

Hello, I am writing you regarding the change to the Franking credit changes to my shares . I am a self funded retiree aged 73 with a severe disability and do not not receive any pension from the Govt.

I rely on the Franking credits to help me survive the actions that the new Labour Govt. are proposing on top of rises to the cost of living fuel ,food and Electricity etc.

Labour have proved once again that they cannot be trusted not long after Chris Bowen pulled this stunt before when Morrison Govt got in.

Taking away our Franking credits will then make us apply for the aged pension, which I do not receive. I only read about this submission today giving people very little time to get a submission in. If this goes through I will never vote for Labour again. Does the Labour Govt. think it is a good idea to take our credits , then give us the aged Pension.

Please inform as to the situation.

Kind regards ,

Kerry Riley
