

As self funded retirees we wish to register our strongest objection to the proposal to change the legislation concerning Franked Imputation Credits and capital raising .

We do our best to support ourselves and we would be disadvantaged greatly should our income be reduced as a result of your proposal.

Your election campaign led people to believe that you would not change the situation concerning this matter therefore it would be outright deception should you go ahead with your proposed changes.

Once again we wish to reiterate that we OBJECT to any of your changes.

Yours sincerely

Helen and Steve Wray
