

The Director
Corporate Tax Policy Unit Treasury
ACT

Dear Director,

I wish to strongly object to the hastily introduced proposed legislation.
Of most concern is the retrospectivity of this proposed legislation.
This has significant implications for the well being of the Australian economy in a negative manner. Simply absolutely NOT fair.

Sincerely
Leigh Gordon

Begin forwarded message:

I'm totally opposed to these intended changes to franking credits by the Federal Labour Government. To do so will significantly impact much needed investment and damage Australian economic activity. Of course there is a huge moral question regarding this Federal Government's motives to negatively impact the business investment sector.
Simply this is absolutely not well reasoned and threatens my financial situation.
Appreciate your enthusiasm to make this socialist money grab get defeated.
Regards
Leigh Gordon
