

Bush Banking Aussie Post

To Whom it may concern

Please consider allowing Australia Post, already a supreme force in available banking for the BUSH , a postal bank.

My husband and I own and run the Park Holme Licensed Post office in Metro Adelaide, we have been in business here since purchasing in August 1998. We have 3 staff plus ourselves and an Aust post bank would solidify our banking position for our customers.

In saying that Australia Post are consistently the last man standing in Regional Australia servicing all of Australia far and wide. Oftentimes the only business still in country towns incorporating pubs, coffee shops, corner and General stores. Banking here is a natural progression that will help these licensees stay afloat through drought, bushfires and changing times so that they can continue to serve their communities.

Thank You

Belinda and Brenton Faul
