

## **Australian Government**

Australian Government response to the  
Senate Committee Economics report:

Future Made in Australia (Production Tax Credits and  
Other Measures) Bill 2024 [Provisions]

March, 2026

## Introduction

The Australian Government thanks the Senate Economic Legislation Committee for its consideration of the Future Made in Australia (Production Tax Credits and Other Measures) Bill 2024.

The Bill passed both Houses on 11 February 2025 and received Royal Assent on 14 February 2025 as the Future Made in Australia (Production Tax Credits and Other Measures) Act 2024.

The Government provides the following response to the Committee's recommendations.

# Response to the recommendations

## Coalition Senators' Dissenting Report

---

### Recommendation 2

That the community benefit principles cannot include union agreement requirements.

#### *Australian Government response*

The Government **notes** this recommendation.

The Government's Future Made in Australia agenda will help Australia build a stronger, more diversified and more resilient economy powered by renewable energy, and create more secure, well-paid jobs.

Recipients of the production tax incentives will be expected to deliver benefits relating to the six Community Benefit Principles included in the overarching Future Made in Australia Bill. The specific requirements will be detailed in rules set by the Treasurer. The Government recently consulted on Draft Public Guidance on the operation of the Community Benefit Principles.
