

Corporate Tax Policy Unit,
Treasury ACT.

Dear Director,

A change in policy on franking credits as proposed in the new legislation would greatly affect our income and it would be greatly unfair for those already retired and trying to make ends meet from their investments.

For some of us , we are getting on and are too old to return to work to enable us to replace the lost income. Come on guys , there are other ways to raise money, stop handing it out so easy PLEASE.

Kind Regards
JJMT Kradolfer
