

To whom it may concern,

I hear you are looking at punishing me for being a self funded pensioner.

People use the word retiree !

I can't believe we have a system to get people out of poverty and then punish them with extra taxes for doing so.

If you would like to hear my story and what I see please don't hesitate to contact as I imagine you are just be another wage earner sent out from home with nothing and believing you are not poor !

Sincerely

Brad Tulloch
