

Dear Director,

Thank you for the opportunity to submit a response to the abovementioned proposed legislation.

I strongly object to this proposal on the grounds that it will make my day to day life harder to live than it already is now. I went with you in the hope things would improve but this proposed legislation knocks that on the head.

I hope common sense prevails and the Government sees the enormous error it is pondering and comes to consider the detrimental effect it will have on struggling retirees.

Yours Faithfully (maybe)

Rodney Raymond Brewer
