

Director,
Corporate Tax Policy Unit
Treasury
Langton Cres,
Parkes ACT 2600.

I wish to record my opposition to the adoption of this legislation.

The thrust of the Legislation is contrary to the principle of avoiding double taxation on dividends and the retrospectivity of the current proposal is simply unacceptable to shareholders receiving franked dividends since 2016. As a self funded retiree management of my capital is a critically important issue to my financial well being and I wish to record my strong opposition to the adoption of this legislation.

Allan Wilson.
