

Dear Sir/Madam,

I am very concerned about the proposed new legislation that seeks to prevent companies from paying franked dividends to shareholders.

My wife and I worked hard all our working lives - at times we both had 2 jobs – to establish a nest egg for our retirement. WE do not get any money from the government – we fund our own retirement.

This proposal will take money from us. It is very unfair to attack people in our situation.

I fervently ask that this proposal be shelved.

Yours Faithfully,

Peter Cunningham.
