

TO WHOM IT MAY CONCERN

Re: C2021-226351 Rediculous prememiums for insurance for the N.W

- I own a property in Onslow, where I have lived for the past 14years.
- Over those 14 years I have paid well over \$100,000 in insurance and have neverhad a claim
- Last year my premium was \$6,600 with a \$5,000 excess
- This year the broker that I have used for a couple of years has come back to me with a new premium of \$18,000. The reason being that Vero who used to insure here have pulled out.
- I took a week to ring every insurance company and broker with quotes ranging from \$22,000 down to \$13,000
- The lowest premium of \$13,000 was from NRMA which I am paying a premium of \$3,2000 every quarter. This amount only covers the building not any contents. The building is insured at \$650,000
- I am 71 years of age and on a pension with no super and cannot afford this cost any longer.
- I work part time during the winter months so I can put money aside for the insurance
- I have decided to sell my propery , to elleviate this problem. I do not want to leave my home or Onslow but have been driven to this decision because of insurance premiums.
- I know of a lot of other people in the same situation as myself and feel it is very wrong for it to come to this.
- If something cannot be done about this problem towns in the north west will become ghost towns or purely mining towns.
- I do hope our Government can assist with this matter in some way.
- I do have documents to support these amounts.

Thanking you

Janette Bevan
