Royal Australian Mint

Section 1: Entity overview and resources

1.1 Strategic direction statement

The Royal Australian Mint (the Mint) is a listed entity operating under the *Public Governance, Performance and Accountability Act 2013*. The Mint's vision is to be an industry leader in delivering sustainable business that represents value to its stakeholders. Its goal is to meet the circulating coin and collector coin needs of Australia and selected international markets. The Mint is also the custodian of Australia's National Coin Collection and through the gallery as a national institution provides educational and Cultural experiences to local and overseas visitors.

2022-23 will incorporate a strategic plan, which acknowledges the long-term decline in the demand for circulating coin, the opportunities for growth in the collectible business, and how the Mint delivers public value as a National Institution. With a foundation based on a commitment to excellence, sustainability, safety and effective resource management, the following key strategies have been identified for inclusion in this plan:

- · Optimisation of the return on core business;
- · Profitable growth of the collector and investment business;
- Enhancement of the visitor experience as a National Institution; and
- Establishment as a custodian of value in future financial systems

As the sole supplier of Australia's circulating coin requirements, the Mint is responsible for the continuous review of Australian coinage and for providing advice to the Treasury and the Government on coin related issues.

Across the forward estimates, the Mint will be focussed on effectively managing its return to Commonwealth generated through seigniorage returns from circulation coin sales, surpluses from the collectible business and the provision of cultural and education services to the public.

1.2 Entity resource statement

Table 1.1 shows the total funding from all sources available to the entity for its operations and to deliver programs and services on behalf of the government. The table summarises how resources will be applied by outcome (government strategic policy objectives) and by administered (on behalf of the government or the public) and departmental (for the entity's operations) classification.

Information in this table is presented on a resourcing (that is, cash available) basis, whilst the 'Budgeted expenses by Outcome 1' tables in Section 2 and the financial statements in Section 3 are presented on an accrual basis.

<u>Please note</u>: All figures shown above are GST exclusive – these may not match figures in the cash flow statement.

1.3 Budget measures

The Mint has no new budget measures.

⁽a) Excludes trust money and "other CRF money" held in accounts like Other Trust Monies accounts (OTM), Services for Other Government and Non-agency Bodies accounts (SOG) or Services for Other Entities and Trust Moneys accounts (SOETM)). For further information on special appropriations and special accounts, please refer to Budget Paper No. 4 – Agency Resourcing. Please also see Table 2.1 for further information on outcome and program expenses broken down by various funding sources, e.g. annual appropriations, special appropriations and special accounts.

Section 2: Outcomes and planned performance

Government outcomes are the intended results, impacts or consequences of actions by the Government on the Australian community. Commonwealth programs are the primary vehicle by which government entities achieve the intended results of their outcome statements. Entities are required to identify the programs that contribute to government outcomes over the Budget and forward years.

The Mint's outcome is described below together with its related programs. The following provides detailed information on expenses for each outcome and program, further broken down by funding source.

Note:

Performance reporting requirements in the Portfolio Budget Statements are part of the enhanced Commonwealth performance framework established by the *Public Governance, Performance and Accountability Act 2013*. It is anticipated that the performance criteria described in Portfolio Budget Statements will be read with broader information provided in an entity's corporate plans and annual performance statements – included in Annual Reports – to provide an entity's complete performance story.

The most recent corporate plan for Royal Australian Mint can be found at: https://www.ramint.gov.au/corporate-plan

The most recent annual performance statement can be found inside the latest annual report at: https://www.ramint.gov.au/annual-reports

2.1 Budgeted expenses and performance for Outcome 1

Outcome 1: The coinage needs of the Australian economy, collectors and foreign countries are met through the manufacture and sale of circulating coins, collector coins and other minted like products

Budgeted expenses for Outcome 1

This table shows how much the entity intends to spend (on an accrual basis) on achieving the outcome, broken down by program, as well as by Administered and Departmental funding sources.

Table 2.2: Performance measure for Outcome 1

Table 2.2 below details the performance criteria for each program associated with Outcome 1. It also summarises how each program is delivered and where 2021-22 Budget measures have created new programs or materially changed existing programs.

Outcome 1 – The coinage needs of the Australian economy, collectors and foreign countries are met through the manufacture and sale of circulating coins, collector coins and other minted like products.

Program 1.1 – Royal Australian Mint:

To produce and distribute circulating coins and minted products to meet the demands of the Australian economy, collectors and foreign countries.

Delivery	,
----------	---

- Production, maintenance and sales to meet demand for:
 - Australian circulating coins;
 - Foreign country circulating coins;
 - Numismatic products; and
 - Other custom minted products.
- Maintenance of Australia's National Coin Collection.
- Cultural and education services to public and school groups:
 - Maintenance of the Mint's visitor gallery, including building and surrounds;
 - Educational programs to school students who visit the Mint; and
 - Promote public understanding about the cultural and historical significance of coins.

Section 3: Budgeted financial statements

Section 3 presents budgeted financial statements which provide a comprehensive snapshot of entity finances for the 2022-23 budget year, including the impact of budget measures and resourcing on financial statements.

3.1 Budgeted financial statements

3.1.1 Differences between entity resourcing and financial statements

There are no material differences between entity resourcing and financial statements.

3.1.2 Explanatory notes and analysis of budgeted financial statements

The Mint has two streams of revenue. One stream comes from production and subsequent sale of circulating coins at face value to commercial banks. The second stream comes from sale of collectible products (numismatic, foreign circulating coins and other minted products).

The Mint's Departmental projected results for the 2022-23 and forward years reflect the Mint's focus on identifying opportunities in its collectible business (refer to table 3.1). The ongoing implementation of 'lean' principles will enable the Mint to manufacture its products in a more efficient manner which is expected to deliver a reduction in cost and improved business effectiveness.

An after-tax surplus is budgeted on the sale of collectible products of \$8 million which will contribute to the total return to Commonwealth.

The Administered surplus from seigniorage is expected to be \$27 million (refer to table 3.7).
