

In response to the Federal Government proposal of clawing back Dividends from 2016 .

We are Self funded Retirees who just fit over the Federal Government Pension limit.

Dividend payments are our income stream.

If you are planning to retrospectively claw back dividends from 2016 you will impact our income to the point where we will have to apply for the Govt pension.

You the ALP lost the last election in 2019 over this very issue.

Retirees like us have long memories.
