

To the Secretariate / Regional Banking Task Force

To whom it may concern,

I am writing concerning Australia Post. For many years I have used Australia Post in conjunction with the Commonwealth Bank. I am 67 years old and not computer savvy.

I pay my Telstra + Energy Australia utility accounts with Australia Post. Older Australians in regional and outback areas need the services of Australia Post

With Bank services closing down, more Australians will rely on Australia Post

The National Australia Bank, ANZ, Westpac could sign up with Australia Post. A good scheme for pensioners + those on benefits, a Government sponsored POSTAL SAVINGS BANK would be a good idea

Hope you will consider my short note, for the sake of those ordinary Australians that need Australia Post. Lets not have Australia Post privatized as this will mean a poorer, more expensive service.

Yours Sincerely

Lynn Baker
