

Dear Sir,

As a tax payer over 60 yrs the abolishing or amendments to franking Credits as they exist today will effect the already stumbling economy and require adjustment to investment strategies as they exist today by many investors .

To that end I object to any alterations to the existing plan . LEAVE IT ALONE .

If you wish do adjust anything adjust the leniency to rewarding able bodied men and women receiving government hand outs as non working citizens .

No job after 6 months, no handout to the able bodied fit and capable .

Do the sum.
