You don't often get email from S 47F [Learn why this is important](#)

Dear Secretary Jenny Wilkinson,

I write to invite you to a **private dinner in Canberra on Monday 30 June**, with Dr Aaron "Ronnie" Chatterji, OpenAI's Chief Economist.

Dr Chatterji is a globally recognised economist and public policy leader. He previously served in the Biden Administration as the White House CHIPS Coordinator, where he oversaw the implementation of the landmark \$52 billion CHIPS and Science Act.

He was also Acting Deputy Director of the White House National Economic Council and Chief Economist at the US Department of Commerce. Earlier in his career, he served as a senior economist on President Obama's Council of Economic Advisers and has contributed to multiple state-level economic policy commissions.

At OpenAI, Dr Chatterji leads work on how artificial intelligence will shape global economic growth, labour markets and productivity. His research spans the economic implications of AI infrastructure investment, longer-term workforce transformation, and strategies for enabling governments and institutions to harness the benefits of AI.

This dinner will offer a unique opportunity to hear directly from Dr Chatterji on how governments globally are approaching AI, how industry policy is evolving, and how AI can be adopted within the public sector to improve service delivery and national productivity.

Attendance is limited to a select group of senior public sector leaders to enable candid, forward-looking discussion under Chatham House-rules.

The dinner is at the **Boathouse at 7 Menindee Drive, Barton with a 6.30pm arrival for a 7pm dinner**. If you are able to join us, please RSVP to S 47F with confirmation and any dietary requirements by **20 June**.

We look forward to seeing you for what promises to be a thoughtful evening.

Kind regards,

s 47F

OpenAI
