early payments of tax.

| | Target 2021-22 and beyond: As per 2020-21 |

Program 1.17 — Bad and Doubtful Debts and Remissions

The primary objective of the program is to help ensure that the value of tax receivables reported is a true and fair estimate of what can be collected on behalf of the Australian Government.

The ATO may not be able to collect all tax liabilities due. The ATO estimates the amount it does not expect to recover and, in accordance with Australian Accounting Standards, creates an impairment allowance provision for this amount. This provision is one of the amounts offset against the gross total taxation receivables to determine the net total taxation receivables, which is a true and fair estimate of what can be collected on behalf of the Australian Government.

Performance information 2019-20 and 2020-21

Program 1.18 — Seafarer Tax Offset

The **Seafarer Tax Offset** commenced from 1 July 2012 and is designed to stimulate employment opportunities for Australian seafarers to gain maritime skills. The offset will provide a refundable tax offset for qualifying companies employing eligible seafarers. A Bill to abolish the Seafarer Tax Offset was tabled in Parliament but has now lapsed. There has been no Government announcement on the future of the Seafarer Tax Offset since the lapsing of the Bill.

Program 1.19 — Economic Response to the Coronavirus

The objective of the program is to support taxpayers and businesses through the coronavirus (COVID-19) pandemic. **JobMaker Hiring Credit** is a broad scheme to encourage job creation by employers in the COVID-19 recovery. JobMaker Hiring Credit is aimed at supporting young people (aged 16 to 35 years) into employment. This program also covered the **JobKeeper Payment scheme** and **Boosting cash flow for employers**, both of which ceased in the 2020-21 year.

The Treasury has policy responsibility for the program, while the ATO administers the program.

Section 3: Budgeted financial statements

Section 3 presents budgeted financial statements which provide a comprehensive snapshot of entity finances for the 2021-22 budget year, including the impact of budget measures and resourcing on financial statements.

3.1 BUDGETED FINANCIAL STATEMENTS

3.1.1 Differences between entity resourcing and financial statements

The budgeted financial statements have been prepared on an accrual basis.

3.1.2 Explanatory notes and analysis of budgeted financial statements

The ATO's total operating revenue for 2021-22 is estimated at \$3.8 billion while expenditure is estimated to be \$4.0 billion, inclusive of unfunded depreciation. These budgeted amounts have increased since the 2020-21 Budget mainly due to new Budget measure funding to support Government initiatives.

Departmental balance sheet (Table 3.2)

ATO's net assets as at 30 June 2022 is expected to be \$231.3 million. Net assets have increased by \$3.7 million since 2020-21 Budget mainly due to increases in Trade and other receivables.

Departmental capital budget statement (Table 3.5)

Total capital appropriations in 2021-22 have increased by \$9.4 million since the 2020-21 Budget, as a result of new capital measures.

Total purchase of non-financial assets in 2021-22 have increased by \$11.1 million since the 2020-21 Budget, primarily due to new capital measures.

COMMONWEALTH GRANTS COMMISSION

Section 1: Entity overview and resources

1.1 STRATEGIC DIRECTION STATEMENT

The Commonwealth Grants Commission (the Commission) is a statutory authority operating under the *Commonwealth Grants Commission Act* 1973.

The Commission's main role is to inquire into and report to the Australian Government on the allocation of goods and services tax (GST) revenue among the states and territories. Terms of reference for these inquiries are determined by the Australian Government in consultation with the states and territories.

The Commission or its staff may also be asked to report on the finances of Australia's external territories, local government matters and the financing of services for Indigenous people. Where required, terms of reference for these inquiries are developed by relevant Australian Government entities and the reports are considered by their Ministers.

1.2 ENTITY RESOURCE STATEMENT

Table 1.1 shows the total funding from all sources available to the entity for its operations and to deliver programs and services on behalf of the Government.

The table summarises how resources will be applied by outcome (government strategic policy objectives) and departmental (for the entity's operations) classification.

Information in this table is presented on a resourcing (that is, appropriations/cash available) basis, whilst the 'Budgeted expenses by Outcome 1' tables in Section 2 and the financial statements in Section 3 are presented on an accrual basis.

Table 1.1: Commonwealth Grants Commission resource statement — Budget

estimates for 2021-22 as at Budget May 2021

| estillates for 2021-22 as at budget May 2021 | | |
|---------------------------------------------------------|-----------|----------|
| | 2020-21 | 2021-22 |

| Annual appropriations - ordinary annual services (a) | | |
| Prior year appropriations available | 8,287 | 8,312 |
| Departmental appropriation (b) | 8,482 | 8,216 |
| Departmental capital budget (c) | 1,102 | 1,102 |
| Total departmental annual appropriations | 17,871 | 17,630 |
| Total departmental resourcing | 17,871 | 17,630 |
| Total resourcing for the Commonwealth Grants Commission | 17,871 | 17,630 |
| | | <u> </u> |
| | 2020-21 | 2021-22 |
| Average staffing level (number) | 23 | 34 |

All figures shown above are GST exclusive - these may not match figures in the cash flow statement. Prepared on a resourcing (that is, appropriations available) basis.

(a) Appropriation Bill (No. 1) 2021-22.

(b) Excludes departmental capital budget (DCB).

1.3 **BUDGET MEASURES**

The CGC has no new budget measures.

⁽c) Departmental capital budgets are not separately identified in Appropriation Bill (No.1) and form part of ordinary annual services items. Please refer to Table 3.5 for further details. For accounting purposes, this amount has been designated as a 'contribution by owner'.

Section 2: Outcomes and planned performance

Government outcomes are the intended results, impacts or consequences of actions by the Government on the Australian community. Commonwealth programs are the primary vehicle by which government entities achieve the intended results of their outcome statements. Entities are required to identify the programs which contribute to government outcomes over the Budget and forward years.

The Commonwealth Grants Commission's outcome is described below together with its related programs. The following provides detailed information on expenses for each outcome and program, further broken down by funding source.

Note:

Performance reporting requirements in the Portfolio Budget Statements are part of the Commonwealth performance framework established by the *Public Governance*, *Performance and Accountability Act 2013*. It is anticipated that the performance criteria described in Portfolio Budget Statements will be read with broader information provided in an entity's corporate plans and annual performance statements – included in Annual Reports - to provide a complete picture of an entity's planned and actual performance.

The most recent corporate plan for the Commonwealth Grants Commission can be found at: (www.cgc.gov.au)

The most recent annual performance statement can be found at: (www.cgc.gov.au)

2.1 BUDGETED EXPENSES AND PERFORMANCE FOR OUTCOME 1

Outcome 1: Informed Government decisions on fiscal equalisation between the states and territories through advice and recommendations on the distribution of GST revenue.

Budgeted expenses for Outcome 1

This table shows how much the entity intends to spend (on an accrual basis) on achieving the outcome, broken down by Departmental funding sources.

Table 2.1: Budgeted expenses for Outcome 1

| | 2020-21 | 2021-22 | 2022-23 | 2023-24 | 2024-25 |
|----------------------------------------------------|-----------|---------|----------|----------|----------|
| | Estimated | Budget | Forward | Forward | Forward |
| | actual | | estimate | estimate | estimate |
| | \$'000 | \$'000 | \$'000 | \$'000 | \$'000 |
| Program 1.1: Commonwealth Grants Comm | ission | | | | |
| Departmental expenses | | | | | |
| Departmental appropriation | 8,482 | 8,216 | 7,967 | 7,849 | 7,873 |
| Expenses not requiring appropriation in the Budget | | | | | |
| year (a) | 183 | 380 | 511 | 525 | 545 |
| Departmental total | 8,665 | 8,596 | 8,478 | 8,374 | 8,418 |
| Total expenses for program 1.1 | 8,665 | 8,596 | 8,478 | 8,374 | 8,418 |
| Total expenses for Outcome 1 | 8.665 | 8.596 | 8.478 | 8.374 | 8,418 |

| | 2020-21 | 2021-22 |
|---------------------------------|---------|---------|
| Average staffing level (number) | 23 | 34 |
| | | |

⁽a) Expenses not requiring appropriation in the Budget year are made up of depreciation expenses, amortisation expenses, and audit fees.

Note: Departmental appropriation splits and totals are indicative estimates and may change in the course of the budget year as government priorities change.

Table 2.2: Performance criteria for Outcome 1

Table 2.2 below details the performance criteria for each program associated with Outcome 1. It also summarises how each program is delivered and where 2021-22 Budget measures have created new programs or materially changed existing programs.

| Outcome 1 – Informed Government decisions on fiscal equalisation between the states and territories through advice and recommendations on the distribution of GST revenue. | | | | |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|--|
| Program 1.1 – The Commission makes recommendations on the distribution of the GST pool, which are considered by Government. | | | | |
| Delivery | The Commission will prepare a report, on an annual basis, recommending the distribution of the GST pool to the states and territories. | | | |
| Performance information | | | | |
| Year | Performance criteria | Actual Achievement/Targets | | |
| 2020-21 | Excellent research and analysis Stakeholder engagement Responsiveness to government | Achieved | | |
| 2021-22 and beyond | Excellent research and analysis Stakeholder engagement Responsiveness to government | Recognised analytical work of a technically high quality Consultation in accordance with the agreed engagement plan Timely provision of advice in accordance with terms of reference | | |
| Purpose | The purpose of the Commonwealth Grants Commission (CGC) is to provide advice and recommendations to the Australian Government on the relative fiscal capacities of the states and territories as the basis for distributing GST revenue to achieve fiscal equalisation among the states and territories. | | | |

Section 3: Budgeted financial statements

Section 3 presents budgeted financial statements which provide a comprehensive snapshot of entity finances for the 2021-22 budget year, including the impact of budget measures and resourcing on financial statements.

3.1 BUDGETED FINANCIAL STATEMENTS

3.1.1 Differences between entity resourcing and financial statements

There are no material differences between the financial information presented in the Budget Papers (most notably *Budget Paper No. 1: Budget Strategy and Outlook*) and Portfolio Budget Statements as a result of differences between whole-of-government level financial reporting.

3.1.2 Explanatory notes and analysis of budgeted financial statements

The financial statements have been prepared on an Australian Accounting Standards basis.

3.2 BUDGETED FINANCIAL STATEMENTS TABLES

| comprehensive income | (138) | (335) | (666) | (480) | (500) |

⁽a) From 2010-11, the Government introduced net cash appropriation arrangements where Bill 1 revenue appropriations for the depreciation/amortisation expenses of non-corporate Commonwealth entities (and select corporate Commonwealth entities) were replaced with a separate capital budget (the Departmental Capital Budget, or DCB) provided through Bill 1 equity appropriations. For information regarding DCBs, please refer to Table 3.5 Departmental Capital Budget Statement.

⁽b) Applies leases under AASB 16 Leases.

INSPECTOR-GENERAL OF TAXATION

Section 1: Entity overview and resources

1.1 STRATEGIC DIRECTION STATEMENT

The objective of the Inspector-General of Taxation (IGT) is to improve tax administration through investigation of tax complaints, conducting broader reviews, public reporting and independent advice to Government and its relevant entities.

The IGT's strategic direction for 2021-22 is to achieve this by delivering independent advice for improvement through:

- providing a specialised tax complaints investigation service to the Australian community;
- identifying and prioritising areas of tax administration for improvement through our complaints investigation service and consultations with the community; and
- conducting review investigations into these areas and providing independent advice and recommendations to Government, the Australian Taxation Office (ATO) and the Tax Practitioners Board (TPB) through public reporting.

Our effectiveness in achieving our purpose is dependent on our ability to manage and adapt to the environment in which we operate.

1.2 ENTITY RESOURCE STATEMENT

Table 1.1 shows the total funding from all sources available to the entity for its operations and to deliver programs and services on behalf of the Government.

Information in this table is presented on a resourcing (that is, appropriations/cash available) basis, whilst the 'Budgeted expenses by Outcome 1' tables in Section 2 and the financial statements in Section 3 are presented on an accrual basis.

Table 1.1: Inspector General of Taxation resource statement – Budget estimates for 2021-22 as at Budget May 2021

| | 2020-21 | 2021-22 |
|-----------------------------------------------------------|------------------|---------------|
| | Estimated actual | Estimate |
| | \$'000 | A 1000 |
| | | \$'000 |

| Prior year appropriations available | 5,608 | 5,630 |
| Departmental appropriation (b) | 6,477 | 6,502 |
| Departmental capital budget (c) | 31 | 32 |
| Total departmental annual appropriations | 12,116 | 12,164 |
| Total departmental resourcing | 12,116 | 12,164 |
| Total resourcing for entity Inspector-General of Taxation | 12,116 | 12,164 |
| | 2020-21 | 2021-22 |
| Average staffing level (number) | 35 | 35 |

All figures shown above are GST exclusive - these may not match figures in the cash flow statement.

1.3 BUDGET MEASURES

The IGT has no new budget measures.

⁽a) Appropriation Bill (No. 1) 2021-22.

⁽b) Excludes departmental capital budget (DCB).

⁽c) Departmental capital budgets are not separately identified in Appropriation Bill (No.1) and form part of ordinary annual services items. Please refer to Table 3.5 for further details. For accounting purposes, this amount has been designated as a 'contribution by owner'.

Section 2: Outcomes and planned performance

Government outcomes are the intended results, impacts or consequences of actions by the Government on the Australian community. Commonwealth programs are the primary vehicle by which government entities achieve the intended results of their outcome statements. Entities are required to identify the programs which contribute to government outcomes over the Budget and forward years.

The IGT's outcome is described below together with its related program. The following provides detailed information on expenses for each outcome and program, further broken down by funding source.

Note:

Performance reporting requirements in the Portfolio Budget Statements are part of the enhanced Commonwealth performance framework established by the *Public Governance, Performance and Accountability Act 2013*. It is anticipated that the performance criteria described in Portfolio Budget Statements will be read with broader information provided in an entity's corporate plans and annual performance statements – included in Annual Reports - to provide an entity's complete performance story.

The most recent corporate plan for the IGT can be found at: (https://www.igt.gov.au/news-publications/news/corporate-plan-fy21-fy24)

The most recent annual performance statement can be found at: (https://www.igt.gov.au/news-and-publications/annual-reports/annual-report-2019-20)

2.1 BUDGETED EXPENSES AND PERFORMANCE FOR OUTCOME 1

Outcome 1: Improved tax administration through investigation of complaints, conducting reviews, public reporting and independent advice to Government and its relevant entities.

Budgeted expenses for Outcome 1

This table shows how much the entity intends to spend (on an accrual basis) on achieving the outcome, broken down by program, as well as by Departmental funding sources.

Table 2.1: Budgeted expenses for Outcome 1

| | 2020-21 | 2021-22 | 2022-23 | 2023-24 | 2024-25 |

| | 2020-21 | 2021-22 |
|---------------------------------|---------|---------|
| Average staffing level (number) | 35 | 35 |

⁽a) Estimated expenses incurred in relation to receipts retained under section 74 of the PGPA Act 2013.

Note: Departmental appropriation splits and totals are indicative estimates and may change in the course of the budget year as government priorities change.

⁽b) Expenses not requiring appropriation in the Budget year are made up of depreciation expenses and amortisation expenses.

Table 2.2: Performance criteria for Outcome 1

Table 2.2 below details the performance criteria for each program associated with Outcome 1. It also summarises how each program is delivered and where 2021-22 Budget measures have created new programs or materially changed existing programs.

| 2022-23 and beyond | As per 2020-21 | As per 2020-21 | | |
| Purposes | The IGT is an independent statutory agency. Our role is to: improve the administration of taxation laws for the benefit of the community; and provide independent advice (to the Minister and the Government, the ATO or TPB) and assurance (to individual taxpayers, practitioners, agencies or the community in general) through complaint enquiries and investigation, review investigations and reporting that Australian taxation administration laws are operating consistently, effectively and in accordance with community expectations. | | | |

Section 3: Budgeted financial statements

Section 3 presents budgeted financial statements which provide a comprehensive snapshot of entity finances for the 2021-22 budget year, including the impact of budget measures and resourcing on financial statements.

3.1 BUDGETED FINANCIAL STATEMENTS

3.1.1 Differences between entity resourcing and financial statements

There are no material differences between entity resourcing and the financial statements.

3.1.2 Explanatory notes and analysis of budgeted financial statements

The financial statements have been prepared on an Australian Accounting Standards basis.

The IGT is budgeting for a break-even operating result in 2021-22.

3.2. BUDGETED FINANCIAL STATEMENTS TABLES

| Total comprehensive income/(loss) - as per the statement of comprehensive income | (295) | (309) | (240) | (46) | (46) |

⁽a) From 2010-11, the Government introduced net cash appropriation arrangements where Bill 1 revenue appropriations for the depreciation/amortisation expenses of non-corporate Commonwealth entities (and select corporate Commonwealth entities) were replaced with a separate capital budget (the Departmental Capital Budget, or DCB) provided through Bill 1 equity appropriations. For information regarding DCBs, please refer to Table 3.5 Departmental Capital Budget Statement.

⁽b) Applies leases under AASB 16 Leases.

NATIONAL COMPETITION COUNCIL

Section 1: Entity overview and resources

1.1 STRATEGIC DIRECTION STATEMENT

The National Competition Council (NCC) makes recommendations under the National Access Regime in Part IIIA of the *Competition and Consumer Act* 2010 (CCA) and recommendations and decisions under the National Gas Law (NGL).

The National Access Regime promotes competition, efficiency and productivity in markets that depend on the use of services provided by monopoly infrastructure facilities. Within this regime the NCC may recommend the declaration of a service provided by a monopoly facility but only if all of the 'declaration criteria' specified in the CCA are met. Where a service is declared, the Australian Competition and Consumer Commission (ACCC) is empowered to arbitrate access disputes if the parties seeking access and the facility owner are unable to agree on access arrangements including prices.

As an alternative to the National Access Regime, state and territory governments may implement access regimes specific to their circumstances or implement (cooperatively) parallel regulation in each jurisdiction (as has occurred for the gas and electricity industries). The NCC is responsible for recommending whether a state or territory access regime should be certified as effective, with the result that services covered by that access regime are exempt from declaration under the CCA.

Under the NGL, the NCC recommends on whether particular natural gas pipeline systems should be subject to access regulation (coverage determination under the NGL). The NCC also recommends in relation to the price regulation and greenfields pipeline exemptions available under the NGL. As well as these recommendatory roles, the NCC is responsible for determining whether covered pipelines should be subject to full regulation or light regulation and for classifying pipelines as transmission or distribution pipelines.

On 1 July 2014, the NCC entered into a Memorandum of Understanding with the ACCC under which staff and other support for the NCC's operations are provided by the ACCC. The NCC remains an independent entity, however, under this arrangement, it does not employ staff directly. The NCC maintains responsibility for its recommendations, decisions and other functions under the CCA and NGL, and ensures that its websites, guidelines and other information resources remain relevant and available to all stakeholders.

1.2 ENTITY RESOURCE STATEMENT

Table 1.1 shows the total funding from all sources available to the entity for its operations and to deliver programs and services on behalf of the Government.

The table summarises how resources will be applied by outcome (government strategic policy objectives) and by administered (on behalf of the Government or the public) and departmental (for the entity's operations) classification.

For more detailed information on special accounts and special appropriations, please refer to *Budget Paper No. 4 – Agency Resourcing*. Information in this table is presented on a resourcing (that is, appropriations/cash available) basis, whilst the 'Budgeted expenses by Outcome 1' tables in Section 2 and the financial statements in Section 3 are presented on an accrual basis.

Table 1.1: National Competition Council resource statement — Budget estimates for 2021-22 as at Budget May 2021

| 101 2021-22 as at Budget May 2021 | | |

All figures shown above are GST exclusive - these may not match figures in the cash flow statement. Prepared on a resourcing (that is, appropriations available) basis.

- (a) Appropriation Bill (No. 1) 2021-22.
- (b) For 2020-21, excludes \$4.9m subject to administrative quarantine by Finance or withheld under section 51 of the Public Governance, Performance and Accountability Act 2013 (PGPA Act).
- (c) Excludes departmental capital budget (DCB).

1.3 BUDGET MEASURES

The NCC has no new budget measures.

Section 2: Outcomes and planned performance

Government outcomes are the intended results, impacts or consequences of actions by the Government on the Australian community. Commonwealth programs are the primary vehicle by which government entities achieve the intended results of their outcome statements. Entities are required to identify the programs which contribute to government outcomes over the Budget and forward years.

Each outcome is described below together with its related programs. The following provides detailed information on expenses for each outcome and program, further broken down by funding source.

Note:

Performance reporting requirements in the Portfolio Budget Statements are part of the Commonwealth performance framework established by the *Public Governance*, *Performance and Accountability Act 2013*. It is anticipated that the performance criteria described in Portfolio Budget Statements will be read with broader information provided in an entity's corporate plans and annual performance statements – included in Annual Reports - to provide a complete picture of an entity's planned and actual performance.

The most recent corporate plan for the National Competition Council can be found at: (http://ncc.gov.au/about/strategic_plan)

The most recent annual performance statement can be found at: (http://ncc.gov.au/publications/C41)

2.1 BUDGETED EXPENSES AND PERFORMANCE FOR OUTCOME 1

Outcome 1: Competition in markets that are dependent on access to nationally significant monopoly infrastructure, through recommendations and decisions promoting the efficient operation of, use of, and investment in infrastructure.

Budgeted expenses for Outcome 1

This table shows how much the entity intends to spend (on an accrual basis) on achieving the outcome, broken down by program, as well as by Administered and Departmental funding sources.

Table 2.1: Budgeted expenses for Outcome 1

| | 2020-21 Estimated actual \$'000 | 2021-22 Budget \$'000 | 2022-23 Forward estimate \$'000 | 2023-24 Forward estimate \$'000 | 2024-25 Forward estimate \$'000 |
|-------------------------------------------------------------------|------------------------------------------|-----------------------------|------------------------------------------|------------------------------------------|------------------------------------------|
| Program 1.1: National Competition Council | | | | | |
| Departmental expenses Departmental appropriation | 1,701 | 1,731 | 1,755 | 1,763 | 1,769 |
| Expenses not requiring appropriation in the Budget year (b) | 34 | 34 | 34 | 34 | 34 |
| Departmental total | 1,735 | 1,765 | 1,789 | 1,797 | 1,803 |
| Total expenses for Program 1.1 | 1,735 | 1,765 | 1,789 | 1,797 | 1,803 |
| Total expenses for Outcome 1 | 1,735 | 1,765 | 1,789 | 1,797 | 1,803 |
| | | | | | |

| | 2020-21 | 2021-22 |
|---------------------------------|---------|---------|
| Average staffing level (number) | 1 | 1 |

⁽a) Expenses not requiring appropriation in the Budget year represent audit services received free of charge from the Australian National Audit Office (ANAO).

Note: Departmental appropriation splits and totals are indicative estimates and may change in the course of the budget year as government priorities change.

Table 2.2: Performance criteria for Outcome 1

Table 2.2 below details the performance criteria for each program associated with Outcome 1. It also summarises how each program is delivered and where 2021-22 Budget measures have created new programs or materially changed existing programs.

Outcome 1 – Competition in markets that are dependent on access to nationally significant monopoly infrastructure, through recommendations and decisions promoting the efficient operation of, use of and investment in infrastructure.

Program 1.1 – The NCC's objective is to provide advice to Governments and make decisions on infrastructure access issues that accord with statutory requirements (including time limits) and good regulatory practice, and ensuring that advice meets requirements of decision making ministers, such that Australia achieves a consistent approach to access regulation that promotes the efficient operation of, use of and investment in infrastructure thereby promoting effective competition.

Delivery

Program 1.1 aims to:

- Make recommendations to ministers pursuant to Part IIIA of the CCA in relation to applications for the declaration of services provided by monopoly infrastructure and the certification of state and territory access regimes;
- Make recommendations to ministers pursuant to the NGL in relation to application for coverage of natural gas pipelines and for price regulation and greenfields pipeline exemptions;
- Make decisions pursuant to the NGL relating to the form of regulation and classification of natural gas pipelines; and
- Advise the Parliament on the operation of the National Access Regime in accordance with section 29O(f) of the CCA.

Performance information

| Performance criteria | 2020-21 | Forward Year Targets | | |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------|----------------------|--|--|
| Recommendations on declaration applications are made within statutory time limits (consideration period of 180 days, subject to 'clock stopping' provisions) and meet advice requirements of Ministers. | All recommendations are forecast to be made within the statutory time limits. | As per 2020-21. | | |
| Recommendations on certification applications are made within statutory time limits (consideration period of 180 days, subject to 'clock stopping' provisions) and meet advice requirements of Ministers. | All recommendations are forecast to be made within the statutory time limits. | As per 2020-21. | | |
| Recommendations and decisions under the NGL made within specified time limits and recommendations under the NGL meet the advice requirements of Ministers. | All recommendations and decisions are forecast to be made within the statutory time limits. | As per 2020-21. | | |

| Performance information (continued) | | | | | |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------|--|--|
| Performance criteria | | 2020-21 | Forward Year Targets | | |
| Accessible information on all access regulation matters for which the NCC is responsible is provided on the NCC website. | | The Council website is forecast to hold all documents relevant to the Council's functions. | As per 2020-21. | | |
| Up to date and informative guidelines on all the NCC's areas of responsibility are maintained on the NCC website. | | Guidelines are forecast to be updated within 30 days of relevant decisions or developments in case law. | As per 2020-21. | | |
| Case law developments, legislative amendments and developments in the NCC's processes or policies are reflected in the NCC's information resources within 30 days. | | Case law developments, legislative amendments and developments in Council processes or policies are forecast to be reflected in Council information resources within 30 days. | As per 2020-21. | | |
| The NCC's annual report to the Parliament includes a comprehensive report that meets the requirements of \$290 of the CCA and is provided within the timeframe required by the PGPA Act (i.e. by the 15th day of the fourth month after the end of the reporting period). | | The Council annual report provides comprehensive information on the National Access Regime and NGL, addresses all matters required under section 290 of the CCA and is forecast to be provided within the required timeframe. | As per 2020-21. | | |
| t fr N | he <i>Compe</i> ollowing a National C neans of p | is a Commonwealth statutory agency of etition and Consumer Act 2010 (CCA). welfare of Australians.

The NCC makes recommendations under the National Access Regime in Part IIIA of the CCA and recommendations and decisions under the NGL. The National Access Regime provides for access to the services of monopoly infrastructure facilities on appropriate terms, through the declaration of services. The NCC's role is to make recommendations to relevant ministers in relation to applications for declaration of services and also the certification of state or territory access regimes.

The NCC has a similar role under the NGL, contained in the Schedule to the National Gas (South Australia) Act 2008, where it makes recommendations on the coverage of natural gas pipeline systems. Under the NGL, the NCC also has responsibility for deciding the form of regulation applying to natural gas pipeline systems (light or full regulation), classifying pipeline (as transmission or distribution) and making recommendations in relation to various exemptions for greenfields gas pipelines.

Both the National Access Regime and the NGL seek to promote the efficient operation of, use of, and investment in significant bottleneck infrastructure, and to promote competition, efficiency and productivity in markets that depend on the use of services provided by significant bottleneck infrastructure facilities.

Section 3: Budgeted financial statements

Section 3 presents budgeted financial statements which provide a comprehensive snapshot of entity finances for the 2021-22 budget year, including the impact of budget measures and resourcing on financial statements.

3.1 BUDGETED FINANCIAL STATEMENTS

3.1.1 Differences between entity resourcing and financial statements

There are no material differences between agency resourcing and financial statements.

3.1.2 Explanatory notes and analysis of budgeted financial statements

The NCC is budgeting for a break-even operating result for 2021-22 and the forward years. The financial statements have been prepared on an Australian Accounting Standards basis.

The NCC is estimated to receive own source income of \$8,000 in 2021-22 being fees for applications made to it under the NGL.

The NCC's assets are mainly financial assets consisting of appropriation receivables and cash.

Councillor members do not receive leave entitlements. Councillor remuneration is established through *Remuneration Tribunal (Remuneration and Allowances for Holders of Part-time Public Office) Determination 2020 Compilation No.5*, which is set by the Remuneration Tribunal, an independent statutory authority established under the *Remuneration Tribunal Act 1973*.

OFFICE OF THE AUDITING AND ASSURANCE STANDARDS BOARD

Section 1: Entity overview and resources

1.1 STRATEGIC DIRECTION STATEMENT

The Office of the Auditing and Assurance Standards Board (AUASB) is an Australian Government entity under the *Australian Securities and Investments Commission Act* 2001.

The strategic directions of the AUASB are:

- Develop and issue Australian Auditing and Assurance Standards that are in the public interest and meet the needs of stakeholders based on the International Auditing and Assurance Standards Board (IAASB) equivalents in accordance with AUASB functions and our direction from the Financial Reporting Council (FRC).
- Develop and maintain Australian specific Standards and/or Guidance for topics not specifically addressed by IAASB Standards where required.
- Influence international standards and guidance to achieve public interest outcomes and serve as the most effective base possible for Australian auditing and assurance standards
- In conjunction with the Financial Reporting Council, identify and implement initiatives designed to enhance Audit Quality in Australia.
- Demonstrate thought leadership through robust evidence-based research to inform strategic projects that address emerging areas of auditing and assurance.
- Partner with the Australian Accounting Standards Board (AASB) and others to reform the Australian external reporting and assurance frameworks.
- Monitor the Australian Assurance Environment and build strong stakeholder relationships to inform our AUASB priorities and facilitate consistent implementation of the AUASB's Standards.

The vision and mission of the AUASB is to contribute to stakeholder confidence and enhance the credibility of external reporting in the Australian economy and capital markets by:

• Developing, issuing and maintaining in the public interest, Australian auditing and assurance standards and guidance that aid in reducing the cost of capital and enable

Office of the Auditing and Assurance Standards Board Budget Statements

Australian entities to compete effectively domestically and internationally through enhancing audit and assurance consistency and quality; and

• Contributing to the development of a single set of auditing and assurance standards and guidance for worldwide use.

1.2 ENTITY RESOURCE STATEMENT

Table 1.1 shows the total funding from all sources available to the entity for its operations and to deliver programs and services on behalf of the Government.

The table summarises how resources will be applied by outcome (government strategic policy objectives) and by administered (on behalf of the Government or the public) and departmental (for the entity's operations) classification.

Information in this table is presented on a resourcing (that is, appropriations/cash available) basis, whilst the 'Budgeted expenses by Outcome 1' tables in Section 2 and the financial statements in Section 3 are presented on an accrual basis.

Table 1.1: Office of the Auditing and Assurance Standards Board resource statement — Budget estimates for 2021-22 as at Budget May 2021

| | | |

All figures shown above are GST exclusive - these may not match figures in the cash flow statement.

1.3 BUDGET MEASURES

The AUASB has no new budget measures.

Prepared on a resourcing (that is, appropriations available) basis.

⁽a) Appropriation Bill (No. 1) 2021-22.

⁽b) Excludes departmental capital budget (DCB).

 ⁽c) Departmental capital budgets are not separately identified in Appropriation Bill (No.1) and form part of ordinary annual services items. Please refer to Table 3.5 for further details. For accounting purposes, this amount has been designated as a 'contribution by owner'.

Section 2: Outcomes and planned performance

Government outcomes are the intended results, impacts or consequences of actions by the Government on the Australian community. Commonwealth programs are the primary vehicle by which government entities achieve the intended results of their outcome statements. Entities are required to identify the programs which contribute to government outcomes over the Budget and forward years.

The AUASB's outcome is described below together with its related programs. The following provides detailed information on expenses for each outcome and program, further broken down by funding source.

Note:

Performance reporting requirements in the Portfolio Budget Statements are part of the Commonwealth performance framework established by the *Public Governance*, *Performance and Accountability Act 2013*. It is anticipated that the performance criteria described in Portfolio Budget Statements will be read with broader information provided in an entity's corporate plans and annual performance statements – included in Annual Reports - to provide a complete picture of an entity's planned and actual performance.

The most recent corporate plan for AUASB can be found at (https://www.transparency.gov.au/sites/default/files/reports/aasbauasb_corporateplan_2020-21.pdf)

The most recent annual performance statement can be found at: (https://www.transparency.gov.au/annual-reports/office-auditing-and-assurance-standards-board/reporting-year/2019-20)

2.1 BUDGETED EXPENSES AND PERFORMANCE FOR OUTCOME 1

Outcome 1: The formulation and making of auditing and assurance standards that are used by auditors of Australian entity financial reports or for other auditing and assurance engagements.

Budgeted expenses for Outcome 1

This table shows how much the entity intends to spend (on an accrual basis) on achieving the outcome, broken down by program, as well as by Administered and Departmental funding sources.

Table 2.1: Budgeted expenses for Outcome 1

⁽a) Expenses not requiring appropriation in the Budget year are made up of depreciation expenses, amortisation expenses, audit fees and services received free of charge.

Note: Departmental appropriation splits and totals are indicative estimates and may change in the course of the budget year as government priorities change.

Table 2.2: Performance criteria for Outcome 1

Table 2.2 below details the performance criteria for each program associated with Outcome 1. It also summarises how each program is delivered and where 2020-21 Budget measures have created new programs or materially changed existing programs.

Outcome 1 – The formulation and making of auditing and assurance standards that are used by auditors of Australian entity financial reports or for other auditing and assurance engagements

Program 1.1 -

The key strategies to achieve Outcome 1 are:

- Developing, issuing and maintaining in the public interest, Australian auditing and assurance standards and guidance that aid in reducing the cost of capital and enable Australian entities to compete effectively domestically and internationally through enhancing audit and assurance consistency and quality.
- Contributing to the development of a single set of auditing and assurance standards and guidance for world-wide use.

Delivery

- Develop and issue Australian Auditing and Assurance Standards that are in the public interest and meet the needs of stakeholders based on IAASB equivalents in accordance with AUASB functions and our direction from the Financial Reporting Council (FRC).
- Develop and maintain Australian specific Standards and/or Guidance for topics not specifically addressed by IAASB Standards where required.
- Influence international standards and guidance to achieve public interest outcomes and serve as the most effective base possible for Australian auditing and assurance standards
- In conjunction with the Financial Reporting Council, identify and implement initiatives designed to enhance Audit Quality in Australia.
- Demonstrate thought leadership through robust evidence-based research to inform strategic projects that address emerging areas of auditing and assurance.
- Partner with the AASB and others to reform the Australian external reporting and assurance frameworks.
- Monitor the Australian Assurance Environment and build strong stakeholder relationships to inform our AUASB priorities and facilitate consistent implementation of the AUASB's Standards.

| Year | Performance criteria | Targets |

| 2020-21 | Develop and issue Australian Auditing and Assurance Standards that are in the public interest and meet the needs of stakeholders based on IAASB equivalents in accordance with AUASB functions and our direction from the Financial Reporting Council (FRC). Develop and maintain Australian specific Standards and/or Guidance for topics not specifically addressed by IAASB Standards where required. Influence international standards and guidance to achieve public interest outcomes and serve as the most effective base possible for Australian auditing and assurance standards. In conjunction with the Financial Reporting Council, identify and implement initiatives designed to enhance Audit Quality in Australia. Demonstrate thought leadership through robust evidence-based research to inform strategic projects that address emerging areas of auditing and assurance. Partner with the AASB and others to reform the Australian external reporting and assurance frameworks. Monitor the Australian Assurance Environment and build strong stakeholder relationships to inform our AUASB priorities and facilitate consistent implementation of the AUASB's Standards. | Issue all IAASB based AUASB standards and guidance in a timely manner with accompanying implementation materials and communications that are tailored for Australian stakeholders. Seek feedback on relevance, effectiveness and public interest of these standards through stakeholder feedback, outreach programs and post-implementation reviews. Issue Australian specific AUASB standards and guidance in a timely manner with accompanying implementation materials and communications that are tailored for Australian stakeholders. Seek feedback on relevance, effectiveness and public interest of Australian specific standards and guidance through stakeholder feedback, outreach programs and post-implementation reviews. Identify gaps in the AUASB Framework where guidance is required and issue Guidance Statements or Bulletins to address these. Build and maintain strong international relationships with the IAASB and likeminded Global and Nationa Auditing Standard Setters, particularly New Zealand and Canada. Demonstrate the AUASB's influence on major international auditing and assurance developments by implementing the AUASB's International Strategy. Provide input to the international standard setting process through responding to international pronouncements using input from Australian stakeholders. |

| Year | Performance criteria | Targets | |
|------|----------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|
| Year | Performance criteria | Targets Maintain harmonisation of auditing and assurance standards in Australia and New Zealand in accordant with relevant agreements and protocols. With the FRC, devise and complete activities to implement the FRC's Audi Quality Action Plan and contribute to improved auditing environment. Work with ASIC, the AASI practitioners and other stakeholders to identify an address significant inspection findings associated with accounting and auditing standards. Develop thought leadershi and implement strategic projects to improve auditing and assurance practice in priority areas such as Extended External Reporting, Audits of Less Complex Entities and the use of Technology in the Audit. Support the development and publishing of relevant and high-quality auditing and assurance evidence-based research in accordance with the AUASB Evidence Informe Standard Setting Strategy Seek feedback on proposed changes to assurance requirements to ensure they are fit for the intended purpose and support changes to the external reporting framework. | |
| | | Support initiatives that promote consistency and understanding of the nature and extent of assurance required for external reporting requirements in Australia. | |
| | | Increase engagement with stakeholders through new and existing AUASB communications activities and events. | |

Section 3: Budgeted financial statements

Section 3 presents budgeted financial statements which provide a comprehensive snapshot of entity finances for the 2021-22 budget year, including the impact of budget measures and resourcing on financial statements.

3.1 BUDGETED FINANCIAL STATEMENTS

3.1.1 Differences between entity resourcing and financial statements

There are no material differences between entity resourcing and financial statements.

3.1.2 Explanatory notes and analysis of budgeted financial statements

The AUASB and the Office of the Australian Accounting Standards Board (AASB) have an arrangement where the AASB provides corporate services for both entities. Under the arrangement, AASB charges AUASB a management fee for providing corporate support.

The comprehensive income statement is comprised mainly of employee expenses relating to technical staff and supplier expenses relating to AASB management fee. These items are projected to be steady over the budget and forwarded years.

The balance sheet is predominantly comprised of receivables and provisions relating to the accounting of unspent appropriation and employees.

Other financial items are immaterial in movements.

⁽a) From 2010-11, the Government introduced net cash appropriation arrangements where Bill 1 revenue appropriations for the depreciation/amortisation expenses of non-corporate Commonwealth entities (and select corporate Commonwealth entities) were replaced with a separate capital budget (the Departmental Capital Budget, or DCB) provided through Bill 1 equity appropriations. For information regarding DCBs, please refer to Table 3.5 Departmental Capital Budget Statement.

OFFICE OF THE AUSTRALIAN ACCOUNTING STANDARDS BOARD

Section 1: Entity overview and resources

1.1 STRATEGIC DIRECTION STATEMENT

The Office of the Australian Accounting Standards Board (AASB) is an Australian Government entity under the *Australian Securities and Investments Commission Act* 2001.

The strategic directions of the AASB are to:

- Develop, issue and maintain principle based accounting standards and reporting guidelines that meet the needs of external report users;
- In partnership with the Auditing and Assurance Standards Board (AUASB) play a lead role in reshaping the Australian external reporting framework;
- Actively influence international accounting standards and reporting guidance;
- Attain significant key stakeholder engagement;
- Influence initiatives to develop standards and guidance that meet the user's needs for external reporting beyond financial reporting;
- Monitor and respond to emerging issues impacting the development of external reporting standards and guidance; and
- Develop guidance and education initiatives to enhance the consistent application of external reporting and accounting standards guidance.
- Build a high performing team that operates efficiently, effectively in the delivery of organisation goals and objectives.

The vision of the AASB is to contribute to stakeholder confidence in the Australian economy, including Australian capital markets and in external reporting.

This is achieved by developing, issuing and maintaining principle -based Australian accounting and external reporting standards, together with guidance that meets the needs of external users and enhances the consistency and quality of external reporting.

We use our expertise and influence to contribute to the development of a single set of accounting and external reporting standards for world-wide use.

Office of the Australian Accounting Standards Board Budget Statements

This is achieved by developing, issuing and maintaining in the public interest high quality Australian auditing and assurance standards and guidance that meet user needs and enhanced audit and assurance consistency and quality.

We use our expertise and influence to contribute to the development of a single set of auditing and assurance standards and guidance for worldwide use.

1.2 ENTITY RESOURCE STATEMENT

Table 1.1 shows the total funding from all sources available to the entity for its operations and to deliver programs and services on behalf of the Government.

The table summarises how resources will be applied by outcome (government strategic policy objectives) and by administered (on behalf of the Government or the public) and departmental (for the entity's operations) classification.

Information in this table is presented on a resourcing (that is, appropriations/cash available) basis, whilst the 'Budgeted expenses by Outcome 1' tables in Section 2 and the financial statements in Section 3 are presented on an accrual basis.

Table 1.1: Office of the Australian Accounting Standards Board resource statement — Budget estimates for 2021-22 as at Budget May 2021

| | 2020-21 | 2021-22 |
|------------------------------------------------------|-----------|----------|
| | Estimated | Estimate |
| | actual | |
| | \$'000 | \$'000 |

| Total departmental annual appropriations | 6,243 | 6,286 |
| Total departmental resourcing | 6,243 | 6,286 |
| | 2020-21 | 2021-22 |
| Average staffing level (number) | 22 | 22 |

All figures shown above are GST exclusive - these may not match figures in the cash flow statement. Prepared on a resourcing (that is, appropriations available) basis.

1.3 BUDGET MEASURES

The AASB has no new budget measures.

⁽a) Appropriation Bill (No. 1) 2021-22.

⁽b) Excludes departmental capital budget (DCB).

⁽c) Estimated External Revenue receipts under section 74 of the PGPA Act.

⁽d) Departmental capital budgets are not separately identified in Appropriation Bill (No.1) and form part of ordinary annual services items. Please refer to Table 3.5 for further details. For accounting purposes, this amount has been designated as a 'contribution by owner'

Section 2: Outcomes and planned performance

Government outcomes are the intended results, impacts or consequences of actions by the Government on the Australian community. Commonwealth programs are the primary vehicle by which government entities achieve the intended results of their outcome statements. Entities are required to identify the programs which contribute to government outcomes over the Budget and forward years.

The AASB's outcome is described below together with its related programs. The following provides detailed information on expenses for each outcome and program, further broken down by funding source.

Note:

Performance reporting requirements in the Portfolio Budget Statements are part of the Commonwealth performance framework established by the *Public Governance*, *Performance and Accountability Act 2013*. It is anticipated that the performance criteria described in Portfolio Budget Statements will be read with broader information provided in an entity's corporate plans and annual performance statements – included in Annual Reports - to provide a complete picture of an entity's planned and actual performance.

The most recent corporate plan for AASB can be found at: (https://www.transparency.gov.au/sites/default/files/reports/aasb-auasb_corporateplan_2020-21_0.pdf)

The most recent annual performance statement can be found at: (https://www.transparency.gov.au/annual-reports/office-australian-accounting-standards-board/reporting-year/2019-20)

2.1 BUDGETED EXPENSES AND PERFORMANCE FOR OUTCOME 1

Outcome 1: The formulation and making of accounting standards that are used by Australian entities to prepare financial reports and enable users of these reports to make informed decisions.

Budgeted expenses for Outcome 1

This table shows how much the entity intends to spend (on an accrual basis) on achieving the outcome, broken down by program, as well as by Administered and Departmental funding sources.

Table 2.1: Budgeted expenses for Outcome 1

| | 2020-21 | 2021-22 | 2022-23 | 2023-24 | 2024-25 |

| year (a) | 361 | 546 | 486 | 487 | 489 |
| Departmental total | 4,397 | 4,876 | 4,912 | 4,824 | 4,839 |
| Total expenses for program 1.1 | 4,397 | 4,876 | 4,912 | 4,824 | 4,839 |

| | 2020-21 | 2021-22 |
|---------------------------------|---------|---------|
| Average staffing level (number) | 22 | 22 |

⁽a) Expenses not requiring appropriation in the Budget year are made up of depreciation expenses, amortisation expenses, audit fees and services received free of charge.

Note: Departmental appropriation splits and totals are indicative estimates and may change in the course of the budget year as government priorities change.

Table 2.2: Performance criteria for Outcome 1

Table 2.2 below details the performance criteria for each program associated with Outcome 1. It also summarises how each program is delivered and where 2020-21 Budget measures have created new programs or materially changed existing programs.

Outcome 1 – The formulation and making of accounting standards that are used by Australian entities to prepare financial reports and enable users of these reports to make informed decisions.

Program 1.1 -

- Develop, issue and maintain principles-based Australian accounting and external reporting standards and guidance that meet user needs and enhance external reporting consistency and quality.
- Contribute to the development of a single set of accounting and external reporting standards for worldwide use

Delivery

To achieve program 1 the AASB:

- Develop, issue and maintain principles-based, Australian accounting and reporting standards and guidance that meet the needs of external report users. For 'publicly accountable' entities maintain International Financial Reporting Standards (IFRS) compliance; for others, use IFRS Standards (where they exist), and transaction neutrality (modified as necessary), or develop Australian-specific standards and guidance
- With the AUASB, play a leading role in reshaping the Australian external reporting framework by working with regulators to develop objective criteria on:
 - who prepares external reports (including financial reports)
 - the nature and extent of assurance required on these external reports.
- Actively influence International Accounting Standards Board (IASB),
 International Public Sector Accounting Standards Board (IPSASB) standards
 and other international accounting and external reporting standards and
 guidance, by demonstrating thought leadership and enhancing key
 international relationships.
- Attain significant levels of key stakeholder engagement, through collaboration, partnership and outreach.
- Influence initiatives to develop standards and guidance that meet user needs for external reporting beyond financial reporting.
- Monitor and respond to emerging issues impacting the development of accounting and external reporting standards and guidance, including changing technologies.
- Develop guidance and education initiatives, or promote development by others, to enhance consistent application of accounting and external reporting standards and guidance.
- Build a high performing team that operates efficiently, effectively and within budget, complying with all relevant legislation and Commonwealth Government requirements.

| Year | Performance criteria | Targets |
|-----------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Year 2020-21 | Performance criteria IASB equivalent Standards issued in the same timeframe of the release of the IFRS and in accordance with legislative drafting and registration requirements. Develop Australian specific Standards and/or guidance for topics not specifically addressed by IFRS Standards within timelines in project plans agreed with the Board. Develop consultative documents in relation to the Australian Financial Reporting Framework, to develop objective criteria for which entities in the for-profit sector and the not-for profit sector prepare external reports including financial reports and the type of assurance needed for these reports. Includes working with policy makers in the for-profit and not-for-profit sectors (including public sector policy makers). Maintain Australia/New Zealand convergence in accordance with Trans-Tasman requirements for for-profit entities by harmonising, wherever possible given the different regulatory environments, Australian and New Zealand Accounting Standards through working actively with the New Zealand Accounting Standards Board (NZASB). Maintain and enhance key international relationships (IASB, IPSASB and Asian-Oceanian Standard-Setters Group (AOSSG). Complete projects for external reporting beyond financial reporting as per timelines in project plans agreed with the Board. Consider emerging issues and impact of changing technologies in all AASB submissions and each major AASB project. Education initiatives, such as webinars and presentations for new major Standards issued considered effective by stakeholders. Promote the development of education initiatives by others (for example Accounting Charities and Not-for-profits Commission (ACNC) by providing, technical input to their initiatives and copresenting at their education sessions. Develop staff publications, and frequently asked questions (FAQs) to | Targets Timely release of relevant standards and guidance. The identification and development of Australian specific standards and Guidance to meet the needs of external reporting users. An increase in engagemen of Australian constituents in the standard setting process, Development and implementation of an annual performance and service benchmark to measure improvements. Build data analytics that indicate the use and impact of external reporting on the confidence levels of the economy and capital markets. Enhanced research program to inform, educate and influence domestic and international standard setting. As per 2020-21 IASB equivalent Standards issued within two months of the release of the IFRS. Australian specific Standards for the projects outlined below: insurance in the Not-for-Profit (NFP_public sector. implement the IASB Revised Conceptual Framework in Australia for other entities. of ther topics coming out of agenda consultation process. Section 3: Budgeted financial statements

Section 3 presents budgeted financial statements which provide a comprehensive snapshot of entity finances for the 2021-22 budget year, including the impact of budget measures and resourcing on financial statements.

3.1 BUDGETED FINANCIAL STATEMENTS

3.1.1 Differences between entity resourcing and financial statements

There are no material differences between entity resourcing and financial statements.

3.1.2 Explanatory notes and analysis of budgeted financial statements

The AUASB and the Office of the Australian Accounting Standards Board (AASB) have an arrangement where the AASB provides corporate services for both entities. Under the arrangement, AASB charges AUASB a management fee for providing corporate support.

The comprehensive income statement is comprised mainly of employee expenses relating to technical staff and supplier expenses relating to AASB management fee. These items are projected to be steady over the budget and forwarded years.

The balance sheet is predominantly comprised of receivables and provisions relating to the accounting of unspent appropriation and employees.

Other financial items are immaterial in movements.

PRODUCTIVITY COMMISSION

Section 1: Entity overview and resources

1.1 STRATEGIC DIRECTION STATEMENT

The Productivity Commission (the Commission) is the Australian Government's independent research and advisory body on a range of economic, social and environmental issues affecting the welfare of Australians. The Commission's work encompasses all sectors of the economy as well as social and environmental issues. Its activities cover all levels of government responsibility — Federal, State and Territory and Local.

As a review and advisory body, the Commission does not have responsibility for implementing government programs. It carries out inquiry, research, advising and incidental functions prescribed under the *Productivity Commission Act* 1998.

The Commission contributes to well-informed policy decision-making and public understanding on matters relating to Australia's economic performance and community wellbeing, based on independent and transparent analysis that takes a broad view encompassing the interests of the community as a whole, rather than just particular industries or groups. The Commission has four broad components of work:

- government commissioned projects;
- performance reporting and other services to government bodies;
- · competitive neutrality complaints activities; and
- · self-initiated research and statutory annual reporting.

In 2021-22 and the forward years, the Commission will continue to examine a variety of economic, social and environmental issues through its public inquiry and commissioned research. Commissioned projects underway in 2021-22 include inquiries into *Consumers' Right to Repair* and the *Register of Foreign-owned Water Entitlements*.

The Commission will also operate the Performance Reporting Dashboard and undertake further reviews of nationally significant sector—wide Commonwealth-State agreements. The Commission will continue to progress case studies on productivity reform within Australia for the Council on Federal Financial Relations, with the purpose of informing and diffusing knowledge and practices across governments and identifying reform opportunities.

Productivity Commission Budget Statements

The Commission will continue to provide cross-jurisdictional reporting on the performance of government services; indicators of disadvantage experienced by Aboriginal and Torres Strait Islander people; and expenditure on services to Aboriginal and Torres Strait Islander people.

As part of its new functions under the *National Agreement on Closing the Gap*, the Commission will develop and maintain a publicly accessible dashboard and annual data compilation report, underpinned by an information repository to inform reporting on progress on Closing the Gap. The Commission will also undertake an independent review of progress every three years, which will be complementary to a three-yearly Aboriginal and Torres Strait Islander-led review.

The Australian Government Competitive Neutrality Complaints Office (AGCNCO) is an autonomous office located within the Commission. It receives and investigates complaints, and advises the Treasurer on the application of competitive neutrality arrangements. AGCNCO also provides informal advice on, and assists agencies in, implementing competitive neutrality requirements.

The Commission has a mandate to undertake research to complement its other activities. A full list of the Commission's research reports and supporting research is provided on the Commission's website.

1.2 **ENTITY RESOURCE STATEMENT**

Table 1.1 shows the total funding from all sources available to the Commission.

The table summarises how resources will be applied by outcome (government strategic policy objectives) and by administered (on behalf of the Government or the public) and departmental (for the entity's operations) classification.

Information in this table is presented on a resourcing (that is, appropriations/cash available) basis, whilst the 'Budgeted expenses by Outcome 1' tables in Section 2 and the financial statements in Section 3 are presented on an accrual basis.

Table 1.1: Productivity Commission resource statement — Budget estimates for 2021-22 as at Budget May 2021

| 2021 22 do de Budgot may 2021 | 2020-21 | 2021-22 |

| Total departmental annual appropriations | 70,437 | 68,127 |
| Total departmental resourcing | 70,437 | 68,127 |
| Total resourcing for the Productivity Commission | 70,437 | 68,127 |
| | 2020-21 | 2021-22 |
| Average staffing level (number) | 162 | 190 |

All figures shown above are GST exclusive - these may not match figures in the cash flow statement. Prepared on a resourcing (that is, appropriations available) basis.

1.3 **BUDGET MEASURES**

The Productivity Commission has no new budget measures.

⁽a) Appropriation Bill (No. 1) 2021-22. (b) Excludes \$0.3m 2017-18 DCB which lapsed on 1 July 2020

⁽c) Excludes departmental capital budget (DCB).

⁽d) Estimated External Revenue receipts under section 74 of the PGPA Act.

⁽e) Departmental capital budgets are not separately identified in Appropriation Bill (No.1) and form part of ordinary annual services items. Please refer to Table 3.5 for further details. For accounting purposes, this amount has been designated as a 'contribution by owner'.

Section 2: Outcomes and planned performance

Government outcomes are the intended results, impacts or consequences of actions by the Government on the Australian community. Commonwealth programs are the primary vehicle by which government entities achieve the intended results of their outcome statements. Entities are required to identify the programs which contribute to government outcomes over the Budget and forward years.

The Commission's outcome is described below together with its related programs. The following provides detailed information on expenses for each outcome and program, further broken down by funding source.

Note:

Performance reporting requirements in the Portfolio Budget Statements are part of the enhanced Commonwealth performance framework established by the *Public Governance, Performance and Accountability Act* 2013. It is anticipated that the performance criteria described in Portfolio Budget Statements will be read with broader information provided in an entity's corporate plans and annual performance statements – included in Annual Reports - to provide an entity's complete performance story.

The most recent corporate plan for the Commission can be found at: (http://www.pc.gov.au/about/governance/corporate-plan.)

The most recent annual performance statement can be found at: (https://www.pc.gov.au/about/governance/annual-reports/2019-20)

2.1 BUDGETED EXPENSES AND PERFORMANCE FOR OUTCOME 1

Outcome 1: Well-informed policy decision-making and public understanding on matters relating to Australia's productivity and living standards, based on independent and transparent analysis from a community-wide perspective.

Budgeted expenses for Outcome 1

This table shows how much the Commission intends to spend (on an accrual basis) on achieving the outcome.

Table 2.1: Budgeted expenses for Outcome 1

 190

Note: Departmental appropriation splits and totals are indicative estimates and may change in the course of the budget year as government priorities change.

⁽a) Estimated expenses incurred in relation to receipts retained under section 74 of the PGPA Act.

⁽b) Expenses not requiring appropriation in the Budget year are made up of depreciation expenses, amortisation expenses, audit fees and other resources received free of charge.

Table 2.2: Performance criteria for Outcome 1

Table 2.2 below details the performance criteria for the program associated with Outcome 1 and summarises how that program is delivered.

| Outcome 1 – Well-informed policy decision-making and public understanding on matters relating to Australia's productivity and living standards, based on independent and transparent analysis from a community-wide perspective | | | | | |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|--|--|--|
| Program 1.1 – The Commission provides governments and the Australian community with information and advice that better informs policy decisions to improve Australians' wellbeing. | | | | | |
| Delivery | The Commission undertakes inquiries, research, and performance reporting and analysis. It provides robust analysis and advice on a range of economic, social and environmental issues, taking a community-wide perspective. The Commission engages widely, including through hearings, release of draft reports, roundtables, seminars and submissions, to seek informed input to its reports. | | | | |
| Performance information | | | | | |
| Performance criteria | 2021-22 and forward years | | | | |
| The Commission aims to be a valuable source of robust evidence-based analysis to inform public policy; to generate effective public debate; and have recognition that our approach to evidence-based policy analysis is worthy of consideration by other governments. In doing so, it seeks to engage effectively with the community, have open and transparent processes, and provide timely reporting. | A range of indicators inform the Commission's performance assessment, including the Commission's work being widely referenced in public policy forums; projects and reports meeting commissioned timelines; and open and transparent processes being followed. | | | | |
| Purposes | The Commission's purpose, as embodied in the <i>Productivity Commission Act 1998</i> , is to provide governments and the Australian community with information and advice that better inform policy decisions to improve Australians' wellbeing. | | | | |

Section 3: Budgeted financial statements

Section 3 presents budgeted financial statements which provide a comprehensive snapshot of entity finances for the 2021-22 budget year, including the impact of budget measures and resourcing on financial statements.

3.1 BUDGETED FINANCIAL STATEMENTS

3.1.1 Differences between entity resourcing and financial statements

There are no material differences between entity resourcing and financial statements.

3.1.2 Explanatory notes and analysis of budgeted financial statements

The Commission is budgeting for a break-even result in 2021-22 and the forward years.

3.2. BUDGETED FINANCIAL STATEMENTS TABLES

| Total comprehensive income/(loss) - as per the statement of comprehensive income | (3,075) | (1,416) | (1,290) | (1,178) | (1,020) |

⁽a) From 2010-11, the Government introduced net cash appropriation arrangements where Bill 1 revenue appropriations for the depreciation/amortisation expenses of non-corporate Commonwealth entities (and select corporate Commonwealth entities) were replaced with a separate capital budget (the Departmental Capital Budget, or DCB) provided through Bill 1 equity appropriations. For information regarding DCBs, please refer to Table 3.5 Departmental Capital Budget Statement.
(b) Applies to leases under AASB 16 Leases.

ROYAL AUSTRALIAN MINT

Section 1: Entity overview and resources

1.1 STRATEGIC DIRECTION STATEMENT

The Royal Australian Mint (the Mint) is a listed entity operating under the *Public Governance, Performance and Accountability Act* 2013. The Mint's vision is to achieve excellence as the world's best performing Mint. Its goal is to meet the circulating coin and collector coin needs of Australia and selected international markets. The Mint is also the custodian of Australia's National Coin Collection and through the gallery as a national institution, provides educational and tourist services to local and overseas visitors.

2021-22 will incorporate a strategic plan which acknowledges the long-term decline in the demand for circulating coin, the opportunities for growth in the collectible business and how the Mint delivers public value as a National Institution. With a foundation based on a commitment to excellence, safety and effective resource management, the following key strategies have been identified for inclusion in this plan:

- Optimisation of the return on core business;
- Profitable growth of the collector and investment business;
- Further enhancement of the visitor experience at the Mint and its related programs;

As the sole supplier of Australia's circulating coin requirements, the Mint is responsible for the continuous review of Australian coinage and for providing advice to the Treasury and the Government on coin related issues.

In 2021-22, the Mint will continue to target profitable revenue growth opportunities for circulating and collectables activities.

Across the forward estimates, the Mint will be focussed on effectively managing its return to Commonwealth generated through seigniorage returns from circulation coin sales, surpluses from continued growth in the collectible business and the provision of tourism and education services to the public.

1.2 ENTITY RESOURCE STATEMENT

Table 1.1 shows the total funding from all sources available to the entity for its operations and to deliver programs and services on behalf of the government. The table summarises how resources will be applied by outcome (government strategic policy objectives) and by administered (on behalf of the government or the public) and departmental (for the entity's operations) classification.

Information in this table is presented on a resourcing (i.e. cash available) basis, whilst the 'Budgeted expenses by Outcome' tables in Section 2 and the financial statements in Section 3 are presented on an accrual basis.

Table 1.1: Royal Australian Mint resource statement – Budget estimates for 2021-22 as Budget May 2021

Prepared on a resourcing (i.e. appropriations available) basis.

All figures shown above are GST exclusive - these may not match figures in the cash flow statement.

1.3 BUDGET MEASURES

The Mint has no new budget measures.

⁽a) Excludes trust money and "other CRF money" held in accounts like Other Trust Monies accounts (OTM), Services for Other Government and Non-agency Bodies accounts (SOG) or Services for Other Entities and Trust Moneys accounts (SOETM)). For further information on special appropriations and special accounts, please refer to Budget Paper No. 4 - Agency Resourcing. Please also see Table 2.1 for further information on outcome and program expenses broken down by various funding sources, e.g. annual appropriations, special appropriations and special accounts.

Section 2: Outcomes and planned performance

Government outcomes are the intended results, impacts or consequences of actions by the Government on the Australian community. Commonwealth programs are the primary vehicle by which government entities achieve the intended results of their outcome statements. Entities are required to identify the programs which contribute to government outcomes over the Budget and forward years.

The Mint's outcome is described below together with its related programs. The following provides detailed information on expenses for each outcome and program, further broken down by funding source.

Note:

Performance reporting requirements in the Portfolio Budget Statements are part of the enhanced Commonwealth performance framework established by the *Public Governance, Performance and Accountability Act* 2013. It is anticipated that the performance criteria described in Portfolio Budget Statements will be read with broader information provided in an entity's corporate plans and annual performance statements – included in Annual Reports - to provide an entity's complete performance story.

The most recent corporate plan for Royal Australian Mint can be found at: (https://www.ramint.gov.au/corporate-plan)

The most recent annual performance statement can be found inside the latest annual report at: (https://www.ramint.gov.au/annual-reports)

2.1 BUDGETED EXPENSES AND PERFORMANCE FOR OUTCOME 1

Outcome 1: The coinage needs of the Australian economy, collectors and foreign countries are met through the manufacture and sale of circulating coins, collector coins and other minted like products.

Budgeted expenses for Outcome 1

This table shows how much the entity intends to spend (on an accrual basis) on achieving the outcome, broken down by program, as well as by Administered and Departmental funding sources.

Table 2.1: Budgeted expenses for Outcome 1

Table 2.2: Performance criteria for Outcome 1

Table 2.2 below details the performance criteria for each program associated with Outcome 1. It also summarises how each program is delivered and where 2021-22 Budget measures have created new programs or materially changed existing programs.

Outcome 1 – The coinage needs of the Australian economy, collectors and foreign countries are met through the manufacture and sale of circulating coins, collector coins and other minted like products.

Program 1.1 – Royal Australian Mint: To produce and distribute circulating coins and minted products to meet the demands of the Australian economy, collectors and foreign countries.

| meet the demands of | of the Australian economy, collectors and foreign countries. |
|---------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Delivery | Production, maintenance and sales to meet demand for: Australian circulating coins; Foreign country circulating coins; Numismatic products; and Other custom minted products. |
| | Maintenance of Australia's National Coin Collection. |
| | Tourism and education services to public and school groups: |
| | Maintenance of the Mint's visitor gallery, including building and surrounds; |
| | Educational programs to school students who visit the Mint; and |
| | Promote public understanding about the cultural and |

historical significance of coins.

Section 3: Budgeted financial statements

Section 3 presents budgeted financial statements which provide a comprehensive snapshot of entity finances for the 2021-22 budget year, including the impact of budget measures and resourcing on financial statements.

3.1 BUDGETED FINANCIAL STATEMENTS

3.1.1 Differences between entity resourcing and financial statements

There are no material differences between entity resourcing and financial statements.

3.1.2 Explanatory notes and analysis of budgeted financial statements

The Mint has two streams of revenue. One stream comes from production and subsequent sale of circulating coins at face value to commercial banks. The second stream comes from sale of collectible products (numismatic, foreign circulating coins and other minted products).

The Mint's Departmental projected results for the 2021-22 and forward years reflect the Mint's focus on identifying opportunities in its collectible business (refer to table 3.1). The ongoing implementation of 'lean' principles will enable the Mint to manufacture its products in a more efficient manner which is expected to deliver a reduction in cost and improved business effectiveness.

An after-tax surplus is budgeted on the sale of collectible products. It is expected to rise from \$12 million in 2020-2021 to \$21 million in 2024-25 and will contribute to the total return to Commonwealth.

The Administered surplus from seigniorage is expected to decline over the next four years from \$32 million in 2020-21 to \$27 million in 2024-25 (refer to table 3.7).

3.2 BUDGETED FINANCIAL STATEMENTS TABLES

Portfolio Glossary

| Term | Meaning |
|----------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Accumulated depreciation | The aggregate depreciation recorded for a particular depreciating asset. |
| Administered item | Appropriation that consists of funding managed on behalf of the Commonwealth. This funding is not at the discretion of the entity and any unspent appropriation is returned to the Consolidated Revenue Fund (CRF) at the end of the financial year. An administered item is a component of an administered program. It may be a measure but will not constitute a program in its own right. |
| Appropriation | A law of the Australian Parliament that provides authority for Commonwealth entities to spend money from the CRF for a particular purpose. Entities may not spend money without an appropriation authorising that expenditure and, where necessary, other legislation authorising the specified purpose. |
| Appropriation Bill (No. 1) | This Bill proposes spending from the CRF for the ordinary annual services of government. Bills proposing appropriations for ordinary annual services cannot be amended by the Senate under Section 53 of the Australian Constitution. Once the Bill is passed by Parliament and given Royal Assent, it becomes Appropriation Act (No. 1). |
| Appropriation Bill (No. 2) | This Bill proposes spending from the CRF for purposes other than the ordinary annual services of government. Under existing arrangements between the two Houses of Parliament, this Bill includes appropriation funding of administered expenses for new outcomes, for payments to the states and territories, and for departmental or administered capital. Funding for extensions to existing programs can be included in Appropriation Bill (No. 1). Once the Bill is passed by Parliament and given Royal Assent, it becomes Appropriation Act (No. 2). |

Glossary

| Term | Meaning |
|------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Appropriation Bills (Nos. 3 and 4) | If an amount provided in Appropriation Acts (Nos. 1 or 2) is not enough to meet approved expenditure in a financial year, supplementary appropriation may be sought in Appropriation Bills (Nos. 3 or 4). Once these Bills are passed by Parliament and given royal assent, they become the Appropriation Acts (Nos. 3 and 4). They are also commonly referred to as the Additional Estimates Bills. |
| Assets | Future economic benefits controlled by an entity as a result of past transactions or other past events. |
| Average staffing level | The average number of employees receiving salary/wages (or compensation in lieu of salary/wages) over a financial year, with adjustments for casual and part-time employees to show the full-time equivalent. |
| Budget Paper 1 (BP1) | Budget Strategy and Outlook. Provides information and analysis on whole-of-government expenditure and revenue. |
| Budget Paper 2 (BP2) | Budget Measures. Provides a description of each budget measure by portfolio. |
| Budget Paper 3 (BP3) | Australia's Federal Relations. Provides information and analysis on federal funding provided to the states and territories. |
| Budget Paper 4 (BP4) | Entity Resourcing. Details total resourcing available to agencies. |
| Capital expenditure | Expenditure by an entity on capital projects; for example, purchasing a building. |

| Term | Meaning |
|--------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Consolidated Revenue Fund | The principal operating fund from which money is drawn to pay for the activities of the Government. Section 81 of the Australian Constitution provides that all revenue raised or monies received by the Executive Government forms one consolidated revenue fund from which appropriations are made for the purposes of the Australian Government. |
| Departmental Capital Budget (DCB) | Net cash appropriation arrangements involve the cessation of funding for depreciation, amortisation and make good expenses. Funding for these expenses has been replaced with a collection development and acquisition budget (CDAB) for designated collection institutions (DCIs), and departmental capital budgets (DCBs). |
| Departmental item | Resources (assets, liabilities, revenues and expenses) that entity chief executive officers control directly. This includes outsourced activities funded and controlled by the entity. Examples of departmental items include entity running costs, accrued employee entitlements and net appropriations. A departmental item is a component of a departmental program. |
| Depreciation | Apportionment of an asset's capital value as an expense over its estimated useful life to take account of normal usage, obsolescence, or the passage of time. |
| Equity or net assets | Residual interest in the assets of an entity after deduction of its liabilities. |
| Entity | A department, agency, company or authority under the <i>Public Governance, Performance and Accountability Act</i> 2013 (PGPA Act) or any other Commonwealth statutory authority. |
| Estimated actual expenses | Details of the current year's estimated final figures as included in the Budget documentation. As the Budget is released in May each year, but the financial year does not close off until 30 June, the current year numbers that are used for comparison with Budget amounts can only be estimates. |

Glossary

| Term | Meaning |
|---------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Expenditure | Spending money from the Consolidated Revenue Fund or a notional payment to a PGPA entity. |
| Expense | Decreases in economic benefits in the form of outflows or depletions of assets or incurrence of liabilities that result in decreases in equity, other than those relating to distributions to equity participants. |
| Expenses not requiring appropriation in the Budget year | Expenses not involving a cash flow impact are not included within the calculation of an appropriation. An example of such an event is goods or services received free of charge that are then expensed; for example, ANAO audit services. The ANAO does not charge for audit services; however, the expense must be recognised. Similarly, bad debts are recognised as an expense but are not recognised for the purpose of calculating appropriation amounts to be sought from Parliament. |
| Forward estimates period | The three years following the Budget year. For example if 2020-21 is the Budget year, 2021-22 is forward year 1, 2022-23 is forward year 2 and 2023-24 is forward year 3. |
| Funds | Money that has been appropriated but not drawn from the Consolidated Revenue Fund. |
| Income | Total value of resources earned or received to cover the production of goods and services. |
| Make good | Make good is the cost of dismantling and removing an item and restoring the site on which it is located, the obligation for which an entity incurs either when the item is acquired or as a consequence of having used the item during a particular period for purposes other than to produce inventories during that period. A common example of make good in the public sector is the restoration of office premises at the end of a lease period. |

| Term | Meaning |
|-------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Mid-Year Economic and Fiscal Outlook (MYEFO) | The MYEFO provides an update of the government's budget estimates by examining expenses and revenues in the year to date, as well as provisions for new decisions that have been taken since the Budget. The report provides updated information to allow the assessment of the government's fiscal performance against the fiscal strategy set out in its current fiscal strategy statement. |
| 'Movement of Funds' between years | A 'movement of funds' process is carried out twice each year in relation to un-expensed administered operating appropriations. This involves portfolio ministers submitting requests to the Finance Minister advising of timing changes to funding requirements. If agreed by the Finance Minister, there will be an increase in the amount appropriated in later year(s). |
| Net cash appropriation arrangements | The net cash framework, implemented from the 2010-11 Budget, replaces funding for depreciation and amortisation expenses with a departmental capital budget (DCB) and the funding of make good expenses will cease to be paid in advance. The net cash framework applies to general government sector entities that receive funding |
| | from annual appropriations directly or via a special account, with the exception of the Department of Defence. |
| Non-operating | Sometimes called 'capital' costs. |
| Official Public Account (OPA) | The OPA is the Australian Government's central bank account held within the Reserve Bank of Australia. The OPA reflects the operations of the Consolidated Revenue Fund. |
| Operating | Normally related to ongoing, or recurring expenses, such as paying salaries or making program payments. |
| Operating result | Equals income less expenses. |

Glossary

| Term | Meaning |
|------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Outcome | An outcome is the intended result, consequence or impact of government actions on the Australian community. |
| Public Governance, Performance and Accountability Act 2013 | The PGPA Act is the principal legislation concerning the governance, performance and accountability of, and the use and management of public resources by the Commonwealth. |
| Portfolio Budget Statements | Budget related paper detailing budget initiatives and explanations of appropriations specified by outcome and program by each entity within a portfolio. |
| Program | Activity that delivers benefits, services or transfer payments to individuals, industry and/or the community as a whole, with the aim of achieving the intended result specified in an outcome statement. |
| Program support | The entity running costs allocated to a program. This is funded as part of the entity's departmental appropriations. |
| Special account | Balances existing within the CRF that are supported by standing appropriations, PGPA Act s.78, s.79 and s.80). Special accounts allow money in the CRF to be acknowledged as set-aside (hypothecated) for a particular purpose. Amounts credited to a special account can only be spent for the purposes of the special account. Special accounts can only be established by a written determination of the Finance Minister (s. 78 of the PGPA Act) or through an Act of Parliament (referred to in s. 80 of the PGPA Act). |

Term

Special appropriations (including standing appropriations)

Meaning

An amount of money appropriated by a particular Act of Parliament for a specific purpose and number of years. For special appropriations, the authority to withdraw funds from the CRF does not generally cease at the end of the financial year.

Standing appropriations are a subcategory consisting of ongoing special appropriations – the amount appropriated will depend on circumstances specified in the legislation.
