Submission text

Hello, my names Claire Gardiner

I'm a single mother of 1 who is about to do year 10 next year I work hard but still am just surviving The school kids bonus is NOT a cash grab for parents as some people have said, it's a way for our children, Australia's future to keep going to school and feel they belong This money helps parents do that If you take it away parents can't afford to send their kids to school So please don't get rid of it I speak to a lot of people and they all say the same thing

Thank you

Claire Gardiner
