- 14 1. Did the five emerging policy themes Prosperous, Inclusive, Sustainable, Cohesive and Healthy resonate with meeting participants?
Yes
- 15 If not, why not (200 words)
Not answered
- 16 2. Which of the following themes are most important to you? (Select 3)
Inclusive: A society that shares opportunities and enables people to fully participate
Sustainable: A natural environment that is valued and sustainably managed in the face of a changing climate for current and future generations
Cohesive: A safe and cohesive society that celebrates culture and encourages participation
- 17 3. Which themes or descriptions were most frequently discussed? (Select 3)
Inclusive: A society that shares opportunities and enables people to fully participate
Sustainable: A natural environment that is valued and sustainably managed in the face of a changing climate for current and future generations

Cohesive: A safe and cohesive society that celebrates culture and encourages participation

- 18 4. What do you see as the most important issues for future wellbeing?
Are these captured by the emerging policy themes?

A combination of all five themes will be important for future wellbeing, however it will be important that descriptions are formulated to appropriately represent our diverse society.

- 19 5. How might the descriptions be amended to best reflect our priorities?

We understand that the descriptions included within the consultation pack are draft, however we suggest that these are further considered to capture groups such as individuals living with a disability and children, ensuring that they are provided the basic rights to structure, consistent environments and protection to support the development of the next generation of Australians.

- 20 6. Are there any indicators and existing data sources that will be critical to inform the emerging policy themes?

Some of our members have noted that there has been significant work done in relation to Sustainable Development Goals (SDGs) which has not been considered within this second phase of consultation. We suggest that Government considers the emerging policy themes in conjunction with a KPI scorecard which is tailored for Australia and measured against relevant SDGs metrics and targets.

- 21 7. Is there any additional information you would like to see in the Measuring What Matters Statement? If so, please outline.
